We willfurnish the DAILY POST, to agent the rate of \$2,00 per hundred copies LOCAL INTELLIGENCE.

PRIDAY MORNING, AUGUST 19, 1884. Recruiting at Present .- Recruiting is at displayed more energy according as the time approaches and consequently more men have been recruited within the last few days than at any single period since the late call. Those wards paying \$400 bounty are fast filling up, and if the are doing so at present, not one of the abov is expected to come off. Thus far we certainly have done far better than we could have reason ably anticipated considering the circumstances and baying liberal bounties have nearly free nemselves from all liability, and they will have already completed their full quota ere the 6th o provident and punish those who did not avail themselves of the opportunity and did not pass the aliotted time in filling up their quotas There are some districts where nothing or nearly nothing has been accomplished, and where the citizens attended to their ordinary business apparently unmindful of the baneful consequences of their apathy, without even directing a serious thought to what is to take place on the 5th of September. Here the draft will be felt severely, more so than any of 'the preceding ones. But they will bear only the consequences of their own improvidence. However those districts have time enough now to accomplish a great deal, and if they would only take courage an imitate their more energetic neighbors in raising funds and volunteers they might yet perform much towards reducing the number of men re-

The Great Boat Race.-The great boat race between the "Brown" and the "Twilight" came off on Wednesday. It was expected to take place on Tuesday, but as the terms of the match provided for smooth water, it was postponed on account of the rough weather which prevailed on that day. Soon after the race a ispatch received in this city announced that the Pittsburgh boys were beaten, and that the New York crew won by about one hundred yards, in 33:30. No further particulars have been received concerning the match, but as nothing is said to the contrary, we suppose that everything proceeded as it should. The result of the race has taken everybody by surprise Nobody, not even the New Yorkers the expected that this would be the issue. This can be easily proved by the fact that the betting was all on the side of the Pittsburgh crew, with such odds as 100 to 40. But the Brown won, and we congratulate with them on their victory although we cannot disguise our sorrow and disappointment that our champions were defeated. However, our men must not lose courage. They can repair all damages by defeating their adversaries in the next race, and if our tellow-citizens did not lay out too much on the issue of the first, they can replace their money also. Victory is not what tries a man's soul but defeat, and equanimity under defeat place the tonquered on a level with the conqueror If our unequalled champion had vielded t Ward after his defeat on the Harlem, he would not at present be deemed the invincible Northern waters. The men will bear this in mind, and they will proclaim by their actions that neither victory nor defeat is capable of dis couraging them.

Recruiting in the South.-The two gentlemen sent from this county to recruit in the revolted States, have not yet given us any account concerning their success or failures Probably the true cause of this is that their enterprise did not meet with the prosperous effect which they expected on their departure. Quite a number of our citizens thought that this ex-pedition would not result in as complete a success as was hoped for. But few thought, or at least openly expressed their opinion to the effect that the agents would accomplish nothing, and would return home as unencumbered with volunteers as they were at the start. The aleged cause of this failure is that the commanding officers in the departments to which the agents were allotted refused to co-operate with them in raising the men, and not only that, but utterly refused them permission to recruit within their lines at any time and under any circumstances whatsoever. The true and real cause, however, is that the negroes who desired to enlist were so scarce that only very few could be found, and these were already engaged by other more enterprising individuals. The negroes in the revolted States have been greatly reduced in numbers, and those who wish to follow military life on the receipt of a few hundred dollars, are still scarcer. The negroes found plenty of work and good pay, and were as fond of their precious lives as any white man. We will therefore have to depend upon our own resources to filt our quotas, and expect but

