changed. We omit quotations PITTSBURGH OIL TRADE, WEDNESDAY, Oct. 7, 1863. There is no use in attempting to disguise the fact, the oil market is about as dull as it can be, there being no buyers at the present rates. Sales made on private terms are pretty well understood by those engaged in the business. Whilst the article is steadily declining in New

York, it is shear folly to expect to sell at the rates manded here. The stocks in this market is not large, but at the present prices far exceeds the demand, in fact buyers refuse to take hold at the resent asking rates. As we said yes erday the best market for oil is at Oil City, and the wells where the article is procured, one of our most intelligent dealers informed us, that he had written some of the largest dealers who supplied him with oil, advising them to sell on the spot in

Our naval officers and sailors believe that Admiral Farragut will soon take command of the fleet in Charleston harbor, and they express the utmost confidence that the result of the operations there undertaken, will be successful.
