Where he was born, or where he lived before his first marriage does not appear, but immedistely after that, he was found guilty of counterfeiting, and was sentenced to one year's coninement in the Eastern Penitentiary. The Leavenworth trains have been attacked and robbed, and a large amount of stores have been destroyed on the Santa Fe road. It would be well to make military arrangements by which trains for the Far West would be protected. The development, of the Western country must necessarily be impeded by these barbarians, unless checked by military action. Trains will cease to venture out, and the pioneers of the unbroken territory in the West will have to confine their explorations and improvements. fine their explorations and improvements to the immediate vicinity of the settlements. Though these outbreaks of the Indians are not noticed amid the more terrible clashing of battle armor in our midst, yet they are very annoying to the Western settlers, who have very little to support themselves and families.

A Pittsburgher Murdered.-We learned yesterday, that a man named Ward, formerly a Pittsburgher, was murdered at Niles, Mahoning county, Ohio, day before yesterday. Mr. Ward was the proprietor of the Falcon Iron Works at that place. He was shot by a man named Frank Rollin, who is married to Ward's niece. Rollin made his escape, after committing the deed, and has not been heard of since. The police of this city are on his track, and may yet apprehend him, as he was formerly acquainted in this place, and is now probably lurking about here. The cause of the quarrel between them is not known. Mr. Ward is respectably connected and widely known here. Shooting seems as common now-a-days, as fist-fighting used to be.

The order is of Southern organization, being erected on the ruins of the "Knights of the Golden Circle," and General Sterling Price is supreme commander.
