Below will be found a certificate from one of the most respectable citizens of Wilkins township in regard to Dr. Keyser's Lindsay' Blood Searcher. The Doctor's artificates are within reach, and no one need be decrived in regard to his preparations. DR. GRO. H. KEYSER: -I became affleted with Piles about twenty years ago, and every year they were growing worse, so as to trouble me very much, so much so at times as to unfit me or work. Sometimes I was so bad that Frould not do anything on account of them, they came out on me as large as a hickory nut. I had tried before the recent heavy advances we offer a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in stock of seasonable circulars and pamphlets that fell in my way, but 1 sould not get cured, sometimes they would do HOSIERY AND GLOVES me some good for a little while, but afterwards they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would not do, I could not get well. Over a year ag got an advertisement of your Lindsay's Blood-Bearcher, made by yourself-when you sold it to me you told me one hottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then call ed to see you again, when you said I could no expect much benefit from one bottle. I bought it on, one bottle at a time, until f had used fiv hottles. After this quantity had been used, I was entirely well of the Piles, which had tortured me for twenty years. In other respects my

I can do any kind of farming work now without the Piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When I found out four Blood-Searcher I kept on taking 3 it until I got entirely well. I consider it my duty to make my case known to the country for the benefit of others who may be suffering as I was and do not know the value of your medicine. You may pushish this if you like—1 live in Wilking Tourskip, and will be pleased to satisfy any one of the truth of this certificate if they wish to call December 24th, 1863.

> From the National Intelligencer. THE FREEDMEM AND THEIR

THE FREEDMEM AND THEIR
HABITATION.

While the Scnate had under consideration, on the 28th ultimo, the bill to establish a "Bureau of Freedman's Affairs," Mr. Wiley, of West Virginia, moved the following amendment as an additional section:

"And be it further enacted, That whenever the said Commissioner cannot find abandoned real estate on which to employ all of the freedman who may come under his care and control by virtue of this act, is shall be his duty, so far as may be practical, to provide for them homes and employment with humane and suitable persons at fair and just compensation for their services; and that in order the more effectually to accomplish this purpose, the said Commission.

Country, and therefore Thope is will not remain in the bill; in that form."

Mr. Wilson was inspired to make these remarks, we presume, by a lively which Gov. Andrew, of Massachusetts, was laid in the year 1602, when, having been earnestly requested by Common Dix, while that officer was in command at to some blacks who were included to some blacks who

ment with numane and suitable persons" in other parts of the country. And to this end the Commissioner was to open correspondence with the Governors and the various municipal authorities of the different States requesting their co-opcration in this behalf. It will be seen that, by the terms of the proposition, the commissioner was not to open correspondence on this sub-ject so long as he could find a place for the emancipated blacks on the Southern

plantations. But in cases where there was not room for them to find a subsistence at the South, or where they were in imminent jeopardy of recap-ture and re-enslavement, it was proposed, as Mr. Wiley explained, "to secure them a better home and better wages in a community where they will receive better treatment and be better protected by the laws than they can be on the abandoned plantations of the South," under the circumstances indicated. In further support of his benevolent proposition Mr. Wiley said:

"I beg Senators to reflect a moment and ask themselves the question where, PURCHASED WITH GREAT CARE in the whole scope of the insurrectionary territory of the United States on which at this time, there is a plantation withit would be wise or expedient or jossible to place any number of these freedmen; and to keep them there for six months? Where is the section of territory in which it can be done? If there be any such I do not know it. Perhaps in the vicinity of our forts and a little distance from them, where they are distance from them, where they are under the eye of the military authorities, this can be done; but yet we have reports almost daily that bands of guerrillas seize these men and murder them or carry them off to worse slavery than

they have ever endured. "But here is a proposition that has something practical in it, that has something benevolent in it, that will take these freedmen from the miserable condition in which they are now placed, that will secure them homes where no such danger exists, that will secure them homes where they are not under the arbitrary control of these commissioners and assistant commissioners, but where they are under the protection of the laws and courts, where they are in the midst of a benevolent community who will see that they suffer no wrong, where they are in the reach of our judicial tribunals and the executive our judicial tribunals and the executive officers of the law to protect them in their rights and redress their grievances. All that my amendmet proposes is that these freedimen shall, with the assent of the people of the free States and under the direction and with the approbation of these commissioners, have homes provided for them in those States; nothing more. There is nothing compulsory in it. It is provided that it shall only be done where it is practicable and so far as it is practicable. If the laws of any State prohibit the introduc-
