CURED.

Below will be found a certificate from one of the most respectable cilizens of Wilkins township in regard to Dr. Keyser's Lindsay' Blood Searcher. The Doctor's certificates are within reach, and as one need be deceived in regard to his preparations.

Dr. Geo. H. Keyser's Lindsay' Blood Searcher hey were growing worse, so as to trouble me very much, so much so at times as to until me for work. Sometimes I was so bad that I could not do anything on account of them, they came out on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in cirtilars and pamphlets that fell in my way, but I could not get cured, sometimes they would on me some good for a hittle while, but afterwards they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would house and gave medicine but house and gave medici not do, I could not get well. Over a year ago I got an advertisement of your Lindsay's Blood-Searcher, made by yourself-when you sold it to me you told me one bottle would not cure me and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then called to see you again, when you said I could not expect much benefit from one bottle. I bought it on, one bottle at a time, until I had used five bottles. After this quantity had been used, I was entirely well of the Piles, which had torturwhere ed me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well mow for six months, and there is no appearance of a return of the disease.

Gentlemen: About eighteen months ago my wife was attacked with a sickness which occasioned the loss of her hair to a great extent. For about a year it continued very thin, dry and short, until she began to use your Amboline. A change for the letter was at once apparent. The hair began to thicken and lengthen, and assume a soft, glossy, and healthy appearance, and these effects are permanent and continued, aithough she has used but one box. You are at liberty to use these facts for the benefit of others who may need so valuable a remedy for the hair.

Skind Street. New York, a harde piece of timber was put through the cylinder, designed to be used as a shaft, and was left in its place by a number of braces and stays which were immediately inserted. A pair of stout horses were brought forward and attached to chains which were looped loosely around the cond of the under shaft.

The word was given, and the piece of timber was put through the cyl-The word was given, and the massive cylinder, revolving slowly, was drawn along by the horses, the shaft turning easily in the loops of the chains. After getting fairly under way, the cylinder sheered off into a depression in the ground, and with a loud report the massive iron cracked. The hores were stopped, but the 20,000 pounds of iron had no such intention. Slowly but resistlessly the massive sylinder rolled along. The shaft did not slip in the slanckened chains, and in a second they

were cought and commenced winding it up. All were anxious for the horses, and many of the men who had trucks in their PHOTOGRAPHS hands with they assisted in starting ndeavored which to retard the progress o the cylinder by throwing them in its road.

It made no difference. The huge cylinder passed over logs of wood as large as a man's body, quite as easily as it would have passed over a candle, and it seemed ALBUMS, as if the horses must be crushed. The cylinder stopped, however, of its own accord, just as the chain was wound up. Another revolution would have brought the immense mass of the iron upon the AT noble animals. Sills will be placed under the cylinder

to-day, and rollers used, the same as in house moving, to bring it to the Water Works. The crack in the cylinder is about four feet long, and though not damageing it in the least, will necessitate its being handled with great caution. There are two more of these cylinders to arrive from Pittsburgh, one of which will doubtless be here next week. This cylinder made lively times among the hackmen, expressmen, teamsters and drivers gen erally, on yesterday. Antiquated horses, power truly astonishing. The more juvenile class of horses, from the ones in
