TUESDAY MORNING, AUGUST 30, 1864. The Militia Law of Pennsylvania.-The following is a summary, for popular use, of the principal points of the militia law of the State, as amended by the Legislature, which The militia consists of able-bodied white citizens, between twenty-one and forty-five years, except idiots, lunatics, drunkards, vagabonds,

The citizens exempt from enrollment are those physically disabled, members and officers of the Legislature, heads of State department at Harrisburg, judges and clerks of courts, sheriffs, recorders of deeds, registers of wills, prothonotaries and district attornies, militia officers who have served seven, or volunteers who have served three years The enrolled militia must drill by companies

thrice, and by regiments at least twice a year. The penalty for non-attendance is five dollars The State is divided into twenty militia divi-

The enrolled militia must uniform themselves. The State allows for each uniform \$6. The penalty for neglect or refusal \$25

tive service except in case of invasion, insurrection, riot or tumult made or threatened, or in obedience to the orders of the Governor When in service the militia receive the same pay as United States troops, and the families of ead or wounded are entitled to pensions. The Governor possesses all needful powers to organize the entire State militia, and, ia addition has special power to organize as many regiments as he may think proper (not exce fifteen), to be called the Pennsylvania State

Guard. The companies of the organization elect their own officers, but the Governor appoints the regimental officers. This State Guard may be kept in service as long as deemed necessary, not exceeding three years, and the men may be raised by draft in the whole, or any particular part of the Commonwealth. When drafted, either in the State Guard or regular militia, the man must appear in person or by substitute, or else "suffer such punishment as a court martial may determine."

The militia bill and its two supplements com prehend an immense mass of details, and define the duties and powers, of officers enrollers, and assessors, the method of arming, equipping, &c., &c. The three laws, consisting in the aggregate of about two hundred sections, are in the hands of the State printer, and will be printed by authority of the Legislature at an early day. The militia of Pennsylvania, like those of any other State, are made subject to the call of the General Government at any Military Execution -We announced in a

former edition, that W. H. Howe, of the 116th Pennsylvania Regiment, was under sentence at Fort Mifflin for murder and desertion. have since been informed that the sentence was put into execution. The circumstances attendng his execution are thus described: "At fifteen minutes of 12 o'cleck, the Adjutant's call was beat and the troops put under arms. The soldiers formed in a square around d. He was then brought out into the center. He was dressed in citizen's clothes. His hands were ironed. These were removed, and in company with Rev. Mr. Krotel, he walked up the steps and on to the platform. He was not assisted and appeared to need none. At this time the scene wes a solemn one. The sol-the vital organs while on the ramparts of the fort nearest to the gallows, the workmen gathered in little knots, and watched the proceedings. Within ten feet of the scaffold, a party of deserters and bounty jumpers, confined in one of the casemates had full view of the execution When Howe reached the platform, he drew from his pocket a piece of paper, and, in a clear full voice, read a statement to the audience acknowledging the justice of his sentence, and when he had done the prisoner and the Rev. Mr. Krotel delivered a most impressive prayer This concluded, a sergeant of the guard came up on the stand and replaced the irons upon the wrists of the condemned, who, during the whole of the trying scene, was calm and unmoved. The rope was arranged around his neck; the white cap was adjusted over his face; a few

descend, and the drop fell at seven minutes past

twelve o'clock. He fell about four feet, and a

few nervous twitchings of the legs and arms ensued, and all was quiet. Recruiting in the City.-The volunering mania which pervaded the city dur ing the past week has by no means abated, coutrary, resterday it seemed to have which prevailed was never before witnessed since the days when men were so plenty that all the applicants could not be received. If you would Judge from the numbers crowded together in the street, you would think that work was unanimously suspended by all, and that the draft absorbed all other business however interesting. Although volunteers were everywhere to be found nevertheless the bounties are on the increase, probably on account of the proximity of the draft. The volunteers demand higher bounties than formerly because they know that several wards are determined to come out of the draft at any price, and are willing to pay whatever bounty is demanded if it do not appear entirely too exhorbitant. We are informed that \$500 were offered for men yeserday, and in some cases over that amount. Sixteen hundred dollars is the amount offered for a three years substitute, and no doubt many will turn the opportunity to the best advantage. Men are plenty, and if the citizens raise the money they can free themselves from the draft, if not they will have to bear the consequences

young lad named Watts about 16 years of age was walking on the track about a mile at this alde of Irwin station with his attention directed on the freight train which was approaching in front of him, he was run over by the Baltimore express bound East. It appears that hearing the whistle from the express he imagined that it proceeded from the ireight train and as Boy Killed .- Yesterday afternoon as a that it proceeded from the ireight train, and as he was walking on a different track he proceeded onward without further apprehens was mangled in a frightful manner, both his legs were broken, and the train buried him off the track killing him instantly. How long will people persist in walking on the track, when they are exposed to so much danger.

