His intelligence, coupled with a perfect ness the boys amusing the mestives upon the knowledge of the machinery and process of refining in all its details, enabled him to explain prevailed yesterday bids fair to be transitory with much precision the modus operands of manfew years, has assumed such magnitude and ure and health acquiring profits of skating, by

above the ordinary level of the river. Of these receving tanks there are three, built of iron, with a capacity of 470 barrels each. Some idea maj be had of the great power of this pump who we state that it will fill one of these tanks in form thirty to forty minutes. There is also an aixiliary oil pump in the pump house, and a very powerful Wothington duplex pump which supplies the work-with water. A double inclined nilway tuns from the bank to the river, and what is called a nagger engine, used for hoisting barels, coal, &c. stands nearby. After being gauged in the measuring tanks the petroleum is run into the iron store tanks. Two of these

reservoirs are really ammense, being so feet in galons, or nearly to the barrels each. Besides District: this there are four smaller store tanks, holding 1200 barrels each. The petroleum is next transferred by another large pump through a sixinch line of pipe to the stills. To the house where these are situated we now wended our

of them nearly as large as an ordinary man's arm, and running at the rate of about 500 barrels in 24 hours. In this place the oil is separated into grades having different gravities, and conducted thence under ground into an isolated tank house. HEADQ'ES DEFT OF THE MONORGARELA. PLAN GROWN CO. OBSERVED BY TO THE MONORGARELA. PROJECT OF THE MONORGARE PROJECT OF THE MONORGARELA. PROJECT OF TH PITTABURGH, Feb. 20, 1864.

SPECIAL ORDERS:

BUT nine days now remain in which Government of the gallant regiments of the gallant regiments of the gallant regiments of the work has gone on well for the past 'ten days, but still greater exertions are needed to save the reputation of the State and avoid the draft otherwise inevitable.

By recent orders all men enlisted by recruiting officers in this vicinity can be mustered into service by Capt. Moorhead, at the Girard House. Every citizen, non-commissioned officer and private is made on the season of the state and it is 8 hours—thus performing as much labor in the season of the work with the works, was elevating barrels and take them away after they were hosted or beyond the fear of want, can scarcely appreciate the necessity of who from improvidence or necessity have deferred replenishing their scanty but the last bushels is reached, on the stock until the last bushels is reached out of stock, and by going from yard to hosted up. 3,000 barrels can be elevated with host of a strike and we do not stock and on a strike and we do not stock and on a strike and we do not stock and on a strike and we do not stock and on a strike and we do not stock and by going from yard to hosted up. 3,000 barrels can be elevated with know when we shall have any we do not stock and on a strike and we do not stock and by going from yard to hosted up. 3,000 barrels can be elevated with know when we shall have any we do not stock and on a strike and we do not stock and by going from yard to hosted up. 3,000 barrels can be elevated with shall be any to prove the same reply—no coally appreciate the necessity of who from improvidence or necessity and several men to prove the same and the fear of want.

CINCINNATI, February 20.—The total on the stock until the last bushels is reached.

CINCINNATI, February 20.—The total on the provention of the stock until the necessity of who from impro

stantly on hand. The preparation of barrels is a very important item in the refining business. Frequiring constant vigilance and care, and this with the hope to see some thing practical done to the away with such a condition of things in this community.

Steamer Chattanooga.

Another rumor declares that John Morgan crossed the Tennessee between Riorence and Tuscumbia with ten thou. professions, &c. who have heretofore responded so nobly ro every appeal of the Government for aid, and who have demonstrated oft-times, and especially in the call that was made on them to work on the fortifications last summer, that nothing but the occasion is wasting to secure their every effort in the cause of patriotism. Let every man again lend a helping hand and the work will be done. By command of an analysis of the power is obtained here work will be done. By command of an are kept constantly employed. firm have deservedly earned for themselves a of things in this community.

The superior quality of their oil of things in this community.

COMMERCIAL & FINANCIAL PITTSBURGH PRODUCE MARKET OFFICE OF THE DAILY POST, TUESDAY, Feb. 23, 1864 BUSINESS yesterday, although not so brisk

PITTSBURGH OIL TRADE.

BY SINESS—In the Oil way was exceedingly dull, the small amount on hand preventing transactions and causing a firm market. We did not learn of a single transaction in either Crude or Redned. The prospect of the ice running out of Redned. The prospect of the ice running out of Redned. The Redned of the ice running out of Redned. The Redned of the ice running out of Redned of the Subalsace Committee. the Allegheny will cause buyers to halt rather than pay the advance generally demand by seler. The stock of Crude in this market is held the same unless they can obtain the outside prices. We quote nominally as follows: Crude prices. Though the prices we have a selection of the prices. We got the prices where the prices were proved that the prices were proved the prices. The provided that the prices were provided that the prices were provided to the prices with the prices were prices with the prices were provided to the prices with the prices were provided to the prices with the prices were provided to the prices with the prices were prices with the prices were prices with the prices were prices. The prices were prices were prices were prices with the prices were prices.
