DAILY POST.

PITTSBURGH:

SATURDAY, DECEMBER 5, 1568.

sample of the entire article:

"It is what it calls, with a strange discame a passive tool in the hands of the meanest and most arrogant aristocracy in the world-a party made up of men who have always been aristocrats, and who are now rebels and traitors, together those who either corruptly or snobbishly cling to their skirts, do their bidding, bask in their patronizing smiles, or share in what plunder they are pleased to cast in their way. Such is the political edifice which is still called 'the Democratic party.' But as every edifice must have a foundation, so this has a foundation, composed—first, of a multitude of pages. composed—first, of a multitude of negro slaves; next, another multitude of poor Southern whites, whose ignorance, vices, and abject condition have laid them almost as completely under the feet of the ruling class as are the negroes themselves."

Now, this sort of stuff is about as pointthe Constitution of our country. The al sponsible for its existence. When the Whig party ceased to exist Abolitionism brought the wretch to the dust. He is took its place; and after an agitation of still alive, but in a critical condition. The four years it found itself in possession of other convicts at once returned to their the Government; but its success brought occupied the same ground, in relation to slavery, that HENRY CLAY did, and that was that those who did not favor it, were

not responsible for it. But these old fashioned ideas have, after eighty years experience, been aban doned for the theories of WENDELL PHILLIPS and HENRY WARD BEECHER These persistent traitors to their country who but a few years since were detested by all who desired the perpetuity of our institutions, are now the great power which directs and controls our national administration. And mark the fearful and rapid progress of their destructive teachings. With their success came desolating civil war; with the war's progress have come death and desolation throughout the land. Every right which the States pos sessed is usurped by a central nower as inexorable as a profligate Congress could make it. Our elections are mere farces. and the freedom of speech and of the press exists only by the sufferance of those in power. A party which came into possession of power-s million in a minority -because of the Constitution, discards that instrument, and is now contemplating the permanent usurpation of the Govern ment. For the truth of the assertion we point to usurpations already committed: beside those which are contemplated. Mr. SEWARD, the head and front of the Ad ministration as well as of his party, the other evening in Auburn, N. Y., gave expression to the following, which fully justifies our assertion. He said: "Let us not be deceived. ABRAHAM LINCOLN must be President of South Carolina and Georgis by virtue of the election of 1860. or not only the peace of the Union, but the Union itself is lost forever. It is injustice and downright robbery of Abraham Lincoln to refuse him the full enjoyment of the anthority conferred upon him by that election. If a man has a house, a horse, or a bost, and it is taken from him, all

These avowals, in addition to the course pursued by the Administration, in sending soldiers home to vote for its candidates, will give us a fair idea of the policy of the Abolition party. Let the reader reflect upon it, and then contrast the teachings and practices of the Democracy, since the days of Jefferson, with those of the rebellion, but if Grant keeps on at this rate he will soon get them all back again.

The Great Purifier—The world Challenged to Produce its Equal—The Blood-Searcher Gloriously Trium—phant—Sworn statement of David McCreary, of Napire Township, Bed ord County:

In April, 1856, as near as I can remember, a small pin ple made its appearance on my upper lip, which soon became enlarged and sore. I vised positioes of sorel, and a wash of blue vitrol, without effect. Finding the sore extending, I called on Dr. Ely, of Shelisburg, who pronounced it CAN. ER, and presenthed a wash of surar of read and broad positices. Finding these remedies of no avail, I casled upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter cansisting principally of cautic—but all to no purpoe, as the disease continued spreading toward the nose. I next uned preparation of ars. Inc. in the form of salve. This for a time checked the disease Cancer, and so pronounced appearation of ars. Inc. in the form of salve, who also pronounced the disease Cancer, and so pronounced to the salve of the salve principally of cautic—but all to no purpoe, as the disease continued spreading toward the nose. I next uned preparation of ars. Inc. in the form of salve, This for a time checked the disease Cancer, and applied as salve, said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December, in the rame year, the disease had eaten away agresser part of my lip, and attacked the nose, when I went to Cincinnati, where I consulted Prof. R. ... New ton, of the Electic Medical College—He pronounced the cisease a continued sum Rowton's point and the salve was a continued sum Rowton's preparation, and the formal remedies when I remained whit September, during which time he cased every known remedy, and partly succeeded in checking the disease, but

rehef, but that a cure was impossible. In March, 1853, I bought a bottle of "Mood-Searcher," but I must cooless that I had no faith in it. I was very weak when I c mmenced using it; but I found that I gained strength day by day, and also that the ulcers c mmenced drying up. I continued, and when the third bottle wis taken my face was healed as if by a miracle, I used a fourth bottle, and I have been healthier since than I have been for the last; even years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and when has been due through the ins remantality of "Lindey's Improved Blood-Se reher." If there be any who still doubt that Lindsey's Improved Blood Searcher has and will perma-nently cure the most deeperate and long-standing cases of Torofula, le them read the following neatly cure the most deeperate and long-standing cases of verofula, le them read the following and be convinced:

Dr. J. M. Lindeey: I was afflicted for a number of years with a disease said by my physicians to be Scrofula. For the last three years I was so bad that I was unable to be out of my bed. I tried all the remedies and the besti physicians I was able to procure, without any beneficial result. I continued growing worse until the fisen and skin were entirely eaten off the left-side of myface, neck shoulder and arm. My sufferings was so great, and I was so far reduced, that it required the efforts of two persons to move me in bed. This was my condition when I was induced by the Meyers. Rayton, to try your improved Blood-Mearcher, which, to my great reliet, and the satisfaction of my friends. I soon discovered was helping me. I continued the use of it, and gained so rap-dy-that in considerably less than one year I was able to go about and attend to some of my household duties, and the pagis effected were all healed up, and sovered with sound, healthy fieth and skin, and have so continued ever ince; and Inow enjoy a state of health that I had for years given up a I hopes of ever again being blessed with.

Being afflicted with a grievous teiter on the arms and face—a ter tryin, many remedies which utterly failed to oure—I was persuaded by W. M. Barris & Co., to try Lindses's Luproved Blood-Searcher, "and how, six weeks after using the second bottle, pronounce myself oured. The tetter broke out something over incyear ago, on the inside of my a-ms, extending from the albows down to the wrist; also on my isee, immediately around the routh and chin, and continued to be a perfect forment to me unti-vared by the Blood-Searcher. My arms were at times almo t u-slees, owing to the deep cracks and so so in them, liable o bleet at at any time on the least exertion to its or work, and sometimes so itery I could soarcely prevent tearing off my itesh. I have now been cured six weeks, and I feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefited by ung his in alinable mediene.