Fatal Accident.—On Thursday morning last ANUFACTURERS OF SHEATH,

Pannsylvania Regiment in Trouble. A difficulty occurred in Baltimore between the 22d Penesylvania regiment, Col. Glenn, (a three rears veteran regiment on their way home,) and the Provost guard, composed of the 8th Massa chusetts regiment of hundred day men. It ap. Park Rew, New York city, and No. 6 State Pennsylvania regiment were resting at the Union relief rooms, awaiting transportation to Philadelphia, and that Philadelphia, and that some of them got out and nucceeded in getting enough liquor to get intoxicated. These men then severely beat a sergeant the regular army infront of a lager beer house

a Eutawstreet, near Camden The Sergeant reported the facts at the provost narshal's office, and the provost guards were or-dered to arrest the offenders. They succeeded in arresting two of them, but not without much sides. The facts of the arrest coming to the ears of the remainder of the Pennsylvania regiment they all repaired to the provost marshal's office y idle curiosity. The Pennsylvania regiment, owever, did not attempt to enter the Provost Marshal's office or the military prison, and thus

loody and terrible recontre was avoided. In the meantime Col. Wolley (who had been ions, each county is a separate brigade, except with pistols, sword drawn, and rode among the rioters, ordering them to desist. They pointed rioters, ordering them to desist. They pointed their guns and pistols at him, both from the windows of the building and in the street, and cried ont, "let's hang him; shoot him," &c., but he The militia is not liable to be called into ac-

ers, and locked them up in the military prison. The rest of the regiment quietly settled down at the Rest Rooms, to await transportation home. In the meantime a number of the troops station ad around the city arrived at the provost marshal's office, thus doubly insuring quiet. The Pennsplyania regiment went into the war three years ago, 1,500 strong, and return home with 250 men, having seen some rough service.

Oil Strike.-Oil was struck on Thursday ast on the widow McClintock's farm. Since the oil was first struck, and the pumping commenced the quantity of oil yielded has been on the increase. At first the yield was only fifteen bbls. er day, but now it doubles that amount, with i fair prospect of a still greater increase. Col. Gallope's Regiment.-This regi-

ment, which commenced under such brilliant auspices, has already recruited over 1500 men, within the past week. More can be easily procured, if the Colonel desire to receive them, which we believe it is his intention to do. Lawrenceville Bounty Fund.—The bscribers to the Lawrenceville bounty fund,

are hereby notified to call at Squire Janey a office, forthwith, and pay the amount of their respective subscriptions. The men are ready; all that is wanting is the money.

Theatre—Sea of Ice.—Last evening, this thrilling five act sensation play was produced for the first time in several years, and its reception must have been a great source of gratification to Manager Henderson and his assistants for the beautiful manner in which the play was put upon the stage Ever since the re-opening of the theatre this wonderful and effective piece has been in active preparation. The great success which it has met with in New York at Niblo's and other theatres for the last two months, induced the manager to produce it here. The scenery, costumes and worderful mechanical effect are much finer than anything of the kind that has been brought out here for many months; and we trust that the full patronage of our drama-loving public will come out on the occasion of the production this great work of art. Let there be another jam to-night and others on the presentation of the Sea of Ice, and we assure our theatre-going friends there will be no cause of complaint for the want of novelties at the Pittsburga Theatre.

The Fight at Ream's Station. NEW YORK, August 29.—A special dispatch to the World gives the following account of the fighting on the Woldon

Railroad: The second and third divisions of the Second Corps went down on Wednesday to near Ream's Station to continue the destruction of that road, and had effectually succeeded in that ob. ject for a distance of some ten miles, sistance, and many blows being struck on both without encountering very much opposition.

Yesterday morning, however, the rebwith guns, pistols, &c., vowing they would resels massed Early's corps and two divioue their companions. When they came in front of the office the provost guard again attempted to make further arrests and then a serious difficulty ensued—pistols were fired and bricks at a very early hour. About eight o'clock they charged our lines in front of delegation. Vallandigham is understood to have pledged himself to the candidate oue their companions. When they came in front sions of Longstreet's corps, in front of were handsomely repulsed, although they fought with the utmost determina-

NEW YORK, Aug. 28.—The Tribune'. special sums the results of the fighting on the Weldon road as follows: First that the enemy were successful after repeated and impetuous assalts in com-pelling the abondonment by our forces of the Railroad below Ream's Station. Second, that although attacking in vastsuperior numbers, he received bloody repulse in three successive instances. Third, that his loss in killed and wounded must have exceeded ours by twice the number; and finally, by an overwhelming force he succeeded in forcing us back from our entrenchments on the other side of the railroad, below the station—a position which we had already decided to abandon.

