Say that I me suppose other Senators in that there are cars furnished for the cord people of the District, and those cars are plainly indicated, so that there can be no mistake.

I do not understand from the Senator who has introduced this resolution that any negro has been denied the right to ride in the cars which, at the expense of the company, have been provided for their accommodation; but the difficulty, I suppose, has arisen because the negro declined to ride in the cars that are provided for the white men and women who would for the white men and women who have on these railroads. I will say to some myse. ride in the cars which, at the expense of the company, have been provided for their accommodation; but the difficulty. I suppose, has arisen because the negro declined to ride in the cars that are provided for the white men and women who travel on these railroads. I will say to the Senator from Iowa that very recently, without observing it, I found myself the resident on the grounds south of the rown cars, and as I did not choose to press upon their rights, I of course gave them the car. It was their right; it was provided for them, and of course I did not question that right. So I am sure that provision has been made for their accommodation.
