LOCAL INTELLIGENCE.

FREDAY MORNING, AUGUST 28, 1884. Cighr Tax.-Smoking is not so general now as it was formerly. The increased tax on clears has succeeded wonderfully in reducing the number of those who indulge in that expensive luxury, and consequently the tobacconist does not carry on quite as lucrative a business as he did when everybody was accustomed to smoke regularly, even to the beardless youth id not as yet sport a moustache. Inyeterate smokers are few, and even these are ned to content themselves with a scanty amount, for fear of expenditure. For the in formation as well as the entertainment of these latter gentlemen, we will submit to their scru Iny the following important decision rendered he the commissioner of Internal revenue concerning the collection of the tax on cigars: Clears selling at not over \$13 shall be subject

\$30 do., \$8; selling at over \$30 and not over \$55 do., \$15; selling at over \$55 and not over \$56 do., \$25; selling at over \$85 do., \$40. Cigarettes in paper wrappers selling at over \$6 per 100, packages of 25 each, per 100 packages do., \$1. In paper wrappers, selling at over #8 per 100 packages of 25 each, per 100 packages do., \$3; made wholly of tobacco per me, do., \$5. For the purpose of aiding in the detection and prevention of fraud, the law provides for the inspection and stamping of cigars by an inspector. As a general rule, the tax does not accrue upon cigars until after their sale, and the advantage the fixed and positive basis afforded by the sale would designate the selling prices as the point of departure in assessing the tax, even if the positive provision of section 86 did not prescrit it for our guidance. But the inspection is made before the sale, and thus it follows that the in best he can, and this at a time when the tax ha been in tructed to estimate the value of cigar exclusive of the tax including in this estimate the cost of , woduction, packing, boxing, in specting and wh stever may properly be regarded as part of the expense of putting the comnodity into a complete and tinal condition fo the market, as well as 'be seasonable and ordinary profits of the manufacturer. After he has thus defermined the value, he will affix the stamp accordingly to the following schedule Not over \$5 per hundred packages, exclusive of the tax, \$1; over \$5 per hundred packages \$3 not over \$5 per thousand, \$3; between \$5 and \$15, \$8; between \$15 and \$30, \$15; between \$30

The Coal Diggers' Strike .- It is difficult er employers or employees seem desirous of coming to an agreement or making a compromise to that effect. The employers state that the demands of the diggers cannot possibly be complied with on account of the exorbitant wages they demand, and the latter allege that their present pay is too small, considering the her party seems inclined to give in, and while they are at loggerheads the people of coal, which necessarily follows. Several of did not in the least may the pleasures of the the manufactories which have been large consumers of coal, have resolved to suspend busthe time being, and consequently those who are engaged in this line of business will feel the effects of the coal miners' strike. At held on Wednesday, at the Board of Trade Rooms, the representatives of the different coal mining companies of this city and Allegheny, after a full and free interchange of views, passed resolution not to comply with the demands of the coal diggers, and appointed a committee to wait upon the iron, glass and other large con-sumers of ceal, for the purpose of inducing them to co-operate with the companies in reducing the diggers to terms. We doubt whether this forcible measure will succeed, but certainly mething must be done in order to provide al. We would advise the parties to come to the compromise with each other, and thus end and the audience were enthusiastic in their apsomething must be done in order to provide coal. We would advise the parties to co their difficulties for their own sale and that o

the community.

Emportant Announcement.—Provost Marshal Foster received yesterday a very important circular from Provost Marshal General Dodge, at Harrisburg. It says: "The following"

Pound.—On last Thursday a small sum of money, which the finder would desire to return to the owner on payment of expenses. Also, another small amount which was found last fall. and it is thought belongs to a farmer. Call on James Cauley, McIntosh's Court Allegheny. telegram has been received from the Provost Marshal General, viz: In closing the accounts of arghal General, viz: In closing the accounts of blate draft in your State, if there are still y deficiencies, let them be set aside on the words with explanatory remarks, but do not brace them in the quotes explanatory and brace them in the quotes explanatory are in much demand and going off rapidly. the late draft in your State, if there are still ment any deficiencies, let them be set aside on the wish to embrace them in the quotas assigned under the call of July 18th, 1854. The directions given by this telegram do not interfere with the directions heretofore given to the Provost Marshals with reference to making up the final accounts, JOSEPH METER.....ANTHONY MRYBE but are communicated to them for the purpose of informing them that it is the intention of the Provost Marshal General not to mix up the two drafts, as far as deficiencies under the las draft are concerned? A great cause of com-plaint among the enrolled men was the fear that the Government intended adding the deficien nies under the late draft to the quotas under the present call. The above order shows, however hat the drafts are not to be mixed up, so that if these deficiencies are to be filled at all, the drawin, q for them will probably be made under the old la W. Should the Government not require them to be filled, it will practically lesson the number of ten to be furnished and reduce to this extent, the tardships of the draft.

