ed to all physicians that advertise and treat the diseases named in this card, (Private Diseases) why this should be, they nor no one else can tell. Are they not aware that all physicians treat diseases of every denomination, in fact solicit just the very diseases that are so obnoxious to these very reined parties. I suppose they would not let one of their family go to a party that has devoted years for their heneit, because he advertises the fact, and their family physician says he is a humbug so he can get the case. Often he has almost deprived the party of his life. He comes at last to the physician that advertises—how else are they to know! Are they not aware that Sir Aastey Cooper, Sir Benjamin Brodie, Sir Charles Ball and M. Paul Rheord devoted years in the treatment of these diseases! These men are held up as shining lights in the medical world; I don't assert that all men are worthy that publish, still there are a great number of them that are. I have devoted myself to the study and treatment of PRIVATE DISEASES upwards of 40 years, and without egotism can say I have saved hundreds from years of misery and untimely death. My treatment is confined to the vegetable altogether, as I think it is the best and most certain. It is in my power to bring hundreds of certificates if I thought it necessary to certify to my general success: but my long residence in this city is sufficient proof without adding more. Spermatornea and all diseases a raining from it are cured in a much shorter time than heretofore. It behooves every young man and woman to be careful in selecting a physician. The different advertisements that are seen in our papers are of no worth, and no benieft will arise from answers than only loss of health and money. Hundreds are cured annually by my new remedies.
