Dr. Gro. H. KRYSER:-I became afflicted with

Piles about twenty years ago, and every year they were growing worse, so as to trouble me very much, so much so at times as to usut me for work. Some imes I was so bad, that I could not do anything on account of them, they came out on me as large as a hickory nut. I had tried a great deal of medicine for thom. I used to buy and take what ever I could hear of or read of, in circulars and pamphie's that fell in my way, bu I could not get cured, sometimes they would de me some good for a little while, but afterwards they would return again as bad as ever. I also applied to two Doctors, who visited me at my house and gave me some medicine but it would searcher, made by yourself—when you sold it to me you told me one bottle would not our one, and that my whole system would have to be renewed by the medicine before I got well.

The undersigned is the only rollable and practical workman in this coment in this city.

I have applied this Coment for the collowing gentlemen, whom the rubilo are at liberty to refer to: not do, I could not get well. Over a year ago, I ed to see you again, when you said I could not expect much benefit from one battle. I bought it on, one bottle at a time, until I had used five bottles. After this quantity had been used, I was entirely well of the piles, which had tortored me for' twenty years In other respects m health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and there is no appearance of a return of the disease. I can do any kind of farming work now without the piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When I found ont your blood Searcher I kept on taking it until I got entirely well. I consider it my duty to make my case known to the country for the benefit of others who may be suffering as I was, and do not know the value of your medicine. The victories at Vicksburg and Chattanooga, especially the latter, give us other advantages, which, however, are rather prospective than present. The next rebel line of defence, lowing to the situation of streams and railroads in the South, must be formed with its left on Mobile, its right covering Richmond, and its cen tre fronting Grant, at Atlanta. It is only by thus reforming their lines that the will be able to preserve communication between the wings-a condition absolutely essential to the strength and integrity of this cordon of defeat. Small bodies may for awhile dispute the possession of such points as Jackson, Meridian, and Falton, while it is certain that guerrillas will in-fest the whole country north of the new rebel line; but all such operations are irregular and valueless beyond the tem porary annoyance they may cause an advancing enemy, as they do not at all af fect the vital issues which must be met and ettled at Mobile, Atlanta and Richmond This new line upon which the rebel rmine are thus forced is their last, and.
