The Bounty Bill

As much interest attaches to the Bounty Bill just passed, and not having been furnished with a copy by any gentlemen who represents this county, we give the following synopsis of it which we find in yesterday evening's *Chronicle*. It differs materially from the bill as it passed the House. The first section, legalizing the issue of bonds for county purposes, was amended so as to read, "that in all cases where any committee, or an individual or individuals, of any county, city, township, borough, or ward, shall have subscribed and paid, or become personally liable for the payment of money for the purpose of paying bounties to volunteers, under the late calls of the President of the United States, who have been mustered into the United States military service, and credited to such county, city, township, ward, or borough, with the understanding or agreement that a law would be enacted to levy and collect a tax upon such county, city, township, borough, or ward, for the payment of such advancement and liabilities, all subscriptions so paid, or money borrowed as aforesaid, shall be good and valid against such county, city, township, borough, or ward, as if the same had been subscribed or borrowed by the corporate authorities of the same, under the provisions of this act; and it shall be the duty of the Commissioners, Supervisors, Councils or School Directors, as the case may be, to proceed to levy and collect a tax upon such county, city, township, borough or ward, sufficient to pay the principal of all such claims, with interest thereon until the day of payment, together with the cost of collection thereof.

In the second section, authorizing and requiring the authorities to execute and complete all agreements, contracts, &c., made by them for the payment of bounties, or for refunding advances made for that purpose, an amendment is introduced including advances made by any *committee, special commissioner, individual or individuals* for the same purpose. This is a most important feature, as it looks to a return of not only all moneys which may hereafter be given by individuals for bounties, but all that has been already subscribed. In the fourth section miner children and widowed mothers are included among those whose property is exempt from taxation under the provisions of this act. In the fifth section amendments have been introduced extending the provisions of the act relating to the relief of the families of volunteers to those of drafted men, or of men who may hereafter be drafted, provided said men are *credited to the quota of the county*. In other words, the families of those not credited to the county are not entitled to receive relief here.

The sixth section, authorizing the Commissioners, School Directors and Supervisors of any county, city, township, borough, or the corporate authorities of any city, ward or borough to issue bonds to pay bounties, is amended so as to limit the payment to those credited to the quota of the county. It also authorizes the issue of bonds for moneys paid out by any committee or special commissioner or individual as bounties. In exempting those districts from the operation of the tax, cities and boroughs which have filled their quotas without aid from the county are included.

In section seventh the *per capita* tax is reduced from $5 to $.1 The following clause not in the old bill has also been introduced: "*Provided*, That in all cases where any person or persons liable to draft have for the purpose of raising the sum requisite to pay a bounty to the volunteers required to fill the quota of any county, city, ward, borough, or township, stipulated in writing to pay a sum greater than the amount of tax which would be due upon the assessed valuation of their real estate or personal property, it shall and may be lawful for the corporate authorities of such county, city, ward, borough and township to collect the amount so subscribed."

The fifteenth section is amended so as to exempt all bonds, warrants, certificates of indebtedness or loans issued or to be issued under the provisions of this act, or of any special act heretofore passed, authorizing particular cities, counties, wards, boroughs or townships, to borrow moneys and pay bounties to volunteers, from taxation. The above are the chief alterations, which it strikes us here has been made in the bill. Mr. Glass, however, informs us that bank stocks, bonds, &c., which were made liable to taxation in the bill as first read, are exempt in the bill as passed. The law as it now stands, requires that the tax to be raised under it, shall be assessed, levied and collected as other county, city, ward, borough or township taxes are assessed, levied and collected, which, we suppose, relieves those drawing their income from stocks, bonds, &c., from bearing any part of the burden.

Horse Thieves Overhauled.—On Sunday night last, Madison Jones, Isaac Ballou and Smith Gillespie were arrested in Washington borough, in the act of stealing three horses from the stable of Mr. Jackson, living near the town. The men were seen to enter the stable, take out the horses and ride off, when pursuit was made and their capture effected. Jones and Ballou are members of the notorious Jones family, one of whom, Charlotte, was hung in this city for the murder of her uncle and aunt. The thieves were committed to prison for trial. Jones and Ballou are both Penitentiary graduates, and the chances are promising now that they will be sent back to their old quarters.

An Act extending to the county of Allegheny the provisions of an act supplemental to an act to consolidate the city of Philadelphia, passed the 2d day of February, 1854, and to prevent frauds at elections, approved the 1st day of May, 1861.

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same*, That all the sections except the 11th of an act supplementary to an act to consolidate the city of Philadelphia, passed the 2d day of February, 1854, and to prevent frauds at elections, approved the 1st day of May, 1861, be, and the same are hereby extended to each election district in the county of Allegheny which heretofore has or heretofore may poll at the general election more than three hundred votes, permitting the votes to be counted hourly in such districts, and that the authority contained in the 13th section of said act to appoint return inspectors, be extended to both the October and November elections which may be held during the present year.

