Burning the Constitution.—Says that reverend, shining light of Aboli-tionism, Wendell Philipps: "The Constitution of our fathers was a mistake. Tear it in pieces and make better. Don't say the machine is out of order; it is in order, it does what its framers intended—protects slavery. Our aim is disunion, breaking up the States. I have shown you that our work cannot be done under our institutions.'

Again he said: "No act of ours do we regard with more conscientious approval or higher satisfaction, none do we submit more confidently to the tribunal of Heaven and the moral verdict of mankind, than when, several years ago, on the 4th of July, in the presence of a great assembly, we committed to the flames the Constitution of the United States.'
