LOCAL INTELLIGENCE. TUESDAY MORNING. AUGUST 9, 1884.

The Ladies' Christian Commission. The Ladies' Christian Commission is one of those charitable institutions which may be said to spring up as an antidote to the terrible evils ot a protracted warfare, and evinces a charity and generosity on the part of the ladies not to be met with among the cultivated and tende hearted governments of Europe. The fact is, that this war has shown forth the real character of the American ladies, and has openly manifested to the world the abnegation of which they are capable in relieving the sufferings of the soldiers in the hospitals, and in reducing the national taxes as far as they are able. The refusal of the ladies to purchase any goods unless of home manufacture, although the movement was not entirely successful, still shows that American ladies can scorn even the little luxuries and vanities of which their nature seems so fond, and imitate a masculine fortitude when the welfare of their country is concerned. The Christian Commission deserves far greater praise, as this is recommendable for the imme diate service which it affords to the wounded in the hospitals and to the soldiers in the field. by preparing some of the most recessary articles the same. This Christian Commission ha met with a complete success throughout the entire North, and we are firm in our opinion that the success with which it will be hailed in taburgh, will be unsurpassed in any city of the Union. All the ladies in this city should ontribute to its advancement, and promote its interests. It is a charitable institution, and is therefore highly appropriate for the ladies, a they never look better than when they are laboring for the poor and suffering, and who can come under that denomination more appropriately than the soldiers who are laid in the hospitals feverish and wounded, deprived of the most ordinary luxuries which, for a sick man are so requisite, and without which it is diffithey should perform something, and as we are lies does not yield in the least to that of the soldiers who enlist in the armies of the Union, of course they cannot refrain to make manifest their patriotism, and give to the world an unequalled example of sublime devotion to the Railroad Company, held at Newcastle on the country to which they are indebted for protec-We are in a special manner opposed to the old maxim, that there never was a dispute or a war in this world, but there was a woman at the head of it. This maxim needs no other Shaw, William Stewart, Jas K. Kerr. Samuel confutation than the present war, for which we | Q. Brown and Jacob Zeigler. are exclusively indebted to the men, but what ore glorious and worthy of the ambition of an American lady than to remedy the evils which we have originated? This would be truly a sublime and devoted ambition, and will doubtless attract the attention of those who wish to signalize themselves for some acts worthy of

Bounties for Soldiers.—The bounties for soldiers at present amount to the sum of \$400, \$300 for local bounty, and \$100 which is given by the government to all recruits, from whatso ever district they may come. This sum, together with the pay which is allotted to the soldiers in the service, is more than any man in ordinary circumstances could expect to clear during 153 SMITHFIELD, AND 442 PENN Sta these times, when the prices of every commodity are so high that some of the ordinary necessaries of life are entirely out of the reach of the poorer classes. Moreover, the army pay will be on the increase, as we are informed, after the first of this month, in consequence of the reduction in quantity of rations, which although reduced in part, still are sufficient for any man CARRIAGE MANUFACTURERS, to consume, and their quantity has been diminished simply because it was discovered that the government, and consequently the people.
was undergoing a useless expenditure by furnishing more rations than any soldier could possibly make use of, and consequently an enormous waste was the result. Under present circumstances, we would deem it advisable for all to seize the opportunity, as the difficulty to keep soul and body together, which is now so great will be on the increase, and it will be : d much more difficult for men to provide for their families at home than in the army.

Conferee Meeting .- The Congressional Conferces for the 24th District met at the Monongahels House, in this city, on July 7th, in 'order to nominate a candidate for Congress to succeed Jesse Lazier, and continued in session until July 9th, when they adjourned to meet again on Aug. 3d. The Conferees present at the first meeting were, from Greene county. Jacob Rush, Thos. Hill, and Capt. Harper. From Washington county, William McKennan, Alex. W. Atchison, and John A. Harper. From Beaver county, William McKennan, and Dr. Cummings. From Lawrence county, E. Sankey, D. Craig. and J. J. Haas. But eight or nine hallots were taken. The time was spent in discussing the questions arising on the numination. Washington and Greene countres were instructed for Geo. V. Lawrence. Lawrence.

Persons destring \$25,000 and upwards will be allowed one-quarter of one-per centum on the amount of the principal. The usual commission allowed to Banks and Bankers JOHN D. SCULLY, and D. Cashier.

WANDSOME R. F. S. D. C. the first meeting were, from Greene county. ination. Washington and Greene counties were instructed for Geo. V. Lawrence. Lawrence. and Beaver counties were instructed for Jos. Cumningham. They met again at the appointed time and remained in session until last Saturday, and closed the work on the 5th, by the nominstion of Geo. V. Lawrence for Congress. Dr., Rodgers supplied the place of Jacob Rush, from Greene county. James P. Ripple and David Aiken, supplied the place of Wm. McKernan, and Alex. Atchison, of Washington; F. D. L. Embric supplied the place of Dr. Cummings, from Beaver county.

Bonnty Fund in Allegheny.—The citizens of Allegheny are doing their utmost towards raising a bounty fund, and the measures they have adopted towards that purpose will certainly accomplish that end. In one or two Wards, they intend to send the names of those "black sheep" to posterity, who fail to adinstructed for Geo. V. Lawrence. Lawrence.

"black sheep" to posterity, who fail to advance a sufficient sum to increase the bounty fund, or who do not give sufficient reason for not having done the same. This is truly a very efficient measure, and one which cannot possibly fail. No man could refrain from advancing some meney under such circumstances as these, and consequently, when the Block committee will haul up those who have failed to add a slight sum to the bounty fund, they will certainly disburse the required amount sooner than be sent down to posterity as men who were too stingy to aid their fellow-citizens with a few dollars in averting the draft from the city.

The Decisions -- The Commissioner of Internal Revenue has announced the following decisions under the tax law :

decisions under the tax law:

"Tailors; boot and shoemakers, and others who manufacture partly to order and custom work, and partly for general sale, must pay five per cent the same as other manufacturers under sinety-three. Commission houses, selling goods on consignment, are not to be regarded as local ascents of the manufacturer of said goods. Therefore, when the manufacturer makes such a consignment, the law requires him to make a retu. nof the same, and pay duty on the market value of such goods at the pisce of manufacture or production. Instance or production.

"In assessing tax upon sales of lime, no deduction is to be made for barrels in which the lime is packed for sale, but the tax must be computed for gross amount of sales,"

Hung Himself-We learn that a man named Azariah Davis, of Rostraver township, Westmoreland county, committed suicide by hanging himself in his barn on last Fridny. His mind for some time past had been somewhat demented, from what cause we did not hear, and the had told the family to watch him, as he was

Failure of the Rebel Mine. New York, August 8 - A Herald 18th corps correspondent says of the mine sprung by the rebels, that our forces were aware of this intention. It occurred on the afternoon of the 4th, and cleared away when our men answered the rebel fire, and drowned the rebel cry with their wild cheer of derision at the

failure of their mining operations.

The enemy in all probability, intended to have blown up a sap we had run out towards their line and charged through the opening. They had, however, sadly miscalculated their distance, and the explosion took place five rods in advance of the head of the sap.