Funny.—Our types made us say yesterday the play of "Viva Lammermore," instead of the "Bride of Lammermoor," which the *Chronicle* says it never "deard of before," and thinks it must be "Frenchy." That "*deard* of before" is like its author, pure Irish and no mistake.

Important to Drafted Men.—As the time draws near when the draft is to take place in all the districts that have not filled their quotas, the following opinion of the Hon. William Whiting, Solicitor of the War Department, is republished for the information of persons liable to be enrolled in the military forces of the United States, and intending to leave their places of residence for other places at a distance therefrom. The laws against desertion will be rigidly enforced:

"When a person has been drafted, in pursuance of the enrollment act of March 3, 1863, notice of such draft must be served within ten days thereafter by a written or printed notice, to be served on him personally, or by leaving a copy at his late place of residence, requiring him to appear at a designated place of rendezvous for duty. Any person failing to report for duty after notice left at his last place of residence or served on him personally, without furnishing a substitute or paying $300, is pronounced by law to be a deserter; he may be arrested and held for trial by court martial, and sentenced to death.

"If a person after being drafted, and before receiving notice; deserts, the notice may still be served yet leaving it at his last place of residence, and if he does not appear in accordance with the notice, or furnish the substitute, or pay the $300, he will be in law a deserter, and must be treated accordingly. There is no way or manner in which a person, once "enrolled," can escape his public duties; and when drafted, whether present or absent, whether he changes his residence or absconds, the rights of the United States against him are secured, and it is only by performance of his duty to the country that he will escape liability to be treated as a criminal.

JAMES B. FRY,
"Provost Marshal General."

Bounty Fund Meetings.

Meetings are being called in a great many of the sub-districts of the county, for the purpose of submitting the question of issuing bonds for bounty purposes to the people. Under the law just passed, any township, borough or ward in the county can, if it sees fit, issue bonds for this purpose, and in a good many districts this course will be adopted, provided the people can be got to endorse the project by a vote in its favor. Elections for this purpose have been ordered in several districts and by Monday we shall know the result. From all we can learn, there is a general disposition to issue the bonds, and in those districts in which it is proposed to take a vote today, the indications are that three fourths at least of those who go to the polls will cast their ballots in favor of the project.

Soldiers' Orphans in the Schools.

—In compliance with the suggestion of the Governor in his message to the Legislature, relative to the maintainance of the indigent orphans of soldiers who have died in defence of the country, the State Superintendent has issued a circular to all the school boards in the State, in order to collect necessary information on the subject. The circulars contain the following queries, to which prompt answers should be returned:

1st. What is the number of indigent children in your school district whose fathers have been killed or have died in the military or naval service of the United States?

2d. Are there any institutions of learning in your county that will undertake to provide for the maintainance and education of a number of said orphans, if security be given that all reasonable expenses shall be paid by the State?

3d. If there are any such schools, how many children will each take?

Alleged Pickpockets Committed.—The Mayor Thursday afternoon had Washington Freeze, John young and Barney Gallagher, alleged pickpockets, before him for examination. Some fifteen witnesses were examined, the majority of whom swore that the accused were men of idle habits, that they had no visible means of support, and had the reputation of being common pickpockets and thieves. The Mayor by virtue of the authority vested in him under an act passed at the last session of the Legislature committed the prisoners to jail for ninety days each as common thieves. It is said that they intend testing the legality of their committal by making application for their discharge on a writ of *habeas corpus*, but they might as well let the matter rest. The Supreme Court has already passed upon the legality of the act, and until they can prove an entirely different character from that given them yesterday they need not hope to escape the punishment which a life like theirs is sure sooner or later to involve.

Don't Get Angry.—In a five line squib Thursday, in which we doubted the impartiality of the *Chronicle* local touching his criticism of the play of the "Stranger," we inadvertently wrote "last night" for "Wednesday night," whereupon the erudite city editor berates us roundly closing his diatribe with the following sentence, which will be as "clear as mud" to the general reader:

The fact that *he* writes for the *Post* now must be communicated to the world in some way, and if he can induce us to spread the news before our readers, then his sneers and sorry efforts to appear witty at our expense will not have been expended in vain.

Now, we may be mistaken, but we are inclined to the belief that the "gentleman from the Second ward," neither saw nor heard the "Stranger" performed on the evening in question, being easily seated in his comfortable mansion on Smithfield street. Don't be angry with us this time, and in the future we will treat your theatrical criticisms (?) with dignified silence.

