The arrival of several hundred head of fresh stock has proved entirely too much for the demand. Indeed, we night say there is no demand. It is certain that butchers can buy stock to-day at to \$ D less than yesterday; sellers say 10 % D. Some of the wholesale butchers say the same and regret that they bought a supply yesterday. The number of oattle in market proves much larger than dro-vers anticipated, and those who bought stock at high rates, abticipated a large advance, partica-iarly those which arrived for the olosing day, will not make so larges a plue as they suppected. McClellan arrived at New Orleans on the 3d, from Brazos, Texas: coast bringing Gen. Banks and staff. iarly those which arrived for the olosing day, will not make so large a plie as they expected. It will be observed by way of explanation of the herd close of the market that there are over 700 head mire bull.ocks on sale at Allerton's than wo had last week, and the number at all the market places again exceeds 5.000 head for the week. It inay also be noticed that the number from this state continues very large. Some speculators, who have cone West to buy cattle, anticipate a considerable rise of prices as soon as the New York State stock is exhausted. Perhaps the that close of this market will chock the expec-tations of some of the speculators who are now Volt State Tore. The domain of the speculators who are now Volt State Tore.
