The dam upon the Monongahela river was built pressly for purposes of navigation and is deep and wide and as smooth as any sculling party could desire. The view from both sides of the river is excellent, and there is room for thousands to witness this exciting race. The Monongahels winds round a cape or point near the Glen Hotel, affording an ample view of the entire distance of the race course staked out, which is to be five miles, and we doubt not the hills will be lined with anxious visitors. The distance from town will be from three to six miles and can be reached either by the Connellsville railroad, which runs an express train at one o'clock to the place, or by steamers which start at the foot of the dam. The parties are busy training themselves for the great effort, and have been for the last few weeks. They both look well and are said to be well matched. Riots in General-Riots are becoming so dimon about our city as to alarm the peacewing citizen and to cause the most innocent and unsuspecting to apprehend danger. Especially at parties have we noticed this inclination of affairs, At Troy Hill, Iron City Park and McOlurgs Grove life has been threatened and taken, and though each case did not ripen into a riot, yet life was taken which amounts to the same thing. There is only one preventive that we know of for preventing the re-currence of these unpleasant incidents and accidents and that is to require persons who make parties to have a sufficient police force to keep order during the exercise, exhibitions or pastimes of such parties. We dread to hear of a party and unless something of this kind is done. there had better be no parties at 211. A good cons abulary force at each picuic might prevent the commission of much errore and noting. But who expects poncemen to work without pay?

of which we will give in detail to-morrow

Certainty such is not expected, if we were about to make a party to go from the city the first thing we would think of, would be a police lorce sufficient to protect the innocent females and children from the annovance of city rioter who go without invitations and who act with. out restraints of either a legal or moral nature. Such a course and such only can possibly protect the innocent and drive the lawless into

A Terrible Accident -- \ serious and most unfortunate accident occurred yesterday on the river road, above Lock No. 1, at the Saw Mill of R. J. Conneil & Co. The circumstances were, as we learn, that three German women went to the sawmill to gather wood, and notwithstanding frequent admonition from the proprietors and mill hands, to keep away from places which were dangerous, one of those hree women ventured to a spot where she was struck or caught by a piece of timber which fractured her leg so seriously as to require amputation. Medical aid was immediately procured and her limb was amputated above the knee by Dr. Coffee and Jones. We were unable to learn the name of the unfortunate woman, but hear that she is a poor Germanwidow with four children. It is a sad case and we are certain no one regrets it more than the proprietors. The casuality may yet prove fa-