Accidental Drowning.—Mr. Joseph McCoy, of McCoy's Mill, in Buffalo Township, Washington County, was drowned in Big Buffalo Creek, on the farm of McGill, in Independence Township, on Friday evening, the 11th inst. He was riding home from Claysville, and his horse becoming frightened at something on the road, made a sudden plunge, throwing Mr. McCoy into the creek. The body was taken out on Sunday evening following. The deceased was aged about thirty years.

Sad Accident.—A man named Maginnis, employed in the Fort Pitt works, had his foot caught in the gearing by which the drill for boring the twenty inch gun is worked, yesterday afternoon, and was so badly injured that amputation had to be resorted to to save his life.

Recruiting.—The business of recruiting is quite brisk in the city just now. Capt. Wright, Provost Marshal of this Department, is enlisting large numbers of men, and besides Captain Moorhead and two members of General Brooke's staff are constantly engaged mustering in recruits at the Girard House.

Stephen C. Foster.—The London *Musical World* says of the late Stephen C. Foster: "His loss will be equally lamented in England, where his songs were more successful than those of any other composer during the last ten years."

Lamp Chimney Cleaners.—There is not a housekeeper in all the land who has not experienced the difficulty of keeping lamp chimneys clean, and they will be pleased to learn that Messrs. Weldon & Kelly, No. 164 Wood street, agents for the manufacturers, have for sale Bliss's Patent for cleaning lamp chimneys. It is a simple invention, and if carefully used, it will clean a lamp chimney, and keep it in good order, without washing. There is no danger of breaking the chimney, and the cleaner never gets out of order. A person can clean the chimney without soiling their hands. It will last a family for years. Everybody who uses lamp chimneys should have one. Economy cries out loudly in favor of its use, for it is a well-known fact that more than half the broken lamp chimneys result from ineffectual efforts at cleaning, with improper implements. In its use it is almost impossible to break a lamp chimney, and it is so simple that a child may use it.

The Silver Cord contains most of the popular songs published, with piano accompaniment, price $2. For sale by Charlotte Blume, 43 Fifth street.

Pianos.—The assortment of Pianos now on hand at Mr. Mellor's Warerooms, brought on for the spring sales, is very large and varied. The famous "Chickering's" are well represented in a choice selection of beautifully finished and splendid toned pianos. In addition to these he has charming instruments from the factory of Hazelton Brothers, which for sweet and bell-like quality of tone and neatness of finish are remarkable; also several new pianos of Jardine & Sons' make, with elegant carved legs, &c. We notice, also, a number of lower priced pianos of Emerson's, Miller, Gibson & Co.'s and Guild's make, fine-toned, strong and durably made—excellent pianos for practice, and of a price within the reach of everybody. We commend purchasers to examine Mr. Mellor's stock. Warerooms 81 Wood street.

Temporary Removal.—In another column will be found the card of Messrs. H. Kleber & Bro., informing the public of their temporary removal to Wilkins Hall, over the Mayor's Office, Fourth street, between Wood and Smithfield streets. The inclemency of the weather, heretofore, has prevented the completion of important improvements in their new store on Wood street, by the first of April, and hence their temporary occupation of Wilkins Hall. A splendid new stock of pianos will be exhibited on the occasion, and all in want of a fine piano, harmonium or melodeon, will find a fine stock in the spacious rooms of Wilkins Hall.

Musical Library.—A complete library of popular pieces is to be found in the following fine books. "The Home Circle," two voumes, contains marches, polkas, waltzes, shottisches, &c., &c. The "Silver Chord" contains songs, ballads, quartettes, &c. The "Shower of Pearls" contains choice vocal duetts, and "Operatic Pearls" contains the vocal beauties of the choicest operas. The last three have piano accompaniment. Price per volume $2,50 in board; $2,25 in cloth; $3,00 in cloth, full gilt. A set of these books should be found on every piano. A large supply just received at Mellor's Music Store.

Spring Styles.—We would call the attention of our readers to the elegant and fashionable stock of hats, caps and straw goods at Fleming & Co's Wood street. His stock is most complete, having every department filled with choice and elegant goods, comprising everything that is new and desirable of the finest fabrics. Particular attention is asked to his stock of ladies', misses and children's hats, which is very large and attractive. All in want of goods in his line we advise to call early, and examine the stock, which cannot fail to give entire satisfaction.

Woodroffe's Bohemian Troupe of Glass Blowers.—This celebrated company, with their neat scientific wonder, the Glass Steam Engine Monitor, will make their first appearance in Pittsburgh at Masonic Hall on Monday evening next. This is the old and only original troupe in America, and wherever they have appeared have been received with the greatest enthusiasm, the largest halls to be obtained often being incapable of accommodating the crowds who flock to see them. On Monday night they give a splendid prize for the best conundrum on the Glass Steam Engine.

