Democratic Nominations. FOR GOVERNOR, GEORGE W. WOODWARD,

FOR SUPREME JUDGE, WALTER II. LOWRIE.

THE COUNTY CONVENTION YESTERDAY

The Democratic County Cenvention yesterday, the proceedings of which we publish in our local department, was one of the best, as regards both character and numbers, we have seen for a number of years. The proceedings were harmonious; the resolutions adopted brief and to the point; and the ticket selected for the suffrages of the people is really

The spirit and numbers of this Conven tion plainly indicate a quiet and wide spread reaction going on among our citizens. Every delegate we conversed with had encouraging news from his neighborhood, promising good results to our gallitionists obtained power, we all rested so securely in the enjoyment of our rights, that we did not appreciate them; but now that these rights are being taken from us one by one, the people are beginning to grow apprehensive of what may happen. In the name of necessity upon the part of disloyalty to the Government, they may go on until they have themselves firmly the winne. fixed as permanent rulers of the people. Necessity is a very generic term; in its name great outrages have been perpetrated, and the apprehension is that "worse remains behind.

HOW TO END THE WAR AND

RESTORE THE UNION. On Monday last we published a letter for veracity was strongly endorsed by the National Intelligencer, giving an account of the state of feeling in regard to the reeled. After alluding to the despondency among the rebel leaders, because of their late reverses, Mr. Adams, speaking of the masses of the Southern people, remarks: known the co In view of these simple truths I would ask, cessary arrangements. "In view of these simple truths I would ask, Messrs. Editors, through the medium of your invariable journal, if the President cannot afford to be magnanimous? If, after the fall of Charleston, he cannot afford to ofer some terms which shall induce the great body of the Southern people to return to their allegiance to the Federal Union and the Government of the United States? If he be ambided to the shall induce the shall induce the shall sh

The publication of the letter in question hae aroused the rage and indignation of the radicals throughout the country .-The idea of the war "for the Union," being concluded, before their darling schemes of emancipation and Southern subjugation are fully consummated, is harrowing up their very souls. Tell them that if it was not valid, it is a nullity in itself, and the Courts will so declare it, as the President cannot. Say to your fri ads of the Intelligencer, too, that the countrs will refuse to accept its alternative of Liana and Stavery, or freedom and protracted war, ho wever much it may labor to warry the hawk and the dove, or join those things together, between which God and nature have decreed an eternal separation, we have tried the finion of the New And found it would not work."

Their pretended war "for the Union" was a chest, a villaincus swindle to deceive the people. They commenced hostilities, not for the preservation of our I nion, but for the destruction of slavery: they have prolonged hostilities for the same purpose and they now openly proclaim their determination to accept no restoration of the Union until their bloody purposes are If the amount is not sufficient let me know and in my next I will send you the differfinally and completely accomplished. But are the people, the sober, serious and reflecting masses prepared to sustain a war for exterminating the innocent white millions of the South, in order to give freedom to some millions of slaves? Are hostilities to be continued indefinitely in order to appease the vengeance of bloody and brutal A bolitionists, who, in safety at home, exult in carnage and blood? These questions the people of Pennsylvania will be called upon to decide at the approaching elec tion. For, be it remembered, that if the people of our State endorse by their untrammeled suffrages the party in power thereby giving them an additional lease of office, the radical element, of the Gazette class, will force the national Administration to rigidly enforce all of their programme. The Southern States will not be permitted to return to the Union, except upon Abolition conditions. The millions of the North may long for a cessation of hostilities, which are, unnecessarily, killing off their relatives and friends; but the inexorable spirit of Abolitionism will not yield their antreaties for passa. Conserve the solution and the solut to return to the Union, except upon Abotion acts will be renewed to raise additional forces to be used for Abolition pur-poses, and the very blood and agony of the metion exhausted in andeavoring to tional forces to be used for Abolition purthe nation exhausted in endeavoring to secure Negro Emancipation.
