The category districtions and water the same of the category distriction of the catego JNO. E. PATTERSON, Cashier. Republicans was an excellent mode of argumentation until the subject had be come so serious. But the strongest defense resta upon higher, and more impregnable ground than the best-founded retort of tu quoque. The case of Mr. Conway and the others which have been cited in the course of the debate should, indeed, if shame had not lost its blush, operate as a complete estoppel to the Republicans. Arguments of this kind, however, do not touch the merits of the question, and now that public attention s so fully drawn to it, the champions of the right should perceive wherein lies the full strength of their position. The truth of Mr. Long's opinions—much more their resemblance or dissimilarity to other opinions—ceases to be of any importance, until it is determined whether the touch stone of opinions in Congress is hereafter to be argument or exclusion. The determined Congress is hereafter to be argument or exclusion. The delegate from Utah is probably the only person on the floor of the House who is an avowed polygamist; but if the Speaker had come down from his seat to move his expulsion on that ground, every right-minded man would waive his opposition to polygamy so long as freedom of opinion was menaced by an irtolerant faction. Instead of the great array of outhorities which might easily be brought together in support of the right which is assailed in the person of Mr. Long, we prefer to present the subject in the simple light of reason. What the Public Ledger says—AN LAPROVEMENT IN HOOKS-Photograph Albums have become as indispensable as Photograph likenesses. Altemus & Co., have just completed their new patented continuous hinge back sibum, which they are now delivering to the trade, being the most complete and substantial book made. The trouble with most sibums of this kind is that the Feaves, secured by the ordinary way to the back of the book, are liable to break way. By this new method, each separate leaf turns on a neat, easily working hinge, so that there is no strain whatever upon the back of the book, and the leaves remain perfectly secure within the covers.
What the Amer. Lit. Gazette and Fublishers Circular says ple light of reason. Authority may over-whelm, but only reason can convince, be to break way. By this new method, each separate leaf turns on a neat, easily working hings so that there is no strain whatever upon the back of the book, and the leaves remain perfectly secure within the covers.

What the Amer. Lit. Gazette and-Fublishers Circular says—

The Photograph Album. Hinged Back, patented July 21, 1863. Manufactured by Altemas & Co., Philadelphia.

In this patent binding each leaf is attached to a separate hinge of its own, auniting the book to be opened to its full extent without danger of the slightest injury. This ingenious invention cannot fall to be universally approved, as it combines nitity with beauty. The manufacturers have done good service in making so decided an improvement in an article in such demand.

If, while a powerful and active enemy is menacing the national existence, a member steadily votes against ence, a member steadily votes against every, bill for raising; equipping, or paying solders, he gives the strongest posalble evidence that his sympathies are with that active and memoring enemy, and yer it is undenlable that for thus voting against national success, he is liable neither to expulsion nor to consure.

But why is this? It is because if this latitude were not allowed; there could be no independent opposition: to easy measure favored by a majority of the House could compel him to vote on their side, the result would be a complete subversion for lay islative independence. The member who gives a perverse vote is responsible only to his constituents and the found who gives a perverse vote is responsible only to his constituents, and the Constitution gives facilities for the enforcement of this responsibility by the provision for recording the year and mays at the demand of one-fifth of the members present. There can be no more conclusive evidence of a representative's opinions than his recorded votes; and the fact that the house of which he is example. that the house of which he is a member can in no other way hold him to answer for his vote than by calling for the yeas and nays, and thus turning him over to his constituents, is a conclusive and unanswerable proof that the house has no