Pittsburgh, Ft. and Chicago Railroad.—The Board of Directors of this company have directed that a meeting of the first and second mortgage bondholders shall be held at the banking house of Wilson, Ewing & Co., 52 Wall street, on Thursday April 7, at 11 a. m., for the purpose of considering certain modifications of the present financial system of the company.

It will be seen by reference to the notice in another column that the interest on the bonds of the Sixth Ward Building Association will be paid on and after the 1st of April next. This is a good institution, and that they are determined that the war for the suppression of the rebellion shall not long be waged, their subscription list abundantly testifies.

Choice Furniture at Auction.—On Tuesday morning at 10 o'clock at Mitchell and Nevin's Warehouse, will be sold a quantity of superior furniture, consisting in part of which is to be found a number of handsome rosewood piano cases, recently filled.

Volunteers wanted. Enlisted number for the Sanitary Fair. Whoever wishes to enlist in the Fair Way, may please report to D. Bennett, 15 Beaver street, Allegheny.

24th District—Elector, W. Montgomery; Delegates, R. W. Jones, S. B. Wilson; State Committee, Wm. Swann, Charles Carter, D. S. Morris.

The following resolution, offered by Judge McCalmont, was passed, amid prolonged cheering:

Resolved, That this Convention cordially unite with the conservative party of the country in proclaiming the name of General George B. McClellan as our first choice for President of the United States.

FORTRESS MONROE, March 25.—Dispatches contained in the Richmond papers to March 24st, gives the following reports:

Demopolis, March 17.—A large number of Sherman's troops have gone up the river on furlough from Vicksburg. Gen. McPherson is in command at that place. Generals Sherman and Hurlbut have gone down the river, with a large part of the army on forty-two boats. They are said to be going up Red river to Shreveport.

Dalton, March 18.—All is quiet beyond Tunnel Hill. There is no appearance of an engagement at an early day.

Orange C. H., March 18.—The enemy are still in their old picket lines. The roads are good.

Milledgeville, March 19.—The House passed last night, Mr. Stevens' resolution relative to the *habeas corpus*, by ten majority. The announcement of the capture of Cumberland Gap, appears to be premature.

Richmond, March 19.—Six hundred Yankee prisoners will be sent this morning to Americus, Georgia. There is no news from Charleston, and the Southern papers are very uninteresting.

WASHINGTON, March 25.—Colonel Wells, Provost Marshal General at Alexandria, sent out a party of company D, 1st Michigan cavalry, dismounted, on Wednesday evening, under command of Lieut Jackson, in search of guerrillas. They went by steamer to Freestone Point and from Freestone through the woods about ten miles, where they captured Capt Hannagan, a well-known guerrilla chieftain, and three men, together with six shot guns, muskets and rifles, three revolvers and one horse. They returned safely this morning. Hannagan is a dangerous man, and has often boasted that he would not be captured alive. Passes and permits from the rebel authorities were found upon him to go where he pleased within the enemies lines.

CINCINNATI, March 25,—The steamer Alice Dean, hence to Memphis, ran into the bank ten miles below Cincinnati last night and sunk. Her bow lies on shore and stern in about twelve feet of water. Her cargo is being taken off in a damaged condition. It probably will all be off by Saturday night. It is thought the boat can be raised. No lives were lost.

TRENTON, N. J., March 25.—The resolutions declaring the views of the Legislature in reference to an attempt on the part of Congress to interfere with the laws of New Jersey, by annulling the franchises granted to railroad companies in this State, were passed by a vote of 17 to 2 in the Senate, and by a unanimous vote in the House. Both Houses have adjourned to Monday next.

TRENTON, N. J., March 25.—The 3d New Jersey cavalry regiment, numbering 1,200 men and horses, have orders to leave on Monday for the seat of war. They will be reviewed to-morrow by the Governor, and march to Washington instead of being transported by railroad.

PITTSBURGH PRODUCE MARKET.

OFFICE OF THE DAILY POST,
SATURDAY, March 25, 1864.

BUSINESS—Yesterday was dull; the weather was unfavorable for out-door transactions, hence trade generally was neglected, principally on account of the unfavorable state of the weather. Prices generally were unchanged. Our rivers are again rising slowly, with sufficient water for the medium class of boats to carry out their cargoes. Tonnage in port has been scarce for a few days past. By our Cincinnati exchanges we learn that there is plenty on the way up. The steamers New York and Arctic were detained, they will depart to-day, positively; the former for St. Louis, the latter for Zanesville. The Julia will start loose for Zanesville at 4 p. m., positively. The Minerva departed for Wheeling with a good trip, as usual. Among the freight list of the Julia was upwards of ten thousand dozen of eggs. Among the sales may be noted the following:

LARD—The receipts since our last were large, both by river and rail. We took sales of lots comprising 50 bbls at 2½@2⅝ ₱ doz.
