PILES OF

TWENTY YEARS STANDING

CURED.

Below will be found a certificate from one of the most respectable citizens of Wilkins township in regard to Dr. Keyser's Lindsay' Blood Searcher. The Doctor's certificates are within reach, and no one need be deceived in regard to his preparations.

DR. GEO. H. KEYSER:—I became afflicted with Piles about twenty years ago, and every year they were growing worse, so as to trouble me very much, so much so at times as to unfit me for work. Sometimes I was so bad that I could not do anything on account of them, they came out on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in circulars and pamphlets that fell in my way, but I could not get cured, sometimes they would do me some good for a little while, but afterwards they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would not do, I could not get well. Over a year ago I got an advertisement of *your* Lindsay's Blood-Searcher, made by yourself—when you sold it to me you told me one bottle would not cure me. and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then called to see you again, when you said I could no expect much benefit from one bottle. I bought it on, one bottle at a time, until I had used five bottles. After this quantity had been used, I was entirely well of the Piles, which had tortured me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and there is no appearance of a return of the disease. I can do any kind of farming work now without the Piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When I found out your Blood-Searcher I kept on taking it until I got entirely well. I consider it my duty to make my case known to the country for the benefit of others who may be suffering as I was and do not know the value of your medicine. You may publish this if you like—I live in *Wilkins Township*, and will be pleased to satisfy any one of the truth of this certificate if they wish to call on me.

ELLIOTT DAVIS.

December 24th, 1863.

☞*Look out for the name of DR. GEORGE H. KEYSER on the cover of the bottle and pasted over the cork; also for his stamp on the United States stamp on the top of the bottle to prevent being imposed upon by a spurious article which is in the market.*

NOTICE TO ALL CONCERNED.—Among a certain class of self-important people there is a peculiar feeling of contempt attached to all physicians that advertise and treat the diseases named in this card. PRIVATE DISEASES, why this should be, they nor no one else can tell. Are they not aware that all physicians treat diseases of every denomination, in fact some of the very diseases that are so obnoxious to these very refined parties. I suppose they would not let one of their family go to a party that advoted years for their benefit, because he advertises the fact, and their family physician says he is a humbug so he can get the case. Often he has almost deprived the party of his life. He comes at last to the physician that advertises—how else are they to know? Are they not aware that Sir Astley Cooper, Sir Benjamin Brodie, Sir Charles Ball and M. Paul Ricord devoted years in the treatment of these diseases? These men are held up as shining lights in the medical world. I don't assert that all men are worthy that publish, still there are a great number of them that are. I have devoted myself to the study and treatment of PRIVATE DISEASES upwards of 40 years, and without egotism can say I have saved hundreds from years of misery and untimely death. My treatment is confined to the vegetable altogether, as I think it is the best and most certain. It is in my power to bring hundreds of certificates if I thought it necessary to certify to my general success; but my long residence in this city is sufficient proof without adding more. Spermatorrhea and all diseases arising from it are cured in a much shorter time than heretofore. It behooves every young man and woman to be careful in selecting a physician. The different advertisements that are seen in our papers are of no worth, and no benefit will arise from applying to them but loss of health and money. Hundreds are cured annually by my new remedies. GLAD NEWS FOR THE UNFORTUNATE!

THE LONG SOUGHT FOR

DISCOVERED AT LAST.

CHEROKEE REMEDY,

AND

CHEROKEE INJECTION!

Compounded from Roots, Barks and Leaves.

THE CHEROKEE REMEDY, the great Indian Diuretic, cures all disorders of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonnorrhea, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

☞It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times a day.

☞It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the Cherokee Remedy; and should be used in conjunction with that medicine in all cases of *Gonnorhea, Gleet, Fluor Albus or Whites*. It effects are *healing, soothing, and demulcent*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections*.

☞By the use of the Cherokee Remedy and Cherokee Injection—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

☞For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free to any address, a full treatise.

☞Price, Cherokee Remedy, $2 per bottle or three bottles for $5.

CHEROKEE CURE!

A certain cure for Scrofula, Scrofula Sore Eyes, Scrofula Sore Ears, Scrofula Swellings, Scrofula Ulcers, Scrofula Humors, and all diseases caused by Scrofula, such as Loss of Appetite, Universal Lassitude, Pain in the Back, Dimness of Vision, Dread of Society, Fear of Death, Nervousness, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the frightful consequences caused by depravity of the blood.

☞This medicine is a simple vegetable extract, and contains what, in all cases, it can really do, as it has been in private use for many years, and with thousands tested, it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn case.

☞To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *despair not*: the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed.

☞For full particulars get circular from any drug store in the country, or write the Proprietors, who will mail free to any one desiring the same, a full treatise in pamphlet form.

The Daily Post.

Miscegenation; or, the Intermarriage of the White and Black Races.

This new abomination, the intermarriage of the white and black race—styled Miscegenation is finding advocates among the leaders of Abolitionism. The New York *Tribune* argues as follows:

MISCEGENATION

From the New York Tribune, March 16.

We notice a tolerably warm discussion going on in the newspapers and elsewhere, concerning what used to be called "amalgamation," and is now more sensibly styled "misceginatcon"—a word tolerably accurate, although a little too long for popular and daily use. By this, as most of our readers know, is meant the intermarriage of different races, as of blacks with whites. The mere mention of this, as an open question of propriety and expediency, fills many minds with an unspeakable wrath, and they answer it according to long harbored prejudices, taking very little if any trouble to think upon it at all. And yet it is evident that it is a question which must be considered well, and decided, not by an appeal to old notions, but by experience. Those who solve it by snap judgment are usually extremely ignorant and more or less ill-tempered, and their solution is consequently worth nothing at all. Theoretically, the problem divides itself as follows:

1. Will the admixture of white and black blood necessarily produce a physically weak progeny? This is a question for the physiologist.