Strikes.-The laborers and mechanics have again commenced to murmur about their wages, and some have already demanded an increase, with a menace that they would suspend all labor until their demands were complied with. The workmen employed on the gunboats in the ship yard of Tomlinson, Hartupee & Co., struck for wages a few days ago. Their example was shortiy afterwards followed by other workmen in different pursuits, and finally the miners employed in the coal pits outstripped all others in their requisitions. They require that their wages shall be doubled, or else they will suspend all work until their claims are acceded to. This is an exorbitant demand. The men can in a great measure be excused on account of the enormous prices which provisions of all kinds have reached, but with such demands as these are, it is difficult to think that the workmen do not wish to take advantage of the present scarcity of labor to bring their employers to any terms they might please to give. We hope that the difficulty will end by a compromise on both

Notice to Citizens.-The mayor's police were yesterday engaged in notifying our citizens that the gutters in front of their dwellings and houses of business must be cleaned according to law otherwise he will proceed to fine the delinquents. We hope that this ordinance will be rigidly enforced, as the benefits which may be expected to accrue from it are numberless. The general health and aspect of the city depends from its cleanliness, and it would be difficult to find a large city which could be denominated healthy without having any pretentions to cleanliness, and without paying all due regard to the state of the sidewalks gutters and streets. We understand that there is an ordinance which requires the citizens to clean the sidewalks and gutters, but as far as we have seen it has never been either observed on the one side or enfor on the other. But now we confidently hope that this evil will be remedied and that the street, will be put in a state which will do honor to the city, and tend to preserve the general health of

New Military Company.—A new military company of one years men is now being organ. ized under the command of Capt. R. H. Long, late of the Pennsylvania Volunteers, to be ac credited to the Third ward. The Captain has erected an extempore recruiting office on the corner of Fifth and Smithfield streets, and we believe is succeeding well. This is a good op-portunity for all patriotic citizens to take the field for the brief space of one year under an ex

Hearing Waived.—The two prothers Dan-iel and Elias Smith, recently arrested in Allegheny having in their possession a large amount counterfeit money, have had their hearing postponed for the third time. They were both tted in default of \$3,000 ball in the United States District Court, and there they will be detained until their case is examined,

Meetings in the City.-Several meeting purpose of uniting the citizens in promoting th common welfare and have the requisite number of men in readiness previous to the draft. A united and concerted action, on the part of the citizens is assuredly the only means through which they can attain that diff, and these frequent meetings are the best instrument they can use to unite the people in one body for the good of all. We are glad rule table that the meetings are generally attended to aintimarous audienc laying a willingnession wheir part to perform their share in this public work which is truly craiseworthy. Such was the case last night, and among the many meetings which were he there was not one but was largely attended When the people interest themselves in th manner in anything whatsoever it be, success must necessarily attend their efforts.

Allegheny Wharf.-This wharf which no long since was in a very dilapidated state, ha undergone some very material improvements, which to say the least, were very much needed. It is now in a working condition, and will not cause the draymen and horses unnecessary is tigue and labor by the mud which was formerly collected in such large quantities on the over-worn structure. No doubt both draymen and horses will be exceedingly grateful to the city for the change, and will willingly excuse all par

tics concerned for having postponed it so long. Crutches for Sherman's Army.-The fol lowing telegram from Mr. Wm. P. Weyman now in Nashville have just been received. Let all the ladies of the Christian Commission pad the crutches send immediately on thousand pairs. These are greatly needed at the

Ladies who are willing to work for the wounded men are invited to City Hall every afternoon from 2 to 5 o'clock. Proceedings in Legislature.-It was esterday warmly debated at a special session

of Legislature, whether the troops refer red to in the fifteen regiments bill should be taken beyond the limits of the State, and the proposition was voted down after a warm and protracted debate. The bill enabling State Sanks to enter upon National associations was inally past, after being amended. Surrendered Himself.-Officer Hedger sur

endered himself vesterday to the United States Commissioner, a warrant having been issued for his apprehension on the charge of having nindered detectives Thornburg and Sarber in the performance of their duty. He was held one thousand dollars ball to appear at

Another—The third great sale of lots in Maple addition to Braddocksfield comes off on Monday next. Lots seem to be going off finely at Braddocks' and we are not surprised for their are few places in our vicinity where money can be not reason. e more safely invested to better advantage se advertisemen.
