TERRIBLE OCCURRENCE -A terrible oc ourrence transpired on the line of the Pittsburgh and Stenbenville Railroad yes-terday afternoon, about four miles from this city. It appears that a contractor named Michael Sullivan, with a number of men, was employed on the above road, and that a cart filled with dirt broke through a piece of trestle work stretched across a quarry in which a number of men were at work at the time. Mr. Sullivan was struck on the head by the falling time bers and instantly killed. Christopher Burns, the driver of the cart, was so badly injured that he is not expected to live. He was in a dying state to day, and cannot recover. Martin Concor and Patrick Carns, who were at work in the quarry, were both dangerously injured. Connor for assessment, should be made personally, and the law requires that every application for assessment, should be made personally. Sullivan resided in Beaver county, and was a worthy, industrious man. He leaves a wife and feeling man. He

THE RACE To DAY -Quite a large delegation of our sporting population, in-cluding two or three of the Mayor's po lice, will be present to day at the great race between Hammill and Ward, which comes off at Poughkeepsie. It is said that large sums of money have been wa-gered here on the resuit. A certain clique, for reasons best known to them-selves, took up the cudgels for Ward, and on Wednesday and Thursday some \$2,000 was bet that he would win the race. Ham mill's friends, however, came to the resounding sold time, and put down the metallics in such abundance that the Ward Townsend sts. men had finally to "take water" and "cry enough." As it is, we suppose that there are fully \$6,000 bet on the race here alone, so that let whoever will win, that amount is certainly bound to change hands on the issue. We confess to a feelhands on the issue. We confess to a feeling in favor of Hammill, and would be sorry to have to record his deteat to mor-

HAY FROM ILLINOIS. - We noticed a day or two age, that the high price of coal, had induced many of our citizens to supply themselves from the East. We observed yesterday that M'Bane & Aljer, observed yesterday that M Bane & Aljer, Second street, were in the receipt of an extensive lot of hay, in bales, from the rich and fruitful meadows of Illinois. Up, on inquiry, we learned that hay could be shipped from Illinois and sold in this market at a loss rate than demanded for it by ket at a less rate than demanded for it by home producers. Hay has recently commanded an almost fabulous price in this market and it will be cheering intelligence to all who use the article, that this new channel of supply promises, at least, to have have from going up in price and keep hay from going up in price any higher.

SERIOUS ACCIDENT. - On Saturday after noon a little girl named Gardner, aged about twelve years, in the service of Mr. Dillon, on Elm street, Sixth Ward, met with a serious accident. It appears that she was attempting to throw a pan of pair ings from a porch over into the alley, when she lost her balance, and fell on the pavement below, a distance of some twelve feat receiving. feet, receiving too very severe cuts on her head. Dr Halleck was called in and dressed her wounds. Her injuries, though severe, are not fatal, but from the manner in which she fell, it seems almost miraculous that she escaped with her life.

In our notice of the Fire Department yesterday, we stated that the "Neptune" boys were brushing up for a pleasure trip to Detroit. We might have added that their object in going there is to compete for one of the prizes in the Grand Fire men's Tournament, announced to come off in that city early next month. We may also state that, with the exception of one day last week, this engine has not been

Miss Herron.—This talented and popular actress has been re-engaged for an other week at the theatre, and will appear this evening in a new and original tragic play, written expressly for her by Charles Gaylor, entitled, "Aspasia. the Queen of the Salons." Manager Henderson deserves the thanks of the patrons of the drams for the re-engagement of Miss Herron, and whilst the public will be gratified, we opine the treasury receipts will be abundantly satisfactory to the management.

General Rosecrans, in his dispatches, imputes the loss of the battle to disobedience of orders on the part of Gen. McCook, who failed to occupy an important position assigned him by Gen. Rosecrans. Had he done as ordered, Rosecrans opinion is that the battle would have resulted in a splendid I non victory. Great auxiety is felt here in army circles for the safety of General Burnside. In order to reinforce Rosecrans, his only safe course would be to cross the Tennessee river and move down between the river and the mountains, or to penetrate to some of the gaps and move do on behind the mountains.
