## LOCAL INTELLIGENCE.

SATURDAY MURNING, AUGUST 26, 1864. Chambersburg.-It is reported that the legislature has appropriated one hundred thousand dollars to the sufferers at Chambersburg, which, estimating the number of houses burned at two hundred and fifty, and the number of persons to each house at four, will be about one nundred dollars apiece or over. This, together with the large contributions sent from other cities will keep the people of Chambersburg out people have done a, great deal towards alleviiting their suffering, and were it not for the timely aid of the people, the Chambersburghers would have suffered far more after the rebel raid than during the time their houses were in flames, and they themselves were exposed to be shot down by ferocious guerrillas. The citizens of Harrisburg alone contributed the sum of twelve thousand dollars, and no doubt the other large cities contributed a considerable amount on their part, if not in proportion to Harrisburg. Yet it is said that they are far from being re-instated in the comfortable circumstances in which they lived before the raid. ed. We do not doubt this, but we doubt whether the people should replace all their lost property, and leave them just as if no raid had happened to molest them. During these hard times, char ity begins at home in a special manner, and evvide for those who depend on him for their daily sustenance. We think the people have conributed generously and willingly, and no doubt the citizens of Chambereburg are grateful for the timely aid proffered them from the people who knew their wrongs and felt for them. Now that they are out of danger from the want of the simple necessaries, they will probably look

The Miner's Association will hold its annual convention in Uncinnation Wednesday, the 7th of September, each lodge throughout the mining regions sending delegates in proportion to the number of its members. There will be present in that convention from five to six hundred delegates. What will be the result I know not. It is a combination of working men of waster proportions than ever before attained, with acknowledged ability at its head. The public cannot expect much benefit from this association, as most probably the chief end of it will be the mutual benefit of the members themselves. Nothing is more efficient than a combination of working men like this, in coercing their employers to pay unreasonable wages, but if the employers resist their demands when they appear extortionate, no doubt they will succeed in reducing them to terms in spite of the association. named William H Howe, of Oo, A, 116th Pennsylvania Vols., was to be executed at Fort Miffin, Philadelphia. The circumstances are as following the carollment, having Military Execution .- We learn that a man leserted from the army, and being at his house in Perkiomen township, Montgomery County, Howe, who is described to be a parfect desperado, vowed that he would resist the draft. With this intention he armed himself, and, taking advant. age of a fivorable opportunity, he waylaid and shot the enrolling officer of his district who was quietly pursuing his duty. Information of this being conveyed to Philadelphia, Deputy Mar shais Jenkins, Sharkey, and Schuyler started out in pursuit of the murderer. Having the start of his pursuers, he escaped to the mountains, armed with revolvers and bowie knife, being in fact little short of a walking armory. He roam ed at large in the forests and wilds of Western Pennsylvania committing numerous depredations upon the inhabitants, who became in dread of his approach for nearly a year. Finally, however, about three or four months ago, he was en trapped and made prisoner. Trial and convic tion by court martial soon followed, and if th Presidential mercy does not intervene this double criminal will soon suffer the fate which his act

The Volunteer Movement -The volunteer movement, which has reached such a stage of excitement in the city for the last few days, is by no means abating, and large numbers o men are daily recruited and mustered into the service. There is no lack of men in the city, and as long as the citizens do their duty willingly, unanimously and energetically, there is no oubt but the men will be found. Such, we are glad to say, has been the case for a week or more, and since that time their efforts have been attended with the most brilliant sucess. If they do not desist from their labor, their energy will produce the desired effects, and ere the 5th of September not a single man will be required to fill the quots. Under such brilliant prospects, we would betray an unpardonable pusil-lanimity, were we not to continue, and persevere until the work is finished, when we can afford to sit down and enjoy repose when our fatigues are ended. This is a time of labor; it is short, but during this short period, we must perform wonders, for by no other means can we avoid the draft. Let each one encourage his neighbor if his courage begin to flag, and excite him to perform a last effort during the few days that remain, so that while the draft is doing its work in other districts, we may return to our dinary pursuits in quiet and security.

