TWENTY YEARS STANDING

CURED.

EBelow will be found a conflicte from one of the most respectable citizens of Wilkins township in regard to Dr. Koyser's Lindsay' Blood Searcher. The Doctor's configures are within reach, and no one need be decreived all regulations that preparations.

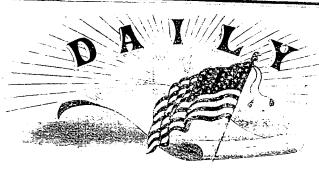

DR. GEO. H. KETOER :- I became affected with

Piles about twenty years ago, and every year they were growing worse, so as to trouble me

very much, so much so at times as to unfit me for work. Sometimes I was so had that I could not do anything on account of them, they came out on me as large as a hickory nat. I had tried | SANITARY FAIR, a great deal of medicine for them. I used to buy and take whatever I could hear of or read of it circulars and pamphlets that fell in my way, but 1 could not get cured, sometimes they would do me some good for a little while, but afterwards both Amateur, Commercial and Professional. they would return again as bad as ever. 1 also The laudable object of this Fair and the apparapplied to two Doctors who visited me at my of each day alone, will urge the Patriot and house and gave me some medicine but it would if hilanthropist. got an advertisement of gover Lindsay's Bloodthe Department under our charge, which is of and that my whole system would have to be rebought one bottle and took it home with me and used it according to your directions. I then call ed to see you again, when you said I could no expect much benefit from one bottle. I bought it on, one bottle at a time, until I had used five bottles. After this quantity had been used, I was entirely well of the Piles, which had tortured me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well new for six months, and there is noappearance of a return of the disease; I can do any kind of farming work now without the Piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When I found our your Blood-Searcher 1 kept on taking anything of a rural or rustic character that does it until I got entirely well. I consider it my duty to make my case known to the country for the ment. benefit of others who may be suffering as I was designs, baskets, &c., so as to insure a constant and do not know the value of your medicine. About Lawyer Generals.

The New York Times champions Mr. Lincoln bunglingly. Its editor writes a book showing what a brilliant general "Honest Old Abe" has proved to be, and then, doubtless to relieve his conscience, writes and article in his paper about civilian generals, in which occurs the following terrible criticism upon the subject of his book eulogy:

Not one solitary civilian, from the beginning of the war until now, has shown himself competent for high command.

The folly of trusting military empiricism has been written out in letters of blood the subject of his book eulogy:
