New Evidence.

Being afflicted with a grievous tetter on the arms and face—after trying many remedies which utterly laided to cure—I was persuaded by W. M. Harris K. Co., to try "Lindsey's Improved Blood-Searcher," and now, six weeks after using the second bottle, pronounce myself cured. The tetter broke out something over one year ago, on the mside of my arms, extending from the elbows odown to the wrists; also on my face, immediately around my mouth and chim, and continued to be a perfect forment to me until cured by the Blood-Searcher. My arms were at times almost useless, owing to the deep cracks and sores on them, hable to bleed atany time on the least exertion to lift or work, and sometimes so litchy I have now been cured six weeks, and I feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefited by using this invaluable her.
