ARMY OF THE POTOMAC, Jan. 26 .- Our pickets near Raccoon Ford, were driven n a few days since by about sixty men belonging to the rebel cavalry, who crossed the river and had a brief skirmish but were afterwards repulsed and com pelled to retire in confusion. A considerable force of rebel cavalry and infantry was visible on the other side of the Rapi dan. Deserters who came into our lines at this point do not confirm the state-

ments that any part of Lee's army is be ing, or has been lately sent from Virginia. They say that the army is somewhat widely scattered, but they do not believe any portion of it has been sent off; the re certain no troops have gone from the mmediate commands which they have

The representation by other deserters The representation by other deserters that there is a fearful scarcity of forage, is confirmed—not only has forage become difficult to obtain, but horses for cavalry and artillery service who are reduced both in number and efficiency. The rebel cavalry is consequently fast losing its power to cope with the gallant Union cavalry under Generals Gregg, Kilpatrick and Metritt. A batallion of the 16th New York cavalry made a reconnoissance to Wolf Run shoals and Occoquan, but dis covered only five or six rebels where they expected to meet a comparatively large force of the enemy.

On Saturday the rebels in front of Kilpatrick's division undoubtedly had a fight among themselves, as heavy artillery and infantry firing was heard there. The ar-

tillery firing was so heavy that a dispatch was sent from the headquarters of the army to Kilpatrick's division to know where it was and what was its cause. Deserters who came into our lines there previously report that no supplies are received by Lee's army in advance of its actual necessities. Among the deserters are guards who were assigned to the duty of watching the rebel pickets, but who slipped into our lines to take the oath of llegiance.

New York, January 26.- A Morris Island letter, of the 21st inst., says there was a big scare in the fleet a few nights since, caused by some rebel obstructions floating out to sea. If our iron clads were nearer Charleston, neither torpedoes nor iron clads would run against them with impunity. The obstructions in the chan-nel between Sumter and Moultrie are enirely gone, and the opinion of the naval officers is that there are no impediments officers is that there are no impediments to the progress of our fleets except those extending from James' Island to the middle ground. Of their nature it is impossible to judge, though they are probably not ble to judge, though they are probably not half as formidable as imagined. The cabin was built by Mr. James Hillingar martintended by Mr. Isaac Gullett, from new designs and has been pronounced by competent parties the handsomest cabin ever built at this place. All that ingenuity could suggest and experience produce has been brought to bear in this job, and Mr. Gullett has established for himself a New York Market.

New York Market.

New York Jan. 26—Cotton declining: sales of 6000 bales at 840. Flour browpart: 16 5000 bales at 840. Flour browpart: 16 500 bales at 840. Flour browpart: 16 has no superior. The carpets are of the most splendid description, the best the market affords, and were furnished by Messrs. McClintock & Co.; lamps and cabin outfit are from the famous establishment of Messrs. Caldwell, Brother, and does great credit the state of does great credit to their tastet; the bell and brass work was furnished by Messrs. Fulton & Sons; the painting was executed by Messrs. Nelvan & Singer, and does them credit; the stoves are from the celebrated works of Mr. A. Bradley; uphoistery by Messrs. E. Edmundson, & Co.; the turniture is of the host slegant description and was made expressly by Messrs. Bailey & DeCamp, of Cincinnati: the piper the corporate the discontinuous control of the corporate the corporate the discontinuous control of the corporate the corporat nati: the piano that ornaments the Ladies Cabin is from the celebrated factory of Haines & Bro., New York; the blacksmith work was executed by Mr. George Finnbert; tin and copper work by Mesars. Fitszimmons & Morrow; iron sheeting by Mesars. Watson & Morrow; titoks by Messrs. Watson & Mourse, blocks and tackles by Messrs. Davage & Roberts; spars, derricks, &c., by George Motherall. The Yawl is one of the best we have ever seen, and was built expressly by Mr. Peter Shouse, of Shousetown, who knows how to get one up about right. The Life Boat was finished by Mr. Scaife. In a word, this boat is complete in every reword, this boat is complete in every respect, and nothing that ingenuity could suggest or money purchase has been spared to make her what sheatruly is, the most perfect Packet above the falls. The scenery in the cabin and inside the clerk's office was executed by Mr. E. Bott and does credit to that fine artist. This boat was built under the superintendence of Capt. S. B. French one of the best steam boat men on the western waters, one that understands his business in all its various departments. We have been intimate with Capt. French when he was mate of the old Georgia, about 20 years ago. He was then, as now, an honorable, upright gentleman, and one that you could always depend on. We congratulate him of the production of so splendid a piece of naval architecture—she seems so far as can be ascertained to be as near perfection as can be produced—her model is all that FALL OF MAN:

could be desired. The lines forward and aft are drawn beautifully. In fact her appearance would indicate that she was intended to condribe the water of her approach, so admirably have the various combinations here. SPLENDID TABLEAUX PAINTINGS,
