c thousands. This universal preference or the Wheeler & Wilson Machine is based upon the fact that it is a great living reality, and not a dubious experiment, as too many find other machines in the mar-ket to be, to their sorrow. The permanent supremacy of this great machine could, in fact, no sooner be supplanted than you could supplant the North star, or upset a mountain. Again we say to all, approval. The corrections are then made, call at their sale rooms and see the variety of works which can be done on these

machines.
