A Freedmen's Aid Society has been established by British merchants in Liverpool, and books opened at some twenty places to register contributions to the fund. Aiready a remittance of £500 fir \$4,000 at the present rate of exchange, have been sent to the Treasurer of the Friends' Freedmen's Aid Association of Philiadelphia.

It is singular, to say the least, how these Britons of their own little list the horrors of starvation have overtaken scores of men, women and children during the past winter. They promise to acknowlege the receipt of contributions to the American Freedmen's Fund in the local papers; have those local papers falled to acquaint them with the fact that the most dplorable sufferings have been visited upon so many of their own white fellow-countrymen? They certainly annot be ignorant of the fact that the Manchester employees furnish an ample field for the exercise of an immense amount of charity; neither can it have escaped their notice that dozens of children in other parts have failen victims to disease through want of the merest necessaries of life, which the parents—themselves upon the borders of starvation—were unsalie to furnish to them. Believing them to be aware of these things in their own land, the people of this country will not be willing to grant that is their object.

Charity should begin at home, we have been "Charity Begins at Home." ARRIVALS AND DEPARTURES. ARRIVED. P., Et. W. & C. R. R.—The first and second bondholders of this road, at their meeting held in New York Friday, passed a resolution giving their consent to the increase of the capital stock of the company for the purpose of philiping and completing a double track, or such part thereof as may be expedient, and for equipping the road and providing ruch additional folling: stock, machinery, appurtenances and other facilities as may be necessary to properly do all the business which may offer, and for no other purpose and should only he issued from year to year in such amounts as the stockholders at their annual meeting may decide upon. The resloution also provides that all moneys raised by such increase of the capital stock shall be inviolably appropriated to the aforewald purpose; that the sales or disposition of said stock from time to time, and the application of the mongys he made under the general supervision of James F. D. Lanier, J. Edgar Thompson Springer Harbaugh, the present Finance Committee of the Company, and Samuel J. Tilden, and Louis H. Meyer, Directors, resident in New York or a majority of them, or by agents appointed by them, and that in case of any misapplication of the said moneys, the said Committee shall have power to suspend any further issues of stock than shall at that time have been actually made, and to revoke this consent as to such further issues. The increase of capital for 1864 is limited to \$8,500,000, and the stock shall only be sold after public notice. WOLVERHAMI 100. March 24.—A better feeling pervades the 110. It had than was the case last week. There is less incertitude about prices and a few more orders are coming in. The expectation is now more general among buyers of finished iron that makers will be able to keep prices up at their present level for some time to come, hence the gradual releasing of specifications. This state of things pervades the American as well as the home of trade. From transatiantic customers orders are now coming to hand for good iron, such as to afford considerable encouragement to certain first charmonies. The states markets. At the same time that the tone of the trade has improved, there is generally at second class houses a desire to book orders for sheets and bars. Pig Iron makers are frequent in their solicitations, but at present without effect. Coal is chared. French of Agril — Nesterolly the allestends of the first With a large surplus.

The Fire at Oil City.—Speaking of the first Oil City on the night of the 6th instant, the Monitor says. It is utterly impossible to get a confusion. By a rough estimate we put down the loss at from \$75,000 to \$80,000. Not more than one-fourth was insured, as near as we can learn. These figures, we are confident, are not too high but may be considered too low. This is the third narrow escape of our combustible town from being consumed by the devouring element and being in every direction, seeking places of safety. The men generally were systematically at work endeavoring to save our town from destruction, and our ditizens may be thankful that oll City this morning is not a heap of smouldering ruins from each to power could have saved it from destruction. As to the origin of the fire nothing text be positive ascertained; there is many condicting stories afloat in reverence thereto; but that most generally believed is that it caught from a stovepipe in the kitchen of the Arcade, by sulpable carelessness, while another report says it caught from a lamp in the hands of the cook. Everything that can be curious to look at its solicities for the curio Prayer in Congress.—It seems that the chaplain of the United States senate, Dr. Sunderland, has been making a prayer which does not exactly suit some of the members of that august body, and one member, Mr. Sanlsbay, has submitted a resolution in reference to the subject. Apart from the prayers heretofore made by the Senates chaplain, and which by some have been considered objectionable, on Thursday morning he uttered the following. Whether orthodox or otherwise, we will leave the reader to judge:

"Fut far away from us, we beseech Thee, oh Ctod, the miserable sophistry that wauld gamble in the pricelees trusts and interests of human nature, with the more miserable coinage and catch-word of the despot and conspirators, and that turning to the same malign purposes of human arrogance and oppression would wrest and distort and poliute the very volume of Inspiration itself; for though man may prove from the sacred page the, existence of slayery, yet may they also prove from the same sacred source the existence and Divine sanction of hell itself. Yet we are admonished to prefer liberty to either, and fice alike from wrath." EVERYBODY WANTS, A POCKET VLBUM! A POURE! VLBUM!
