New Evidence.

Being afflicted with a grievous tetter on the arms and face—after trying many remedies which utterly falled to cure—I was persuaded by W. M. Barris & Co., to try. "Lindsey's Improved Blood-Searcher," and now, six weeks after using the second bottle, pronounce myself cured. The tetter broke out something over one year ago, on the inside of my arms, extending from the cloows down to the wrists; also on my face, immediately around my mouth and chin, and continued to be a perfect torment to me until cured by the Blood-Searcher. My arms were at times almost useless, owing to the deep cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchyl could scarcely prevent tearing off my flesh. I have now been cured six weeks, and if feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hoje that others like myself may be benefited by using this invaluable medicine.

J. M. Lindsex—Dear Str. We are very near near out of your medicine; please send us two dozen. We would just say that your medicine has cured a case of Scrofula that has been coming on for years; the fieth was eaten off the lady sarms—you could see the sinews working. She is at the eighth bottle now, and the fieth is growing on very last. Your Blood-Searcher is going all over the country. The people are very much pleased with the above case. Please send us statement of our account, and oblige us.

Yours truly, JOHN RAISTON & CO., Elderton, Indiana Station.

and be convinced:

Dr. J. M. Lindbery: I was afflicted for a number of years with a disease, said by my physicians to be Scrofula. For the last three years I was so bad that I was unabled to get out of my bed. I tried all the remedies and the best physicians I was able to procure, without any beneficial result. I continued growing worse until the flesh and skin were entirely eaten off the left side of my face, neck, shoulder and arm. My sufferings was so great, and I was so far reduced that it required the efforts of two persons to move me in bed. This was my condition when I was induced by the Messrs. Raiston, of Elderton to try your Improved Blood-Searcher, which to my great relief, and the satisfaction of my friends, I soon discovered was helping me. I continued the use of it, and gained so rapidly that in considerably less than one year I was able to go about and attend to some of my household duties, and the parts affected were all healed up and covered with sound healthy flesh and skin, and have so continued ever since; and I now enjoy a state of health that I had for years given up all hopes of ever again being blessed with.