News from Cairo and Below. CATRO, August 28.—The Union men of Ballard county, Kentucky, gave a barbecue at Blondville yesterday. Over two thousand people were present. General Meredith who commanded the post at Cairo, addressed the assembly urging them to take a decided stand for the Union, which was well received. Resolutions were adopted in favor of the suppression of the rebellion, and furnishing men and means for that purpose. The meeting was very enthusias-tic. It is believed Ballard county will

give a great majority for the Union can-didates in the coming election. Similar meetings will be held in other countie of Kentucky and Missouri, contiguous to Cairo. A marked change is taking place in the sentiments of the people in this section of country, attributable to the recent determined course of the military authorities. The Steamer McGill, from New Or-

leans on the 22d, has arrived. The news from the fleet at Mobile Bay is rendered valueless by the announcement through the Richmond papers of the fall of Fort Morgan, T. M. Cook, correspondent of the New York Herald, and J. B. Chadwick, of the Tribune, with Gen. Granger's army, were ordered beyond the lines by Gen. Canby, fer to the enemy.

The battery was supported by five hundred cavalry. General Brayman, commanding at Natchez, sent a force in pursuit. The steamers Check and Atlanta suit. The steamers Check and Atlanta reported captured by the rebels up the Yazoo river, have arrived safely at Vicksburg with good cargoes of cotton. A large number of rebel prisoners arrived at Vicksburg, recently captured fifteeen miles back of Milliken's Bend. Two hundred guerrillas were seen at Commerce, Missouri, to-day.

CHICAGO, Aug. 29.—At the close of Mr. Belmont's remarks, he nominated Ex. Gov. Bigler, of Penn., for temporary President, which motion carried unanimously. When the cheers which greeted Gov. Bigler, subsided, he said: Gentlemen of the Convention: I am greatly honored in your selection of me, to preside over the preliminary deliberations of this body. My acknowledgments for this high compliment, and for the kind greetings just extended to me by this vast concourse of my fellow-citizens will be best manifested by a proper discharge of the duties of the position to which you have called me. It is not delegation is here working hard to effect expected, nor would it be befitting in the appointment of Gen. Butler to the one assuming the mere temporary Pres idency of the Convention, that he should enter upon any general discussion of success. the many topics suggested by the unhappy condition of our country. A brief allusion to the occasion and purposes of our assemblage is all that will be necessary. No similar body ever as-

sembled in America with mightier obects before them, or to which such a vast proportion of the American people looked with such profound solicitude for measures to promote the welfare of the country and advance their individual happiness. The termination of demo-cratic rule in this country was the end of peaceful relations between the States and the people. The elevation of a sectional party to authority at Washington, was the culmination of a long indulged and acrimonious war of crimination and and acrimonious war of crimination and states. The states are assets as the section of the elevation of a long indulged and acrimonious war of crimination and states. The states are assets as the states are as war, even the bulwarks of civil liberty have been imperilled, and the whole fabric brought to the verge of destruction, and now at the end of more than three years of a war unparalleled in modern times for its magnitude and for its barbarous desolations; after more than two millions of men have been called into the field on our side alone; after the land has been drenched in fraternal blood, and wailings and lamentations are heard in every corner of our common country, the hopes of the Union, our cherished object, are in no wise improved. That the task will be well performed, I have unfaltering faith, and that the people may sanction and God may bless these means to the desi-

It might be otherwise in regard to the territories. If there were gentlemen from them accredited to as we are, under all the circumstances.

the adoption of such a resolution would, in his judgment be productive only of confusion and disorder. (Cheers.) On motion, the resolution was referred to committee on credentials. TOWN A NOW EVIDENCE -

Being afflicted with a grievous tetter on the arms and take—after trying many semicites which utterly lathure to cure—I was persuaded by W.M. Barris & Co., to try "Lindsey's Improved Blood-searcher," and now, six weeks after using the second bottle, pronounced my settle cure. The tetter broke out something over one year age, on the inside of my arms, extending from the chows down to the wrists; also on my face, immediately around the mouth and chin, and continued to be a perfect turnent to me until circle by the Blood-Searcher, dily arms were as times amost uncleas; owing 'fo' tile deep 'cracks and forts on them, hable to bleed at any time on the leastexer could scarcely prevent tearing off my flesh. I have now been cured six weeks, and if elected to Mr. Lindsey, and to the public generally, to make this statement in hope that others like my sell may be benefitted by using his invaluable medicine.

J. M. Lindsey—Dear Sir: We are very near out of your medicine; please send us two dozen. We would just say that your medicine has oured a case of Serofula that has been coming on for you could see the sinews working. She is at the eighth of the new, and the flesh is growing on very fast. Your Hood Searcher is going all over the country. The people are very much pleased of our account, and oblige us.

Yours truly, JOHN RALSTON & O. Elderton, indians Siathon.
