We are informed on reliable authority that his Holiness the Pope, wishing most sincereix to patronize the Sanitary Fair of our city, has prevented from arriving in time. The donation is said to consist of some exquisite works of art, such as cameos, photographs, &c., and would certainly produce a great impression on the community if exposed to the public. The Rev. Dr. Keogh, President of St. Michael's Seminary, Glenwood, will convey them to Pittaburgh on his return from New York, when we shall be enabled to witness this beautiful present of the Holy Father, who, smidst his present troubles and in so many instances, has tendered his sympathy and relief to the sick and wounded soldier

Cases of hydrophobia are becoming ver prevalent, and several deaths have occurred by this terrible malady having been contracted through the bite of a rabid dog. The greatest precaution should be seed in regard to those animals during the present season of the year, and they should be restricted as much as possible, by keeping them inside doors, or using a muzzle when otherwise, as the danger is great, and once the malady shows its influence on the patient, his recovery is usually despaired of. In our city, these restrictions are not enforced as well as they should be, and although many serious accidents have not as yet occurred, still it is better to keep out of harms way by using

On a Strike.-We understand that the blacksmiths, machinists and other laborers of the Pittaburg and Cleveland Rallroad Compa ny are on a strike. It is stated as a cause for the strike, that they have not received their back pay regularly. A committee was appointed by the proper authorities of the road

Fire .- A fire broke out on Mulberry street, Hollidaysburg, between the hours of two and three o'clock, p. m., on Saturday night last, partially destroying the buildings of Mrs. Corbin and Mr. J. C. Mechanics and other employees need their wages promptly during these hard-times and high rates.

94th District,—Washington and Greene countles did not supply many men for the army during the last draft. It is stated that in one case out of ninety-eight men reporting, seventy-nine men paid their commutation; seven were dismissed for physical disability; six were over forty-five years of age; two were non-residents; two were dead; one is now in the service; one is an alien; one a minor, and one was dismissed on account of the quota being filled.

This makes all of them and one or two more

who escaped the draft.

More About the Fire.—We visited the scene of the confiagration in Aligheny city yesterday evening and found the charred remains still burning. The block of buildings that was burned stood out by themselves separated by a street and the grounds of the Pittsburgh, Fort Wayne & Chicago Rialiroad Company, on one side and Seminary Hill on the other, otherwise the fire would have certainly spread and formed much more of the city as everything was as dry as a hot sun could make it.

Grant, for the sake of argument, that Gen. Sherman shall quickly achieve such a glorious victory as will gladden the heart of every Unionias, and that it will secure for the North millions of bales of cotton, or more than the South has ever produced in a year. It is evident that it cannot be gotten to market and manufactured into heavy cotton stuffs for fail use. If we should be so fortunate as to get a large supply of cotton its first natural mission would be to bring down, into seeing and feeling distance, the price of shirting and other articles of cotton fabrics, calicoa, &c., for winter and spring use.
