The Daily Post.

river will be deep enough for that purpose. She will draw 21 feet of water and as the river will not attain the requisite depth until the Spring, it will be some time yet before she will be capsble of rendering any actual service to the Govover armor se feet, depth of hold 11 feet 10 inches. The pilot house will be six feet high and five fatigue and suffering. feet in diameter. The turret will be covered with iron plates nine feet long, four feet in breadth, and of one inch in thickness. Ten of these will form the strength of the turret, making it in all nearly one foot thick of solid iron She will only carry two guns in her turret one eleven inch bore, and an hundred and difty pound Parrot gun. Her engines will be of a power capable of making her one of the fastest gunbouts in our fleet. We have not ascertained the exact number of knots she is expected to make, but as nearly all the gunboats have either exceeded or fallen short in the speed which was attributed to them by contractors while building, we will have to await the test before we can form any reliable judgment on this head. On the whole we are under the impression that this gunboat will be a formidable antagonist, and will render much service to our navy.

The Bounty Fund. - The bounty fund should certainly be increased, and larger boun-ties given to volunteers if we wish that they should accredit themselves to us in preference to others. We have heard of frequent laments in our city because the Country agents succeeded far better than those appointed by the city, and the only excuse that could be brought up was that the former were more fortunate. But the secret of the thing is that our brethren from rural districts are impressed with the necessity of having their quotas alled before the approach of the draft, and for this reason have they taken the field with so sauch energy, that to fail would be next to impossible. Another reason for this is that the country offers higher houstless and is that the country offers higher houstless and is the first that the country offers higher houstless and in the first that the country offers higher houstless and in the first that the country offers higher houstless and in the first that the country offers higher houstless and in the first that the country offers higher houstless and the first that the country offers higher houstless and the first that the country offers higher houstless and the first that the country offers higher houstless that the country of the first higher houstless that the country offers higher houstless that the country higher houstless tha is that the country offers higher bounties, and of course it must follow that they should obtain more men. If we offer \$300 or \$350, they are certain to offer some fifty dollars more, and by this means they procure more men than we do and more expeditiously. We have been informed that a certain ward in Allegheny offered large inducements to a Country agent to recruit for them as soon as he would have completed the quots of his own town. This betrays a certain admiration of the tact and energy of those men. We would not wish to derogate from them a particle of the praise which they have truly merit-ed, but cortain it is, that we could perform as nuch in the same circumstances, and if we were furnished with the necessary funds as they are. There is time yet to remedy the evil. The country has procured a great many men, who might have been accredited to our city, but if we exert ourselves we will have what is left, and even this would reduce the requisite quotas exceed-

The Draft.-We have understood that or 153 SMITHFIELD, AND 442 PENN Str ders from the War Department to the Provost Marshal Generals of the respective States requiring them to prepare their final reports prepquiring them to prepare their mast reports part arrangement of the draft. From this it would seem M. J. (OBNWELL.... have to hurry up our quotas, if we wish to free CORNWELL & KERE, ourselves from all liability. Few of the wards are in a position to dely the draft, as but few have raised the requisite number of volunteers, and they must henceforth double their efforts in order to complete the number. Hitherto we have certainly performed a great deal and we have found and raised men, where they appeared so scarce that it was thought that it would be useless to make any effort to avert the draft. But thus far success has attended our endeavors and we may confidently hope for success in the future. The difficulty will increase in proportion as we approach the time when the draft is to be enforced, because the number of men will then be diminished who desire to join the service and moreover volunteers will require a larger bounty. So we had better use our utmost energy at present, and put every means in operation rards attaining the great end we have in view All enrolled men are concerned in the matter and they would find it easier to disburse the com paratively small sum of three or four hundred paratively small sum of three or four hundred dollars now, than to pay fifteen hundred dollars for a substitute in case they were drafted. No man should depend on his neighbor in this case should advance a sum in proportion to his means to increase the bounty fund. If we do this, and if we are not entirely deficient in energy in pro. curing volunteers, we may be certain that when the Provost Marshal General prepares his final report we shall not be behind the mark.

The Dog Nuisance.-The dog nuisance which has become so prevalent in the city is now attracting the attention of every one, not only because the increasing numbers of canniers greatly annoys the general aspect of the city, but also because they are deemed extremely dangerous. Dogs are now permitted to perambulate our city without any special restraint.

