Irou Boats.-Snowden & Mason are buildng a new iron steamboat along-side of the gun oats, which is said to be designed for the Ric France, and is built for a gentleman named Brown, of one of the Eastern States. It was onimenced about six weeks ago and will be ready to launch in a few weeks long before here will be water to launch it in. The gunboat Maniyunk will also be ready to launch be ore long. Workmen are now engaged in finishing the top plating. Work is at present suspended on the other gunboat, for what reason we are not fully apprised. It is in all probability owing to an order from the War Depart. ment, who may not be satisfied with the model of the vessel. Several vessels similarly modeled are said to have proved a failure lately, () the truth of this, however, we exampt youch, and hope that the labor on this boat is not lost

Highway Robbery.-A case of highway Lowry yesterday, in which two men, named Casper and Frank Wiggins, were charged with forcible taking of three two Jolian bills from a man named Phillips. Frank Wiggins charged Philips with having a pistol, belonging to him (Wiggins) which he refused to de ver up and, the two Wiggins said they were determined to have the pistol or the worth of it, and suiting their actions to their words, they took violent hold of said Philips and abstracted the money aforesaid, for which the par-

ties were held to answer. New Buildings .- () wing to the scarcity of abor, the new buildings about the city are going up slowly, and the high price of labor and material makes it a discouraging and expensive time to build. A building erected now will cost two or three times as much as it would two or three years ago. Such buildings as are progressing now will no doubt be completed, but the hard times will deter many from building, that would otherwise be engaged in the bus

Russian Pebbles.—A man named Alexan dria W. Ewing appeared before Alderman Donaldson and made information against J. Donaldson and made information against J. Diamond, Optician, 5th Street, for false pretense, in selling him a pair of spectacles with Russian Pebble glasses and silver rims or cases, for four dollars and fifty cents, which he alleges have neither Russian Pebble glasses nor silver rims. A warrant was issued and Mr. Diamond

the following: We have been able to ascertain this morning nothing definite with regard to the rebel movements at Martinsburg, and along the line of the Baltimore and Ohio Railroad, further than that most of the exciting stories in circulation on Monday were either unfounded or

greatly exaggerated. As far as we can iscertain this morning, Averill has not been killed, but was compelled to fall back to the Potomac, and from thence through Martineburg to Williamsport, Md., carrying with him the entire garrison at that point. Whether the rebels occupied Martinsburg last night is not known, but of its evacuation there seems to be no doubt. Boston Wool Market.

The wool market has ruled rather quiet during the past week, owing to the money stricture and failing off in gold, and asles to consumers have been light, though at very full prices. Among the trade considerable stajle has changed hands at irregular rates, the tendency of the linancial situation being to convenirate the musil stock on the market in few and strong hands. In all cases, however, where the necessities of holders have induced them to offer lots at a shade under the current rates, the Hoston trade has stepped forward and relieved them of their burthens with a promptitude which techniques the strongest confidence in the future of this commodity.

Sales of domestic for the week, to actual consumers, foot up not over 175,000 fts, at a range of \$1,000 fts, foot up not over 175,000 fts, at a range of \$1,000 fts, foot up not over 175,000 fts, et a range of the old clip. We also hear of a small sale of extra pulled as high as \$0.25 fts, but this missible considered just now as an extreme quotation. Heavy Vermont and New York freeces are selling at about \$1 ft fts, and fine Ohio and Michigan at \$1,001 15. In Canada, we note a sale of 15,000 fts mixed, as it ran, including both clothing and combing grades at \$1.20 ft is; good lots of pure combing do heldat 1 do . In foreign sales so bales all descriptions, including both clothing and combing the delata 1 do . In foreign sales for a superior lot, very light and fine.—Bulletis.