The Third Ward .- This ward has already nearly completed its quota, making efforts to raise the few men requisite to have it co. upleted entirely. The citizens are naturally congra. ulaselves on their success, and have begu." to lose all fear of the fifth of September. They well deserve their success, as few wards have accomplished more than they have in this matter. They have from the beginning united their efforts, and vigorously carried on the work up to the present time. They are indebted to no one else but themselves for their fortunate and enviable situation, because whatever was ac complished by themselves alone. They genously subscribed and raised the necessary bounty fund as a matter of course, success attended them, and volunteers came daily to enroll their names, and were all accredited to the ward. No one will ascribe their comparatively happy posi tion to a freak of fortune, because if any other wards had worked so willingly and energetically, the success would have attended their efforts. Some of them must confess that they displayed far more indifference in this respect than their neighbor, and consequently the number of men they raised is so small that they will be constrained to make gigantic efforts in order have their enrolled men not liable to draft. A few days yet remains, and if they shake th little, they may entertain hopes of perfecting a great deal ere the 5th of Septe

Soldiers Passing Through.-For the last week or so the city has been daily crowded with soldiers, either returning from the war, on their way to the front, to meet the perils of battle. Numerous regiments of hundred day. men from Ohio have already passed through here on their way home, their term of service having expired. The Subsistence Committee have as much on hands as they can do, to provide refreshments for them all, but they perform their work cheerfully and energetically, so that not one regiment has been disappointed of the many that arrived. Lot them come when they will, morning, noon or night, they have their s ready for them on their arrival. This conduct of the Subsistence Committee trnly praiseworthy, and is duly appreciated b

Defrauding Volunteers.—The House passed a bill making it a mislemeanor, punish able with five hundred dollars fine and impris nt, for any one to withhold bounty money

from volunteers entitled to it.

most important branches of the service, yet, as far as we have been able to ascertain tow of the citizens have directed their attention to it. For some unknown reason, they prefer the fa-For some unknown reason, the indifferent accommoda-tigues of marching, the indifferent accommoda-tions of camp life; and the italigers of the field to the easier and comparatively safer life of the sailor in the river pervices. The bothties are the same as that of the samy, and so is the pay. In these respects, the gunboat service is at least equal to the army, and in every other respect t surpasses the latter by far. In the first place, and what is still more attractive, they are not obliged to lie down on the cold damp ground to

the men have no marching to do, no heavy knapsacks to carry, no picket duty to perform, sleep after the many fatigues of the day. More-over, the rations on board the gunboats are distributed as regularly as the clock strikes, while it often happens in the army, that the soldiers can hardly procure their scanty pittance of hard tack. Let volunteers direct their attention to these important matters, and while our river flotilias require men, let them make the best of the opportunity. Woodruff's Sleeping Car -A new slee; -

ng car has been introduced on the Pennsylvaably ventilated on the principles of the best and most approved ventilation, so that the atnosphere is always fresh and pure, which, we are pained to say, is not the case in the generalto a tax of \$3; selling at over \$13 and not over ity of sleeping cars. There is likewise an admirable contrivance for heating, the heat passing from a stove underneath the flooring, to all parts of the car, and is equally distributed throughout its entire extent. The berths are of a very commodious size, and the overhanging urtains of brocade satin delaine, are unsurpassed for richness and beauty. On the whole,

ve think that this new invention is a model in

its line, and will be hailed with joy by the

weary travelers, who have heretofore been

obliged to sleep in a close, dusty car, hadly ven-

filated, and deprived even of the most ordinary

necessaries for the accommodation of passen-

Fourth Ward, Allegheny .- The statent made in yesterday's papers that this Ward was out of the draft, it appears, was rather mature; at least their advertisement in tois y's paper looks that way. There was a large meeting of the Block Committees last night, at track. the house of Mr. Faulhaber, and the subscripthe noise of our, raumaner, and the sauseriptions amounted to upwards of \$50,000; and the returns brought out the fact that, instead of our men, shot by Mosby's band, were being out of the draft, they have at least fifty men yet to put in. A motion was made to have a mass meeting of the citizens of the ward on TEN A. M.—Picket firing is now going ney not be promptly subscribed, a draft for artillery shots elicited no response yesbont fifty men will be made. This would be terday. rather rough, after putting in about one hunired and fifty men, and if the enrolled men fear the draft as much as they do in other wards they will soon raise the money.

Passed Through .- The 166th regiment of the city yesterday, on their way to their homes, their term of service having expired: This regiment has suffered considerably from sick. ness during their absence, two hundred being under the care of the surgeon at one time. The Subsistence Committee furnished them with

BUSINESS during the week was dull. The sles being limited, the rates were generally unchanged. The business of recruiting is now occupying the attention of ail parties in order to avoid the draft from appearing; we think this district will be able to clear itself. The only ransactions that came under our notice were

The market remains without essential change.
The supply of beef cattle was fair but not excessive. At the opening the market ruled firmer, but many cattle which were delayed by the washing away of bridges on the Erie railroad, are expected to come in before the end of the week, in view of which the market ruled heavy and prices showed more concession from the and prices showed more concession from the opening prices. The range of prices was above, but the bulk of good prices sold at 18

The Harvest in Minnesote. (From the Winona Republican, 30th.) The harvest is now rapidly drawing to a close, he wheat crop throughout Southern Minneso-The wheat crop throughout Southern Minnesota has all been out; and by the close of the present week but little of it will be left unstacked: From the beginning until now the weather has been remarkably favorable to harvesting operations. Our great staple is consequently being secured in excellent order. The wheat crop of this State is probably of a better quality and less injured by the insects or the droubgt than that of any other portion of the country. The yield too, is a goyd one. It is estimated by intelligent farmers with whom we have conversed that this year's crop is not only of as good quality, but it is also as great in quantity as any within the past three years.
