To Hox. Horacs Greeker—Sir: The paper handed to Mr. Holcomb on yesterday in your presence by Major Hay as an answer to the application to our note of the 18th inst., is couched in the following terms:

A Citizen Seized by Soldiers and Spirited Away to Camp Douglas Infamous Aggression upon the Freedom of Speech.

On Tuesday afternoon a man whose name our reporter could not learn, en-tered the saloon of John Bailey, corner of State and Randolph streets, and called for a drink. While there he adverted to the recent shooting of a soldier by the Provost Guard and animadverted somewhat severely upon an indiscriminate use of fire arms, when they are not shoutely needed.

Several soldiers were in the room at

the time, and one of them rejoined that it was "none of his d————d business how the man was captured." A discussion ensued, in which politics were broached, and the first comer stated that, in his opinion, Jeff Davis was a much abler man than Abraham Lincoln; that the weak, imbecile acts of the administration conclusively showed the lack of Presidential chair.

For this quiet expression of his politi-cal opinion, and his presumption to differ with a soldier in his estimate of the comparative abilities of the leaders of the antagonistic armies, the citizen was pronounced "a G-d d-d secessionist." The man finding that, notwith-standing the vaunted freedom of the North, he was denied the freedom of speech, and that summary vengeance was about to be taken upon him for his remarks, concluded to go away, but soldiers were posted at the doors to prevent egress while reinforcements were sent for. The Corporal of the Provost Guard arrived shortly afterward, with a guard, and, without allowing the man the slightest opportunity to prove his loyalty, incontinently marched him off to the office of the Provost Marshal and thence to Camp Douglas.
Our reporter visited the guard house at the Soldier's Rest several times yes-

except that he is still confined at Camp Douglas.

The whole affair seems to have a mysterious air,—a citizen is seized in broad daylight and spirited away and nobody scens to know anything definite in regard to it. If a man lays himself liable to the law, by an overt act of treason, let the civil courts take cognizance of it. There is ample means provided for this course, and no "military necessity" for course, and no "military necessity" for thus depriving a man of the privilege of a fair and impartial trial. This is an numbered, and the liberty of the citizen aggravated case where a citizen is an experience of the course of the citizen in the aggravated case, where a citizen is drag, must give ged unceremoniously off by minions of subject an administration that has long since des'red to annihilate the freedom of speech and the freedom of the press. It is but one, however, of the numerous arbitrary arrests which are the ming choice of candidates for the next Presiso fearfully common in this country, where once it was proudly acknowledg-

BRANDRETH'S PILLS.—THEY expel the poisons which threaten life. Every time a sick person is purged by this vegetable immediate and vigor, as any one can prove by taking a single dose. Persons of spare habits gain flesh and strength while using them. Every time we rest a few days or weeks from the purgation, we make new fluids from our food, which replace the unsound ones that the Pills have caused to be evacuated. Each time we repeat this process, we expel further quantities of impurities, which are again replaced by fluids less and less impure, so that in a short time, by continuing this treatment, we bring back the whole mass of fluids or humors to that state of jurity fwhich constitutes health, for Brandreth's Pills only take away humors which are unsound.
