TWENTY YEARS STANDING Pittock's,

CURED.

Below will be found a certificate from one of the most respectable citizens of Wilkins township in regard to Dr. Keyser's Lindsay' Blood Searcher. The Doctor's certificates are within reach, and no one need be deceived in regard to his preparations. DR. GEO. H. KEYSER :- I became affloted with Piles about twenty years ago, and every year they were growing worse, so as to trouble me very much, so much so at times as to unfit me or work. Sometimes I was so had that I could not do anything on account of them, they came out on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of it circ ilars and pamphlets that fell in my way, but I could not get cured, connetimes they would do me some good for a little while, but afterwards they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would not do, I could not get well. Over a year ago l got an advertisement of your Lindsay's Blood Searcher, made by routself-when you sold it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then call ed to see you again, when you said I could no expect much benefit from one bottle. I bought it on, one bottle at a time, until I had used five bottles. After this quantity had been used, I was entirely well of the Piles, which had tortured me for twenty; years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now forsix months, and there is noappearance of a return of the disease; I can do any kind of farming work now without the Piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When F found out your Blood-Searcher I kept on taking. GAS AND STEAM FITTERS. it until I got entirely well. I consider it my duty to make my case known to the country for the benefit of others who may be suffering as I was and do not know the value of your medicine, that may publish this if you like—I live in Wilking manufacturers of Dakin's Patent Water brawer formship, and will be pleased to satisfy any one ing Stoves. of the truth of this certificate If they wish to call

I had hoped that when they went there and surveyed this whole field they would think that the one term was sufficient for a man of such indifferent qualities as the present incumbent of the presidential chair. But, on the contrary, I found unanimity. It was said that the whole country insisted upon Lincoln's nomination—("No, no")—that they did so because they had confidence in him, and in no other man.

Effects of Mr. Lincoln's Nomination is Wall Street. Yet strange to say that barometer of Wall street told another story. As soon as it was reported here that Lincoln was nominated at Baltimore, gold for the first-time struck near to two hundred. (App.) That is an unerrang test and cannot be thrown over. It will be found when you come to look abroad in the country. you come to look abroad in the country, that the great majority of the loyal masses of the country accept Mr. Lincoln, if they do accept him which is not yet apparent, they accept him because they think they are driven to the wall, and cannot do otherwise. It is not the fault of the people that this impression is abroad. It is the diabolical machinations of those who sit in Washington, who have given out from the first, and who have given out from the first, and have insisted that this man and no other
