LOCAL INTELLIGENCE. TUESDAY MORNING, MARCH 8, 1864.

Sanitary Fair. Our readers will recollect that some weeks since we urged, in a number of articles the propriety—nay, the urgent necessity—of holding a Sanitary Fair in this city. Among other inducements to enlist our citizens in the enterprise, we said that the Bostonians had realized from their sanitary fair \$14,000; that the Cincinnati fair yielded from \$5,000 to \$10,000 per day; that the Rochester fair realized a large sum; that the one held in Chicago had yielded \$75,000, and that it was estimated that the receipts from the Sanitary Fair in this city would probably exceed \$1,000,000. We urged again and again that Pittsburgh should not be behind in this good work, and our suggestions were not unheeded in any manner as to carry them into practical execution at the time. True, Mr. Henderson, of the Executive Committee, and other public spirited gentlemen authorized us to say that they would subscribe liberally towards getting up a Sanitary Fair here, still the matter for the time being was permitted to fall to the ground, and we were left in the lurch. It is now, however, very true that we were not to be disappointed. The Executive Committee have taken the matter in hand, and have shortly announced the time and place for holding a Fair in this city. The Commission have here-to-for performed good service in behalf of the sick and wounded in our army, and their is every prospect that the calls upon them will be largely augmented in the coming summer. To meet these demands they must have money, and to raise it they have resolved to hold a Sanitary Fair. May they not confidently expect to realize at least \$100,000?

The Routes to Idaho.—Senator Grimes has introduced a bill in the United States Senate appropriating \$20,000 to be equally divided in improving two distinct routes by way of Fort Benton, on the Missouri river, through the valley of the Snake and Gallatin, in Idaho. It appears that communication between the territory of Idaho and the States is rendered difficult by the reason of the bad character of the roads only rendered difficult by the fact that they are not frequented by Indians, and pay no security for the transit of treasure for the emigrants.

Additional Bonus for Recruits.—It is stated that in addition to all other bounties, a bonus of five dollars will be given to any man who enlists for the 98th, 71st, 72d, 81st and 100th regiments, known as Philadelphia regiments, and belonging to the 3d Corps, Gen. Hancock. Men enlisting for these regiments, no matter by whom recruited or where enlisted, will be given this bonus by Capt. Wright, Provost Marshal, upon their arrival at the Girard House, where recruits are sent.

Sunday Cars.—A meeting was held in Philadelphia on Thursday evening to adopt measures to defeat the proposition before the Pennsylvania Legislature to run the city passenger cars on Sundays. Three classes of petitions are presented to the Legislature, viz: One to allow the city cars to run on Sunday, one to compel them to run, and one to prevent them from running. Those in favor of the travel are said to be the most numerous.

Small Pox.—This loathsome disease is spreading itself with fearful rapidity over the country. In Cincinnati it is worse than ever before known; in Cleveland it is said there are upwards of twelve hundred cases, and in Columbus and other places it is very bad. It seems to have started from the military camps and is spreading everywhere. We must prepare for it by vaccination.

In Town.—We had the pleasure yesterday of meeting with Col. Sumner, commander of Camp Conant, who is in the city on a brief business visit. He returns to Washington on Saturday. The Colonel looks as well as usual, and speaks hopefully of the condition of affairs around Washington.

Poisoned.—Several members of the family of Mr. Enoch Albersson, of Clarion borough, were poisoned on Friday last, in consequence of eating parsnips, which were very poisonous, and two of these having been mixed with others, came very near producing fatal results.

Directors Elected.—The following gentlemen were, on Saturday, elected directors of the Third National Bank of Pittsburgh: Messrs. Adam Reinecker, Wm. B. Schumert, Albertus S. Bell, Samuel H. Hartman, Lewis Morgan, Augustus Harje, Alex. Holstein, Henry George, B. Gow.

Theatre.—A full house greeted Mr. Neale last night. The same bill will be repeated this evening. Neale is a new and valuable addition to the city (company) as "Nalmeke," and all that could be wished.

Tom Thumb and party will give their entertainments at Concert Hall, and not at Masonic Hall, as we stated yesterday. They open on Saturday. See advertisement.

The Minstrels.—Yankee Hill's Minstrels still continue to draw crowded houses at Masonic Hall.

Dissolution and Removal.—By advertisement in another column it will be seen that the co-partnership heretofore existing between J. P. Day and Joseph Keiper has been dissolved. Mr. Keiper retaining and Mr. Day having sold his interest in the business.

Something Worth Seeing.—Having occasion yesterday to visit the book and paper store of Mr. J. G. Wells, we noticed a man washing the hands and face of the store, which, by the way, sadly needed it. The man, who was dressed in a blue coat and trousers, and wearing a white apron, was washing the hands and face of the store, which, by the way, sadly needed it.

New Books.—Mr. Minor, Fifth Street, sends us "The Wife's Evidence," a novel, by W. G. Wells. Also, "McClellan's Record." The latter work is in the hands of every man in the country who wishes correct information in relation to the military achievements of General G. B. McClellan.

New York, March 7.—The Tribune's correspondence announces the safe arrival of General Fremont, of Colorado, Dahlgren and 100 of his men. The world has a rumor from New Orleans that Gen. This story is without doubt a canard.
