ATTENTION SOLDIERS.

We call the attention of all having relations or friends in the army to the fact that "HOOF-LAND'S German Hitters" will cure nine tenths of the disease induced by exposures and privations incident to camp lite. In the lists, published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suitering from debility. Fvery case of that kind can be readily cured by Hoofland's German Bitters. We have no hesitation in stating that if these Hitters were freely used among our soldiers hundreds of lives might be saved, that otherwise would be lost.

The proprietors are daily receiving thankful letters from sufferers in the army and hospitals, who have been restored to health by the use of those Bitters sent to them by their friends.

The rebellion is a terrible curse, a great evil, a huge crime. It must be got rid of. But there are other curses, other evils, other crimes. A disease in the human body is a great evil. But the pursifying and cleansing the blood, causing it to how in all its original purity and vigor; thus removing from the system all permicious causes which have induced disease, and removing from the system all permicious causes which have induced disease. From the Journal of Commerce.

Men shrink from looking into the future. They find fault with those who insist on questioning the effect of present policy on the nation's destiny. The rebellion must be put down. To this all agree; but what then? This question is esteemed ill-timed—corperish—disloyal. The voice of the dominant party overpowers the voice of the earnest lover of turies.

do not much wonder at it; for there are hatred and bitterness, and without that compact, hearty, healthy condition of the nation which is necessary to enable us to recover even ordinary strength? The life-blood of our country is the affection of the people for the Union; and if this affection fails, blood fails, and the body dies. Temporary alienation may be cured, but if we seek to cure it by means calculated to make the alienation personness. We do not much wonder at it; for there are discouragements everywhere: A Constitution violated, a country, ruined, and a people in tears, is enough to touch the heart, and unnerve the hands, but what shall we do? The work is great, but the reward will be glorious when it is accomplished without this result. Why not be wise in time?

Men may seek to stifle these questions, but they are seizing fast hold on the minds of the people. It is as plain as the noonday sun that if the policy of the present administration is continued into another tour years, we have seen the end of the American Union. Mr. Lincoln and his advisers can never restore. coin and his advisers can never restore that Union to life and health, nor can they build up a new Constitution to replace that which they are destroying.
