UNION PRIGORERS AT RICHMOND.

How They are Starved to Death—Horrible Life in Libby Prison—Interest. In o'clock, a. m.

Rev. George H. Hammer, Chaplin of the Twelfth Pennsylvania Cavalry, who was recently released from Libby Frison, furnishes the Philadelphia Inquirer a long account of his captivity and of the suffer-

Dinner and Supper Scanty.

The morning is spent, he knows not durgeon for five or eight days on bread and control of the Sixty-

Do you ask me as to the amount of hood received daily by each officer? The question is easily answered. One-fourth pound of very tough raw beef and bones, very little over ten onness of bread, very heavy and sour, a little rice and infintes imal quantities of salt and vinear. This imal quantities of salt and vinegar. This was the amount of rations received, though I will do the anthorities the justice to say that it was hardly the amount al.

The remaining part being empropriate the condition of the officers to say that it was hardly the amount al.

dred men, and many were the scenes of wrongling and disorder caused to be the lucky possessor of these useful articles. We to the man who was last in the race; fingers must then do the work. dition of the recital can well be imagined—filty in the extreme. The floor, the cracks in the post and doors and the win-

still. Supper arrives, and as the meat boiled at noon must go for the morning's hash, he must fast, having doubtless consumed the last morsel of bread for dinner. Thus on, day after day, no relief, no change, except the ephemeral excitement caused by the thousand and one idle runors that float round without parentage or history. Do you think that I am giving a fancy sketch, and drawing upon my it is alltoo true.

In Many sank under it, and, falling away into iiving skeletons, were passed over to the hospital, in the other end of the building where they lived or died as circumstances might decide. How often have I seen this; so often that it had long since ceased to call forth special attention. Did hose stronger picked them up and strove to have them removed to the hospital. Did they die, their bodies were carelessly put to one side until convercence suites them to hurry them underground. During the them to hurry them underground. During the them to hurry them underground. During and other causes the prisoners suffered and other causes the prisoners suffered disagreeable water was intense, and the disagreeable water was a functional form his bed and follow him. He was placed one one of the knowledge of the dangeons spoken of, and upon asking what were the charges and upon asking what were the charges and prough you, you shall soon find out. Here, with a ball in his back he remained five weeks and four days, part of the time without a ball in his back he remained five weeks and four days, part of the time without and upon asking what were the charges and founders one one of the charges and four days placed on one of the charges and was newered. God won, you spull shoon find out. Here, with and upon asking what were the charges and four days, part of the time placed in one of the hard. I may give, you shall soon find out. Here, with a ball in his back he remained five weeks and four days, part of the time without a ball in his back he remained five weeks and four days, part of the time without and four days, part

great. Add to this the fact that from diet and other causes the prisoners suffered greatly from dysentery, aggravated by the disagreeable water we were obliged to drink, and I know not, indeed, how we passed the summer, or bore up under the accumulated woes of our stua on.

The Amount of Food Allowed to Prison to go you ask me as to the amount of food received daily by each officer? The question is easily answered. One-fourth to pound of vary tough raw heaf and horse.

"He was released, I know not how, and placed among us. This officer was the victim of irresponsible authority and fiend is cruelty as wielded by this prison in spector. While confined in the cell, the Colonel, who is a christian, asked in writing twice for a Bible, but no notice was at Gettysburg, was slapped in the face to by this inspector, for saying that he thought he had no right to take from him a small fragment of shell which he had in his pooket as a relic. His acts of brutality pocket as a relic. His acts of brutality are sumberless.

Brutal Treatment of Enlisted Men. though I will do the authorities the justice to say that it was hardly the amount allowed, the remaining part being appropriated by officials. However small the appetite of the prisoner, if well he could learned from sources at present and learned from sources at present and learned from sources at present meel and look around for more. At the time of which I speak the officers were not allowed to purchase or receive any as the daily ration. The bread was very unpalatable and unwholesome; the beginning oftentimes tainted, and sometimes evidently diseased, as we could see where tries we obtained beans or peas, we receive tumors had been extracted. If in lien of ed with them no small quantity of animated life, in the form of worms, fat and plump.

The Interior of the Libby Prison.

Fancy a room 102 feet long and 40 feet wide, occupied by 160 officers as sitting froom, dining room, bed room, &c., all in large and the amount allowed. I cannot describe the condition of the enlisted men, as seen by the officers and learned from sources at present the enlisted men, as seen by the officers and learned from sources at present the enlisted men, as seen by the officers and learned from sources at present the enlisted men, as seen by the officers and learned from sources at present the enlisted men, as seen by the officers and learned from sources at present the enlisted men, as seen by the officers and learned from sources at present the enlisted men, as seen by the extremely form many brave souls who have gone up to testify at the bar of gone up to testify at the bar of God to the barbarities practiced upon them. Many of them, also, were shot by the guard was repaired from sources at present and learned from sources at present maneless. Hunger, bad treatment, and exposure, have done their work too surely for many brave souls who have gone up to testi
