Gen. SIGEL, one of the officers of the VOODWARD by thirty thousand majority. United States army, has, like BUTLER and THE TRUTH AT LAST. ROSSEAU, descended to making stump speeches, advocating the re-election of It was generally thought that it had heavestablished that the Washington and Gov. GUBTIN. CURTIN, during the hey-

day of Know Nothingiam. in 1854, made a speech in Centre county, in which, alluding to the Germans, he remarked, that 82Y9 : they had "two skulls, and that one had to be broken through, before any enlighten ment could be hammered through the other." This same CUBTIN is now a can didate, and FRANZ SIGEL feels it compatible with his duty as a German born, and as an officer in the army, to advocate his continuance in an office which he has diagraced.

The Abolitionists never exhibited great er hypocrisy than in their present pretended admiration of Gen. SIGEL ; if that party really entertained anything but contempt and hatred for his countryme living amongst us, why do they not show it in some substantial manner. I is notorious that the German vote of

our county goes far to make up the Aboli tion party, and yet there is not this fall single German name upon that ticket. Abolitionists can be very full of professions of friendship for the Germans upon the eve of an important election; the loaves and the fishes, however, they take particnlar attention to distribute among themselves.

The speech of Gen. SIGEL was not cal culated to strengthen Gov. CURTIN; i was a war speech, in which the speaker hinted at the probability of its continuance for ten years to come. This may be a nice prospect for officers in the army strong team. upon big pay and rations. who were like many we know of beggars before the war broke ont; but it is not a pleasant contemplation for us who have to pay the taxes. Were we in the army, in any capacity, from Major General to sutler, luxuriating in large income, with a bright prospect of its continuance, we might, like Gen. Si GEL, be favorable to war for the balance of our life; but situated as we are, as Dr, O'CALLABAN remarked, "circumstance as we are," we are anxious to have it over "Corsair:" just as soon as possible. The Adminis-"Helefi a shoddy rame to other times, tration at Washington and Harrisburg, have proved their utter inability to conduct hostilities against the rebels. This is known to SIGEL, as well as it is to the coun try, but he is a professional soldier; fighting is his vocation, and when not in action h conceives it to be his duty to obey orders in a civil department. He is, therefore, This sort of patriotism is a paying profession. Look at BEN BUTLER going about dressed up in a gaudy uniform, making name would be worth ten thousand votes buncombe speeches-instead of being in to CURTIN. the field-for which he receives the snug pay of a Major General. Such situations are very rare, indeed, and it requires very

great virtue to resist their temptation. When, therefore, we hear of BUTLER announcing himselt as having been a "long life Democrat',' we think of his large speeches for CURTIN. salary and rations, and his buncombe is in stantly dispelled.