2. Will such admixture necessitate a race to be of naturally inferior position in the family of man? This is a question for the ethnologist.

3. Have such admixtures heretofore been followed by the evil consequences which a modern recurrence to them would threaten? This is a question for the historian.

4. Are such admixtures forbidden by the law of God? This is a question for the theologian.

5. Will such admixture lessen the productive resources of the country? This is a question for the economist.

Now we have no objections whatever to the intelligent discussion of all these questions. But we insist that those who are neither physiologists, ethnologists, historians, theologians, nor economists are not just the persons to issue conclusive dogmas upon a topic so important. We are ashamed to find those who profess to be the leaders and informers of the public thought permitting themselves blindly to be led by those who are still blinder into a ditch of *ipse dixits* and noisome assumptions. There is, no doubt, a great prejudice against the black race in the United States, but it is impossible to say that this is not the result of a cruel and systematic degradation, and it will continue to be impossible to say this with the least logical accuracy until all traces of the bondage in which the blacks have for nearly two centuries been held have disappeared. Such prejudice is by no means a novelty, nor has it been at all confined to blacks. All Christians in the middle age supposed that Jews exhaled a bad odor from their bodies, and the marriage of a Jew and Christian at that period would have been far more likely to provoke a mob in any civilized city than the marriage of a white man and black woman would be now. There is the simple fact. It is impossible to get around it, or under it, or over it, with the whole copperhead power of wriggle. Now, the white hatred of the black in this country is precisely of this character. Delicate people say that it is natural. We answer that it is impossible to prove that it is natural. Of course it is easy to classify its different sources. A man of great refinement may dislike to associate with an ignorant negro as he would with any ignorant man of whatever tribe. A man proud of his purse may scorn a poor negro as he would a poor white man. A man systematically acquiescent in the wrongs and cruelties of society, may shun a negro as he would any unpopular white. A man who has himself been underestimated may be jealous of any attempt to do justice to others. But we must insist that all this settles nothing except our human inhumanity—except that in spite of our religious professions, we do not dwell together as brethren—except that we do not. In spite of our Bibles, one blood. For the opinion of a jealous, illiterate, course-minded creature upon this or any other topic, the most refined hater of the African would probably have no respect; and yet the ill-natured prejudice of this brutalized being is just precisely the prejudice of the learned and accomplished. You ask the one why he hates the black, and he will answer—because he hates him. You ask the other why he hates the black, and he will answer—because he hates him. For the life of us we cannot see why the philosopher of the shanty does not make out quite as good a case as the philosopher of the study. The reason why they cannot tell, but this they know, and know full well—they do not like the blacks.

It is hard to decide how long this prejudice may continue to influence society; and it will probably continue to be felt long after all traces of it have disappeared from the statute books of all the States. But this thing is certainly clear—that under the Constitution in its most liberal interpretation, and admitting our cherished American doctrine of equal human rights, if a white man pleases to marry a black woman, the mere fact that she is black gives no one a right to interfere to prevent or set aside such marriage. We do not say that such union would be wise, but we do distinctly assert that society has nothing to do with the wisdom of matches, and that we shall have to the end of the chapter a great many foolish ones which laws are powerless to prevent. We do not say that such matches would be moral; but we do declare that they would be infinitely more so than the promiscuous concubinage which has so long shamelessly prevailed upon the Southern plantations. If a man can so far conquer his repugnance to a black woman as to make her the mother of his children, we ask, in the name of the divine law and of decency, why he should not marry her?" It may be owing to the fact that we are not strong in "physiology" that this question does not seem to us quite the poser that the *Tribune* and *Independent* consider it. Precisely the same question might be asked in relation to incest or any other abomination which the *progressists* have not yet dubbed with a euphemistic name. It is a question of the duties created by crimes; it has no bearing on the normal and legitimate relations of the parties. If a man joins a gang of brigands and cut-throats, what are his duties to the fraternity? If a married man has children by a concubine, ought he to marry the mother? That is, does the crime of adultery elevate bigamy to the rank of a virtue? This is the kind of logic which the *Tribune* borrows from the *Independent*, and parades with a confident air, as if it must shut the mouths of all gainsayers.

We cannot discuss these abominations. We have neither the "physiology," nor the "ethnology," nor the "theology" to which the *Tribune* appeals to "blazon evil deeds, and consecrate a crime." We merely record and call attention to the *fact* that the leading Republican journal of the country is the unblushing advocate of "miscegenation," which it ranks with the highest questions of social and political philosphy.

A Hermit Convicted of Murder.—The Wheeling papers announce the arrival in that city of an eccentric character named Hezekiah B. Alsop, under sentence of twenty-one years imprisonment for the murder of Philip Shuttlesworth, at Morgantown, Va. Alsop's disposition, peculiar traits of character, and mode of living, were very singular, and often caused a great deal of remark among the curious. He was accustomed to fishing, hunting herbs, &c., by day, and at night would repair to his home, a rude hut, which he had erected a few miles from town, in a dark neck of woods, near what is known as the "Grassy Island." His bed was made up of four posts set firmly in the ground, with pieces of limbs of trees crossing, and leaves thrown over them; and upon his rude couch he was contented to lie. He had under cultivation a small spot of garden on the "Grassy Island," and generally raised a good crop of corn, potatoes, cabbage, watermellons, &c., from which, he annually realized quite a snug amount of money. He lived altogether the life of a recluse, and was regarded as a sort of hermit by his neighbors.
