

It is universally conceded that she is the best dressed lady of Europe. She sets the female fashions for the world; and employs not only modistes but artistes to invent them. Her 'department of ready made clothing" is something immense. — To say to that she has a new dress for every day in the year, would not begin to convey an idea of the extent and variety of her wardrobe. In the front centre of the ceiling of her of her wardrobe. In the front centre of the ceiling of her Mejesty's private dressing room, there is a trap door opening into a spacions hall above, filled with "presses," each con-taining a dress, exhibited on a frame-looking like au effigy of the Em; ress her: is a little railway leading to the aforesaid trap door, through which the dress is "de-trap door, through which the dress is the de-trap door, through which the dress is the de-trap d is a little railway leading to the spressie, "The day to used the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators is a stable way leading to the spressient of the incalculable acronators in the senators in the senato thing, in material, fit and color, is as com-plete in harmony as a sonata of Beethoplets in harmony as a sonata of Beetho-ven. This is the great secret of the "art of dress." A woman who wears discor-dant ribbons, breaks that sense of visual melody, commonly called "good taste," without which not even the Duchess of Goloards can dress well. Certain color HISON PEROF. JAPAN TRA of every description, colorod uncolored. ven. This is the great secret of the discor-dant ribbons, breaks that sense of visual melody, commonly called "good taste," witbout which not even the Duchess of Golconda can dress well. Certain colors are incongruous and inharmonic as cer-tain notes in music; and the artists who compose dresses for the Empress Engenie, study these natural laws of harmony as carefully as the painter the hues of his