In some streets the citizens are afraid to drive their horses on account of this nuisance, several occurences have of late reached our ear in which persons have been actually bitten by dogs who were believed to be mad at the time. The most severe restrictions have been ordsined in this respect, but what utility do we derive from laws enacted but not enforced. The law says that all dogs should be put under strict restraint during that which is denominated the beated term, and that all dogs going at large should have a strong, substantial, safe muzzle, otherwise they are liable to be taken up and killed. we would call the attention of the proper authorities to this nuisance. Strychnine has been resorted to by some members of the community as the only means to suppress the evil. But this will not do, and quarrels might arise from putting into execution that which is the duty of the city authorities. If this state of things proceeds much longer, every individual well be compelled to carry his revolver along with him as the only remedy; and the only means of

The Carpenters.—It is said that the carpenters of this city and Allegheny are having a general exodus, and that they are all being enged by government agents to go to Nashville. It is said that there they will receive from \$60 \$75 a month, together with their board, which is a great inducement to journeymen during these hard times. More over the men are under the impression that when in government employ they will be free from all liability to the draft The workmen have the privilege of forming themselves into working squads and electing their own foreman. Over one hundred have aiready been engaged in Allegheny, and it is said that they are still coming by scores. This will place the contractors in a serious dilema, and it will be next to impossible for them to complete their contracts in the great strait for workmen which will succeed, without sustaining a large

Pic-Nic .- A grand pic-nic will be held o-day at the Iron City Park for the benefit of the schools attached to St. Mary's Church. All the necessary arrangements have been made, and nothing will be deficient which can provide amusement for the people or tend to secure their

Ohio regiments of one hundred day men, the by the subscribers. 137th and the 159th passed through this city on their return home. They were respectivly com-

The New Gunboats .- The gunboat Norah built especially for river service during low water, has been completed and left yesterday. She was preceded on the day before by the gunboat Virginia Barton, which left for Cincinnati, and they are both expected to perform a great deal against the guerrillas, by checking thair depre dations and thereby rendering navigation safe and practicable on the rivers. The former will have an armament of five guns, and is altogether a well built boat, while the latter only mounts four. They are both very servicable crafts and nothing is deficient on them which duty in the defence of the rivers from rebel

The Boat Race -It is stated that the boat race did not come off as expected on the 16th inst., on account of the weather. If we believe the different reports a row took place afterwards on shore, and six men were stabled. We can not youch for the accurancy of either report, and no reliable opinion can be formed until farther information.

TELEGRAPH HUMPHREY'S SPECIFIC

HOMEOPATHIC REMEDIES. Artillery Duel at Deep Bottom.

New York, August 16 .- The Herald's JUST RECEIVED. City Point correspondent of the 14th says: But little firing occured for the week past until yesterday morning, About 6 a. m. heavy guns were heard No. 1.—FOR FEVER, Congestion, and Inflam-mation—Heat, Pain, Resilessness. 25 cents. in the direction of Deep Bottom, and ading was kept up all day. The attack 2.—FOR WORMS Fever, Worm Colic, Voracious Appetite. 25 cents. was commenced by the enemy, and proves to be an attempt to dislodge with their artillery working parties of ours 3.—FOR COLIC, Teething, Crying and Wakefulness, Slow Growth, and Fee-bleness of Infants. 25 cent 25

that they seemed to have just discovered. Their batteries were unable to accomplish it however, and one or two of their rams drooped down the river as far as was prudent, and added their fire to the others. The affair was an artillery receipt of the original Certificates of Deposit as and theirs of course unknown.

The character and design of the operations referred to, in which the working than alluded to at present. Time must develope them further.

date must pay the interest accured from date of Early Reinforced-Palmer Re-

lieved. NEW YORK, August 16 .- A Times Washington special says General Sheridan has pushed his advance from Winchester to Strausburg, Early retiring Sheridan's intention to head off Early Officers receiving deposits will see that the and envelopehim between two forces, but ropper endorsements are made upon the origi- as it is now positively ascertained that Lee has sent at least 20,000 men to reinwill be a stout contest for the possession of that region.

> Gen. Palmer having been relieved at his own request of the command of the 14th army corps, has gone to his home in Illinois on leave of absence. That part of Kentucky lying west of ; the Cumberland river has been added to the Department of the Ohio, and placed under the command of Gen. Burbridge, who will, under the direction of Gen. Schofield, exercise the functions of de-

partment commander. General Butler at Work. NEW YORK, August 16.-A Herald Point of Rocks correspondent, of the 14th, says: For some time past General

Butler has been conning over a brilliant scheme wherewith to annoy the enemy and advance the Union interest in this region materially. His plan contemplates nothing less than the construction known as Dutch Gap, direct in face a the enemy, which, when done, should among other results, by reason of its situation, compel them to extend their line a distance of four miles -that is to say distance saved to us by digging the anal, which is to be fourteen yards in length, is seven miles of water course in

James river. This morning the men engaged on this work were shelled by the rebels rams, but our gunboat soon drove them away. Reported Army Movements.

NEW YORK, August 16.-A special to the World, dated Washington August 15th, says. There are plenty of rumors in circulation here to day with regard to the movements of the different armies in Virginia, most of which are undoubtedly without foundation. There seems to be little doubt, however, that important changes are going on in the disposition of the rebel forces, which, of course, must cause corresponding movements on the part of the Union armies, which will take some time yet to develope.

Latest News from Europe. New York, August 16.—The steamer City of Baltimore has arrived with dates more, by telegraph to Queenstown from London, August 4th, says: Consols closed at 891(689) for money.
