For those who desire and will have a Liquor Bitter, we publish the following receipt. Get One Bottle Hoofland's German Bitters, and air with Three Quarts of Good Brandy or Whichy, and the result will be a preparation that will far excel in medicinal virtues and true excellence any of the numerous Liquor Bitters in the market, and will cost much less. You will have all the virtues of Hoofland's Bitters in connection with a good article; of Liquir. at a much less price than these inferior preparations will cost you.

ATTENTION SOLDIERS. AND THE FRIENDS OF SOLDIERS AND THE FRIENDS OF SOLDIERS

We call the attention of all having relations or friends in the army to the fact that "HOOF-LAND'S German Bitters" will cure nine teaths of the disease induced by exposures and privations incident to camp life. In the lists, published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured by Hoofland's derman Bitters, Diseases resulting from disorders of the diseastive organs are specifly removed. We have no hesitation in stating that, if these Bitters were freely used among our soldiers hundreds of lives might be saved, that otherwise will be lest.

We call particular attention to the following remarkable and well authenticated cure of one of he nation's heroes, whose life, to use his own and unsee "has been saved by the Bitters."

DAJLY POST.

The Conquest of Ohio. failed to respond. While the "Copper-head" governors of New York and New Jersey hurried men to Harrisburg, not a single soldier was raised by the Union Governor Tod. But the draft is neverthe less suspended in Ohio, and for what purpose? Why it is a bribe to the people of that State to vote against Vallandigham for governor. This is the whole secret of the matter. The extended military operations in the West require soldiers, and at once : yet Mr. Lincoln delibertly allows 20,000 men to stay at home to persuade them to help beat a man for office less suspended in Ohio, and for what pur made them to help beat a man for office very well for the administration voters to to boast how easy a matter it will be to beat Mr. Vallandigham at the polls, but this step touching the draft showws that

every desperate expedient will be tried to make sure of it. Profligacy in Washington. The correspondent of the Boston Traveller, thus discourses of matters and

things in Washington: It is useless to deny that war has, in a Testifying of their own personal knowledge, to the beneficial effects and medical virtues of these

CONDITION OF THE REBEL FINANCE.

Letter of the Rebel Sceretary of th Treasury to Mr. Hunter.

The Bickmond Whig publishes the folowing letter from Memminger to R. M. I'. Hunter, upon the subject of the rebel currency. It tries to put a good face on the condition of the rebel finances, but Toombs' letter tells a different story from

TREASURY DEPARTMENT C. S. A. RICHMOND, Aug. 24, 1863. "Hon. R. M. T. HUNTER-Sir: In reoly to your inquiries about the finances, send you a condensed statement of the issue of treasury notes and of the funding operations of the treasury. You will see from this statement that the funding has been eminently successful; and you will learn, also, that the amount of out

the outstanding Treasury notes, used as a general currency, amount almost exactly to three times this much. Two absorbents are now added, which will keep down the excess from new issues, namely, the taxes and sale of cotton bonds: and when the tax in kind begins to contribute its portion to the appport of the army, there is every reason to believe that the currency

can be sustained.

"It is obvious, from this statement, that of the corrows, from this statement, that the popular notion of estimating the value of the currency by a comparison with gold is altogether fallacious; for while the actual volume of currency has only been increased three-fold, its proportions to gold rates at more than double that amount, he fact is, as you will know, that situated as we are, gold is as much a commercial commodity as platima and tin, and its price is governed by the law of supply and demand. As I have already shown in the repert referred to, wheat and core show much more reliable standards of value, when their prices is not controlled by some local obstruction, and by referring to these it will be seen that the currency has maintained itself at the ratio which the outstanding issue indicate. You will perceive, by the statement that unning all the various appliances for unding there has been funded in bonds \$232,404,670; to which, according to estimate, there is yet to be added about \$70, 000,000 more, which are yet in the hands of the treasury officers to be funded; making in all about \$302,000,000 -add to this \$15,442,000, deposited in the five per

cent, call loan, and we have an aggregate of nearly \$318,000,000 withdrawn from The New Government of Virginia. Gov. Pierpont, in an address to the people of Virginia, announces that ue has established the seat of government at Alexandria. He says that if resistance to the civil authority be attempted, and the posse comitatus prove insufficient, the aid posse comitatus prove insufficient, the aid of the military, as a last resource, will be invoked to enfoace the laws. He is happy to be able to say that the President manifests the most lively desire for the restoration of order in the State, and disposition to assist by every means at his command to restore the civil government, and produce harmony.

Having had a man employed for the last six years compounding the above excellent remedies for my own practice, and having used them with uncommon success in all that time, I feel it a duty to set them before the publie, as my experience leads me to think they are as near specifics as any remedies well can be for the following diseases, namely: Scrofula, Coitre, Syphilis, and all diseases that arise from an impure state of the blood. One trial will convince any person of their fitness for those diseases.
