'Please say a kind word to my army, "Please say a kind word to my army, that I can report to them; in orders in regard to their conduct at Yorktown, Williamsburg. West Point, Hanover Court House, and on the Chickahominy, as well as in regard to the seven days and the recent retreat. No one has ever said anything to cheer them but myself. Say nothing about me. Merely give my men and officers credit for what they have done. It will do you much good and will strengthen you much with them if you issue a handsome order to them in regard to what they have accomplished. They deserve it."

Order:—"General McClellan commands that portion of the Army of the Potomac that has not been sent forward!"

But the morning of the 21st brought to Washington some startling intelling in grault, neglecting and even insulting him. The President and Secretary of War had yielded to the radical politician; who were hounding the young general, and on the evening of the 30th, when the War Department issued its order, Washington radicalism was jubilant, and all believed that there was truth in Pope's dispatches, and that he

nocuvering at Washington at this time would, if made public, explain the whole responsibility for the disastrous cam-paign of Popc. The blood our thousands paign of Prope. The blood our thousands lost on those fatal plains of Manassasis chargeable directly on the intrigues, of Washington politicians of the radical party, who only desired to remove McClelan from the public view, because they feared, that the splendor of his genius, the devotion of his army, the nobleness of his character, might bring him bafore the people as a fit man to lead the whole nation through warrand neade

the whole nation through war and peace and Union under the Constitution. For this they intrigued, and for this they have wasted thousands of young lives, poured out on fruitless battle-fields. And some of this secret history may be regovered from a close examination of the dispatch-es and orders issued at Washington, between the 25th of August and the 2doof September, '62. Five-days, brief time, but filled with great events. The politicians had succeeded. McClellan was debased and discharged. He asked Halled, for appearing 

plies, orders and finding fault. "Ammunition, and particularly for artillery, must be immediately sent to Centerville for General Pope. It must be done with all possible dispatch," telegraphs Halleck at 1.45 o'clock, on the 30th. McClellan replies at 2.10, "I know nothing, of the calibre of Pope's artillery. All I as established at a late meeting of the newspa- can do is to direct my ordnance officer per proprietors of this city. These are but a to load up all wagons sent to him." slight advance over the old rates, and in reality Halleck finds fault that Franklin was tion, and finally marched without wag-

or subsistence.
Then McClellan sends a dispatch which will be memorable in all future necessary and obligatory. As nothing is now made upon the subscription of newspapers, for the reasons above stated, it is required that the listening to the distant sound of the the reasons above stated, it is required that the deficiency be made up from advertising or not at all. We hope this plain statement of the case will be reason and apology enough for our liberal and enterprising business men. Verily they did deserve it. They were an army of heroes, brought home from fields of as gallant fighting as the world ever saw. But there was no reply to the request of their general. They received no kind word, no cheer, no thanks. They were hurrled home, to be hurled into the jaws of death under a commander selected to displace the general who had hitherto shared their fortunes.
