HOMESTEAD GAS LIGHT.— The Griffin Homestead

Gas Apparatus Manufacturing Company, Organized under the Act of July, 1863, is now prepared to receive orders for Alachines, for use in business houses, private dwellings, hotels and public buildings.

The apparatus is simple in its construction, easily managed, and not liable to be put out of order without gross carelessness. The Gas is in brilliancy entirely equal to coal gas: and as the machine is so constructed as to manufacture it only as fast as it is used; there is no accumulation, and consequently no danger of those terrible explosions to which coal gas is so liable, and in point of expense its cost is, compared with coal gas, a mere fraction. It is the sworn duty of the President in point of expense 4ts cost is, compared with coal gas, a mere fraction.
