The regular pork packing season will commerce next week if the weather remains favorable. Messrs, Heffman, Dunoan & Co, yesterday took advantage of the weather and were killing all day, This is the first lot of hogs that have been slaughtered in our city this season. We understand that Messrs. Hamilton & Bros, will commence killing to-day, as they have a considerable number in pens.

The general impression among Pork-packers is that the number of hys slaughtered around the falls this season wil be as larried as that of last season. The hogs that have arrived as far pare light, and there will probably be a failing off in their weight this year as compared with that of previous years.
