We direct the attention of such of our readers as desire a safe investment in oil companies to the advertisement of the "Nonpareil." The location is on the Allegheny river, near Oil Ureek, and embrace 23,000 acrea, upon which is one producing well and three others sunk to a depth of three hundred flest; which will be prosecuted to the regulates depth at once. A full and complete stock of fall and winter goods is now to be seen at the dry goods store of art. Mentzer, No. 94 Markef street. Mr. Mentzer's stock is not to be lequalled in the city for beauty and variety, and the near approach of cold weather should be a sufficient inducement to the community to examine his stock of winter goods, which are of the best material and at the lowest prices. our mercy.

FRIDAY MORNING, SEP1, 16; 1864. Speculation. The high prices of things can be accounted for in no other way than by the schemes of planning speculators who wish te enrich themselves out of the necessities of the people. It is said on reliable authority, that the crops this year are by no means inferior, either in quantity or quality, to the average crops of any of the preceding years, and some even go so far as to add that it is, in many respects, far superior. Notwithstanding this important fact, provisions are as dear as ever and have an upward fendency which will, doubtless, end in an increase of price. There must be some reason for this, and it cannot otherwise be occounted for than by speculation. The deprecistion of the currency has certainly a great deal to do with the matter, but now that the price of gold is falling, why do not the prices of provisions, clothing and other necessaries also declin in proportion. If those who took the opportu-nity to increase their prices ten per cent. when gold advanced but five, would now betake themselves to the contrary, while the price of gold is on the decline, no doubt we would be relieved in a great measure of our present difficulties. But dealers will not do this; not a few of them resort to every expedient imagina in order to enrich themselves at the expense of the people. Some even go so far as to hold their present stock on hand in hopes that the demand will increase in the course of time, and thus a great many things are kept out of the market which would contribute vastly to the benefit of the people in a pecuniary point of view. It is said that the dealers throughout the West are holding ten million dollars worth of wool for higher prices! This betrays a desire to enrich oneself utterly contemptible. There is some thing noble and honorable in the life and dealings of a merchant, but such men as these are

Negro Shot in Cincinnati -A negro named Henry Husman, who left this city but a few days ago on the steamer Dunleith, got into a dispute with a white man in Cincinnati soon after his arrival. The white man, seeing that was going to get the worst of the beat a hasty retreat, pursued all the while by the negro, until he was met by an officer, to whom he related who had happened. The officer remonstrated with the negro, which only tended to incense him more than ever, and drawing a knife he attempted to stab the officer, cutting his clothes in several places. The latter, finding that he was compelled to act in self-defense, pulled out his pistol and shot at the negro three times, wounding him in such a manier that he died shortly afterwards. An inquest was held on the body, the verdict of the jury exonerating him from all blame in the mat-

Meeting in the Fifth Ward.-A mass CORNWELL & KEHR, meeting was held last eyeniag by the citizens of the Fifth Ward for the purpose of making a last CARRIAGE MANUFACTURERS, effort towards filling tiefr quota. The ward is not yet quite out of the draft, but as only a few nen more are requisite, it will certainly reach its full complement ere next Monday. It was rather distory in the commencement, but of late it has displayed an energy and perseverance in raising volunteers which could be compared favorably with that of any other ward. Their meeting last evening was very largely attended. and the citizens generally manifested a thorough which they have at present on hand.

HEADQUARTERS ARMY OF THE POTO-MAO, Sept. 14.—Picket and artillery firing has been kept up very briskly since Saturday, the ire of the rebels not seeming to have cooled off yet at being surprised and losing so many prisoners. Some five or six of our men have been brought into the hospitals, the majority badly wounded, and some few have died. Yesterday a large mortar opened on the right and thew a number of shells into Petersburg with great precision. A rebel sharpshooter this after no on stole across the Appomattox, and, watching his chance, shot one of our men at a battery. He was soon discovered, and as he was making his
