PITTSHURGH OIL TRADE,

Wednesday Sant 16th WEDNESDAY, Sept. 16th.

The market yesterday was inactive. The transactions were few and far between. A general firmness has taken possession of the various descriptions of oi. The market at present being bare of stock, there is nothing left to operate with. The high rates of freight between Oil City on and Fi tseurgh prevents parties from shipping as there is no money in such operations. In New York the market was dull, and prices altogether nominal. Holders just now have matters all in their own hands. The exports east since our last was very limited only 722 brls refined and 154 brls of crude. The im; orts during the same period were per A, V. R, Road 331 brls.

Having had a man employed for the last six years compounding the above excellent remedies for my own practice, and having used them with uncommon success in all that time. I feel it a duty to set them before the public, as my experience leads me to think they are as near specifics as any remedies well can be for the following diseases, namely: Scrofula, Coirre, Syphilis, and all diseases that arise from an impure state of the blood. One trial will convince any person of their fitness for those diseases.
