August 6th, 1665. New Evidence. Being afflicted with a grievous tetter on the arms and face after trying may remedies which uttoriy failed to cure-I was permaded by W. M. Barris & Co., to try 'Lindsey's, Improved Blood-Searcher, ''and now, six weaks ofter using the second bottle, pronounce myself cured. The tetter broke out something over one year sco, on down to the wrists; also on my face, immediate-ity around my mouth and chun, and continued to be a perfect tornient to me until, cured by the Blood-Searcher. My arms were at times almost tweeless, owing to the deep creaks and sometimes so the unside of my arms is and some of the least ex-ertion to lift or work, and sometimes so tichy I could scarcely prevent tearing off my feat. I have now been cured six weeks, and I feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others, like myself may be benefited by using this invaluable medicine.