Boy Killed.-On Thursday of last week, ent of a distressing nature occurred near Camp Reynolds, in Wilkins township, from the carcless use of a pistol. A soldier had in his possession a loaded revolver, which he could not discharge. A son of Mr. Isaac Mills, ed to be in company with the soldier, and asked him for the pistol, remarking that perhaps he could discharge the load. The weapon was passed to young Mills, who carelessly pressed the muzzle against his side, and began to work | CARRIAGE MANUFACTURERS, with the hammer or lock. In a moment or two the barrel was discharged, and the contents lodged in his body. He was conveyed at once to the residence of his father, and proper medical aid summoned, but the wound was pro-nounced mortal. The barrel had been loaded with shot, and the whole charge had entered the stomach. Some of the shot were vomited with the blood, which had accumulated in the stomach. The boy lingered until the following day, when he expired from exhaustion caused by the loss of blood. He was about thirteen years of

Ward sent two express wagons into our city yesterday, one bearing a flag, and the other a band of musicians, and in this styl: paraded the principal streets. The music was tolerable, and siforded some pleasure and entertainment to the citizens, but we object to the entire performance. Let the Ward keep within its own limits, and confine itself to ith nwn inhabitants, and we think they would do mail better. If they think to decoy our men over there, by a maintail performance, they are laboring under a serious hallocination, and if they think themselves able to induce them to enlist, to their credit, by a promise of a larger bounty we can tell them that this has often been resorted to in vain before, or in mare expressive language "Its played out."

At a meeting of the cilizens of the Ward held at the school-house, last; evening, Josiah King, Eaq., in the chair, Mr. Henry, Irwin, Secretary, the following committees were appointed with instructions to report to an adjourned meeting. to be held at the same place, this evening, a

The Great Purifier—The World Challenged to Produce its Equal—The Blood Searcher Gloriously Triumphant—Swars statement of avid McCreavy, of Napier Township, Hedford County:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, when soon became enlarged and sore I made poultness of sorrel, and a wash of blue vitrol, without erfect. Finding the sore extending, called on Jr. Ely, of Shelisher, who pronounced it CANCER, and prescribed a wash of sugartogical and bread poultness. Finding these remedies of no avail. I called upon Dr. Shaffer, of Davidsville, Someter county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic—but all to no purpose, as the disease continued spreading towards the nose. I next used preparation of arsenic, in the form of salve. This for films checked the cisease, called upon Dr. Statler, of St. Clairsville Bedrond Cancer, and applied a salve, said to be in never falling remedy, but it had no effect whatever in the same year, the disease had eaten away a greater part of my lip, and attacking in yoose, when I went to Cincinnati, where I consulted Prot. R. S. Newton, of the Electric Medical College. He pronounced the disease a nature of the content of the conte

that a cure was impossible. In March, 1866, I bought a bottle of "Biood-Searcher," but I must conness that I had no faith in it I was very weak when I commenced using it; but I found that I gained strength day by day, and also their the uncers commenced drying up. I continued and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle and I have been healthier since than I have been for the last several years. Althoughmy face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done through the romantality of "Lindsucy's Improved Bloud-Searcher."

Being afficied with a grievous tetter on the arms and lace—after trying many remedies which utterly tailure to cure—I was persuaded by W. M. itarris & Co., to try "Londsey's louroved blood-Scarcher," and now, six weeks after using the second bottle, pronounced myself cured. The feet iter broke out something over one year ago, on the inside of my arms, extending from the chlowed down to the wrists alsoon my face, formed in the continuent to the wrists alsoon my face, formed to be a perfect forment to me until cured by the Blood-Scarcher. My arms were it cired by the Blood-Scarcher. My arms were it cired by the Blood-Scarcher. My arms were it care almost useless, owing to the deep cracks and sores on them, liable to bleed at any time on the leaster—eriton to litt or work, and sometimes so fiely I could scarcely prevent tearing off my fesh. I have now been cured six weeks, and I feel it due to Mr. Lindsey, and to the public generally, to make this statement in hope that others like my self may be benefitted by using his invaluable.
