Continental Theatre Murder. The whole country was recently shocked by the cold-blooded murder which occurred a few days since in Philadelphia at the Continental Theatre. This place of amusement has been an It was there that a number of days alince in Philadelphia at the Continental Theatre. This place of amisement has been an unfortunate one. It was there that a number of years ago an elephant became enraged, and, after killing his keeper, kept the neighborhood in a state of terror for several hours before the monster could be subdued and secured. Some time after this occurrence a young girl was horribly mutilated, on the same spot, by a tiger which clutched her dress through the bars of his cage, as she was passing along, and tore a her frightfully with his terrible claws before she was rescued. Still later the most shocking the dresses of the ballet girls, engaged to give the dresses of the ballet girls, engaged to give energy of all was enacted on the spot, when the dresses of the ballet girls, engaged to give effect to a sort of sensation presentation of Shakespeare's play of the Tempest, took fire, and nine or ten of the poor creatures were burned to death. The latest horror was that of Saturday night, and it was unlike its predecessors, leasmuch as it was the result of vice, and of accident or mere brute ferocity.

This shocking murder seems to have happened most opportunely to give force and effect to the law of the Législature which was signed to death. Removal.—Our friend Diffencacher, who formerly occupied the neatest, coziest and most central retail shoe store in the city, has found his custom so largely increased that in selfe-defence he has been compelled to seek more spacious quarters. Accordingly he has removed from his snug place on Fifth street to No. 112 Market street, where he is now prepared to meet the demands of his customers, either wholesale or retail. In addition to a large, splendid and handsomely fitted up retail room in front, there is a spacious wholesale room attached which is some fifty feet square, well lighted, and ventilated, which is just the kind of room in which to examine and purchase goods at wholesale. In the retail department there is always to be found a corps of attentive salesmen who are always ready to wait upon customers. In conclusion, we may add that Mr. Diffenbacher keeps one of the finest assortments to fladies and gentlemans boots shoes and gaiters to be found in the city. There is not an article in the whole camp of leather munifacture but may be found in this establishment, from a baby shoe to a heavy brogan, and all of which are sold at the very lowest cash prices. In the wholesele line he will sell on terms as reasonable as any other house in the city.

Spotted Fever.—Spotted fever broke out in Herrick township, Susquehanna county, two weeks since, and at the last report inheteen of the residents had died. In one family six persons had fallen victims to the disease, and in another four. A correspondent gives the following remedy: Hearing of the ravages that the black or spotted fever is making in your county and vicinity, prompts use to let the people of Susquehanna county know of a remedy that saved many lives in Vermont over fifty years ago. The same disease broke out there, and proved fatal, until one case conurred in which no doctor could be had. They tried sweating the patient over the steam, and giving him hemilock tea to drink, both hot and strong, which soon produced perspiration. All that followed this prescription got well, and hardly a family went to bed without a good quantity of hemicok boughs that could be used in case of necessity.

Heavy Robbery.—A merchant from Washington county, named Joseph Matthews, was robbed of \$2,400 in greenbacks, at the Liberty street passenger depot, yesterday morning, about six o'clock. He had the money in the skirt of his coat for safe keeping, and the adroit thief cut the lining of the coat and secured the money. Mr. Matthews had five hundred dollars in the side pocket of his coat which was not taken. He was about to proceed to Wheeling when the robbery occurred, Juformation was made before Major Lowry but the thief has, as yet cluded detection. We will here add that we deem at bad policy to make known such cases until after the police have had sufficient time to "ferry" out the offenders. Were we Mayor we would keep our own secrets without lear of being shaped into "star ahamber" proceedings.

Who gets the first present this afternoon at Masonic Hall?

Butchery.—In our report from the Mayor's office yesterday the sentence "one brother had another up," &c., was rendered by the compositor "one butcher had another up," &c. In the first paragraph of an article on the Pittsburgh Female College typographical errors and omissions were so numerous that we have not the stomach to go over them in detail.—Chronicle.

One of our compositors, a few days since, butchered up a piece of local, and made us say "Viva Lammermoof" instead of "Bride of Lammermoon," whereupon the argus-eyed local of the the best only in the best regulated printing offices, and it is a waste of time in an itemizer to hunt them up for the purpose of airing them through his columns.

Patents to Brinsylvanians.—The following patents were issued from the United States Patent Office during the week ending March 29, to Pittsburghers:

To Henry B. Chess, of Pittsburgh, Penna, for improved screw head.

To Hamilton E. Smith, of Pittsburgh, Pa., for improved washing machine.

The New York Times publishes a contract entered into between one Chichester, of Arkansas, and sundry Confederate officers, acting under authority from the rebel Secretary of War, by improved washing machine.

Concentration of Wealth.—The lately elected President of the Ohio and Mississippi Railroad Company is to receive a salary of \$12,000 per year. The wealth of the country is fast concentrating into the hands of the few. In a few years there will be but two classes in this country as in Europe—the rich and the poor—the laborer and the capitalist. If the party in power cannot accomplish it during the present iterm of the present incumbent, another term will most assuredly suffice. Laborer, if you want to become a mere above to the capitalist, just vote for Lincoln next fall.
