LOCAL INTELLIGENCE.

Mean Missing—Fairly Suspicious. The family and friends of Mr. W. S. Graham, engineer, residing in Manchester, are much alarmed at his sudden and mysterious disappearance on Wednesday evening. It seems that Mr. Graham, who is a sober, practical man, and possessed of considerable means, was engaged at work on the "Tigress No. 3" lying at the wharf. He had on Wednesday morning drawn a check for \$1,000 on one of our banking houses. During the day he was seen by the engineer of the boat, to remain all night, and it is feared the boat might run out in the night, and it would be necessary to have some one on board to attend to the boat. Graham consented to remain, but said he would go home first, and would then return. He did so, and the watchman on the boat says that he returned at about half past nine o'clock, and went on board, since which time he has neither been seen nor heard from. On discovering yesterday morning that he was not on the boat, the minds of his family and friends were excited, and inquiries were made from which he had drawn the check, when it was ascertained that he had not lifted the money, and would be a naval trial, and that he had accidentally fallen into the river, and was drowned. Being a perfectly sober, and ever punctual and reliable man, it is difficult to believe that he had been so unfortunate, and that he had accidentally fallen into the river, and was drowned. Being a perfectly sober, and ever punctual and reliable man, it is difficult to believe that he had been so unfortunate, and that he had accidentally fallen into the river, and was drowned.

DOING THE DUTY.

When the enrollment for the draft was made in Harrisburg, Samuel King, the enrolling officer, a fictitious name—that of Samuel Myers. When the drawing took place Samuel Myers was drafted, and received a ticket of invitation to the provost-marshal's office at the court-house. Under the impression that he had played a "sharp-dodge" upon Uncle Abe's officers, he boldly confronted them with evidence to prove that his name was Samuel King, and that he was not the individual drafted. His identity, however, was fully established, and his fraudulent attempt to evade conscription exposed. King says Myers was forthwith provided with a suit of government clothing, and sent off to a regiment. Subsequently he deserted, returned to Harrisburg, and unable to re-enter the service as a volunteer, no doubt with the intention of again deserting at the first favorable opportunity. Unfortunately for the arduous soldier he was recognized, arrested for desertion, followed by what bounty money was still in his possession, and returned to his regiment. The probability is that he will be severely punished.

BOAT RACING ON A LARGO SCALE.—The performances of Hammill, Ward, and others in the matter of boat racing are about to eclipse, by Uncle Sam taking a hand at it. We learn that the Assistant Secretary of War in New York, Mr. Perryman, has arranged for a race at sea between the U. S. steamer Etawab, and the commercial steamer Kinkaid. That may be all very well, but it would seem to us that the department should send the Etawab or any other vessel they can find, to the bay of Panama, in which neighborhood the Alabama was last reported, to capture and bring in that dangerous enemy to our commerce. This would be a naval trial of speed which would be gratifying to the whole country, and at once put to rest all the cavilling and censoring against the Navy Department.

BALTIMORE FIRE DEPARTMENT.—On Monday night last the United Fire Department of Baltimore held an election for officers with the following result: President, Henry P. Dummel, M. E. High, of the Independent, made his annual report, showing cash, the treasury and in bank \$2,622.88. The stock account stands \$3,939.12 in city six per cent bonds, \$1,000 in five per cent, and \$1,000 in State five per cent bonds—making an aggregate of bonds and stock of \$105,969.12.

THE TAX OF WHISKEY.—The liquor dealers are becoming desperate over the passage of the bill in the House increasing the tax on that article. They desire to pronounce it an ex post facto law, and declare their intention to contest it in the courts. If it passes the Senate in its present shape, the \$600,000 tax on liquor which last year paid over \$600,000 taxes on the article, and the largest dealers in the West, besides innumerable smaller dealers from different parts of the country, are in Washington to defeat its passage through the Senate.
