SATURDAY MORNING. AUGUST 6, 1884. Excitement in the City.-Yesterday our city was again thrown into a state of feverish excitement, and the different rumors which were spread abroad concerning a rebei victory at New Creek, together with various other innumerable reports which were issued without any partice lar origin, but which were listened to with the greatest attention and anxiety. The prociamation of Gov. Curtin demanding thirty thousand militia, added fuel to the fire, and in a short time the community was in a state of the greatest We will now be forced to renew iore than double that amount. But danger is shead, and we will have to exert ourselves to our utmost capacity to defend our preperty of our fellow citizens from the hands of the ruthless invader who is now scouring our State with fire and sword, sacking and burning our towns and killing the inhabitants if they make any show of resistance. We hope that our city will not be exposed to such terrible scenes as these, but it is reported, and on good authority, that the invaders have designs of invading our city, and we must therefore be on the alert. Our own private individual interesis require that we should now perform all we are capable of performing, and no doubt no patriotic citizen will be found selfish enough to refuse to do so. Let as unite as one man, and the efforts of the rebels will be vain.

Counterfeit.-Yesterday a man named Wm. Hendricks, was arrested in Allegheny for passing counterfeit \$20 greenbacks. He had already succeeded in passing some notes, and had pur-chased a pair of boots with one of them, and received the change, but on trying to change another, he drew the attention of the detectives, and was accordingly arrested. He was forced to disburse the ill-gotten money, and the boots were found in a house in this city. Having performed this much, the detectives gave him his liberty, having already ascertained his name and residence and afterwards notified the city police. If these proceedings are not punished severely, counterfeits will increase in number, and some of our citizens will be robbed of their honestly earned money. They are not less than four at present in Allegheny who are implicated in this single charge, and they are all more or less known to the detective police.

The Enrollment. The enrollment of our citizens for the militis to defend the city in case of danger, is progressing rapidly and siready the greater part of our citizens have been enrolled, and are ready to be called upon at the first notice of danger. All the arms in the arsenal are at the disposal of the commandin general, so that a large supply of arms and amon will not be deficient when their us will be found necessary. The enrolled men are divided into two classes, one of those who will not be necessitated to serve the city, but will remain to defend the intrenchments, the other of those who will be sent out of the city and county if necessary. In order to facilitate the enroll ment and render it more expeditious, several officers have been sent to the different wards so it is believed that ere the end of the week, the enrollment will be completed.

from contending with Pittaburghers on the oar, and although they generally have an admirable knack of coming out second best, nevertheless they deserve all due praise for their courage and perseverance, when it is not extended too far. Another grand rowing match is going to come off at Poughkeepsie, on the 18th inst., between f. M. Roberts of New York, and the Twilight of Pittsburgh. It will be an entirely grand affair, and will no doubt attract large crowds of spectators. As the contestants will be all New Yorkers and Pittsburghers, our fellow-citizens will be afforded another opportunity of displaying their skill on the oar, and their superiorily in that respect to the rowers of the great Metropolis, and as the stakes will be the round sum o one thousand dollars a side, we know they will have no difficulty in obtaining their pos

There was a Sunday-like feaure pervading our city during the entire day, but more especially in the morning, when the people generally repaired to their respective pla-ces for attending service, and heard sermons and lectures which were appropriate to the day and its surrounding circumstances. Towards evening, the day assumed a less rigid feature, but nothing was done which could be said to be out side the bounds of propriety, and everything passed off in a quiet yet cheerful manner which does honor to the good behavior of the commu-

Transfer of Forces.—All the available forces of this department were sent on the evening of Thursday last, to reinforce our army which is now fighting against the rebeis. It is probable that more men will be needed, as the invaders appear in a larger force than was at first reported, and we will probably be called on to raise them. We certainly must do all in our power to avert the impending danger, and secure our city from such scenes of bloodshed and robbery ere witnessed so recently by the unfortunate inhabitants of Chambersburg. Preparations should be made and everything kept in readiness as our common safety demands that the great-est caution be used, because we are all well aware with what facility an armed force can enter a city if the inhabitants are not prepared to

Pic-Nics on the Fourth.-The holiday which was conceded on the Fourth, by the President's Proclamation, and the general suspen sion of business all around, caused several of our citizens to take advantage of the holiday, and render it less tedious with the celebration of a good pfo-nic, which would make the dull hom of time fleet away, after they had attended service in the morning. Accordingly several pic-nics added to the solemnity of the day, and among others the St. Vincent de Paul's pic-nic which came off at Troy Hill, for the charitable purpose of collecting funds for the relief of the suffering poor. The printers had also a very good time in the shady groves of Glenwood, where they passed the time very merrily with different sorts of amusements.

Bounty Fund in the 3d Ward,-The citizens of the 3d ward are determined to avoid the draft some way or another, and not having the necessary funds in cash to procure substi tutes or induce volunteering, the school directors of that ward have agreed to issue bonds payable in one year to an amount sufficient to cover all the expenses which will be entailed by filling the quota. They earnestly invite their fellow-citizens to furnish the necessary sum of money, and take the bonds. Besides this, other the city without a supply of HOLLOWAY'S PILLS AND OUNTMENT. On the whole the adress was highly satisfactory to the audience, and worthy of the distinguished gentleman who composed it.

Battery for Uniontown.-A strong battery of four guns came yesterday from the East, and was transferred to Brintons, where it is at present. It will be forwarded to Uniontown, our efforts in order to respond to this call, and tion if ever they should turn their march in that and will serve to give the rebels a warm recep if we found such difficulty when we tried to direction. Besides the guns, a sufficient numraise only 1500 men in Alleghany County, what ber of horses, ammunition and other accompan obstacles must we not expect to meet when our | iments have been received, so that the guns will be found serviceable at a moment's notice. They were constructed, it is said, in New York, and are of a considerable calibre though the exact bore we have not been able to ascertain.

Arms to Johnstown.-The citizens Johnstown being greatly exposed to rebel attack ahould be well armed to meet the danger, and accordingly a large amount of arms and ammunition have been forwarded to that place.
