COMMITTEE ON MEETINGS. The Case of Charles Dicken.-In th Court of Common Pleas, on Monday, Judge Mellon delivered the opinion of the Court in re-gard to the charges against J. Charles Dicken, preferred by the members of the bar, to have his name stricken from the foll of attorneys. The harges were substantially as follows:

ors. 3. That in a case pending in court, and about to be called for trial, wherein he was counsel for the defendant, he made overtures to other members of the bar to procure the intoxication of the opposing counsel and offered money to defray the expense, and made other efforts to accomplish that object, with a view, to defeat the atterne party in the cause. The opinion of the Court was that the first and third charges are proved. The question of

sel for the respondent, is discussed at considerable length in the opinion and the following conclusion reached:

"We have no doubt, therefore, of our jurisdiction over those charges in the manner they are brought before us; and as the first and third charges are substantially proved, it becomes our duty, however unpleasant, to make absolute the rule which was entered upon J. Charles Dicken, esq., on the 9th of July last, to show cause why his name should not be stricken from the roll of this Court."

The following is the decree: "And now, Sept. 25th, 1864, it is ordered that the name of J. Charles Dicken, esq., be stricken from the roll of attorneys of this Court; and it is further dirocted that the same order be entered on the records of the Orphans' Court, and Court of Oyer nd Court of Quarter Sessions."

Election Returns - Important Laws. The delay in publishing the pamphlet laws of 1884, prompts me to call the attention of the election officers to the extension of the act of May , 1861, to each election poll in Allegheny county having over 300 votes. It was originally conaned to Philadelphia city, but now in

Hereafter, at the spring Township, Ward and lorough elections, two additional inspectors are be chosen and known as return inspectors each of whom shall appoint a clerk. The duties of these officers are pointed out in the third sec-

tion of the act, as follows:

"That it shall be the duty of said Return Inspectors, once in each and every hour during the election, to count the tickets, and thereupon deposit the same in the ballot-box provided for this said purpose; that they shall make publicity known the result of said election; that if any discrepancy shall occur between the tickets and the tally list kept by the election of the thing that it shall be the duty of the Return Inspectors to make a recall of the same at the time it shall be it discovered; and for this purpose shall have free access to the tally list."

The act extending this law to Allecheny course. The act extending this law to Allegheny county authorizes each of the inspectors elected last spring to appoint a Return Inspector for the present year, and each Inspector so appointed is o appoint a Return Clerk. They are to be paid the usual per diem allowed to other election oficers. The whole of the act, now extended to this county, can be seen in the pamphlet laws of 861, pages 575; 576 and 577. As these changes require to be noted, I have written the above over

ny own signature. Murder in West Virginia.-Dr. Wm. Park, a citizen of Jackson county, residing near Ravenswood, West Virginia was killed on Wednesday last, by Capt. Kennedy's Home Buards, under the following circumstances: some of Kennedy's men pressed one of Di Park's horses for the purposes of going on a scout. The doctor asked a privilege of going to own with the men to see if he could not get his horse released. Shortly after leaving the house on the way to town, one of the soldiers shot the doctor in the head, killing him almost istantly. Parks voted for the ordinance of seession, but has never been charged with any other act of disloyalty. The act is universally enounced as an unjustifiable outrage, and if

the circumstances have been correctly reported. he perpetrators should at once be drought New Sewer.—At the regular monthly meets ing of the Select Council, held on Monday, an ance for the construction of a public sewer on Carson street, in the Ninth Ward, from the end of the present sewer on the south line of Penn street to the south line of Liberty street was read three times and passed. The people in that neighborhood would certainly be very thankful to the city for such an improvement. It is greatly needed, and if constructed in a propmanner would add greatly to the comfort of the citizens in that part of the city. In this respect there is room for improvement in many other parts of the city besides the Minth Ward, and these defects will no doubt cause a great many inconveniencies to the city during rainy weather, but we hope that they will be reme-

died in time to prevent any serious annoyance. Female Help at Oil City.—It is stated that there is a great scarcity of female help at Oil City, and that hotels and private families are greatly in need of servants. This is really strange, and it is difficult to account for such a enon. Good places and good pay may be readily secured, and a good female cook can command from three dollars and a half to four ollars and a half per week. This is truly a good chance for all industrious girls who wish to earn an honest living. But although we have no reason to complain of such a scarcity in our oity, yet we would object to any of our girls going to Oil City. Massachusetts papers complain of the great surplus of females in that State, which is every day increasing. Wonder if we

could not induce some of them to emigrate to Oil Oity ? This should reduce the prices of provisions wonderfully, and we would advise our dealers to read the papers continually, so that they may lower the prices of their goods in proportion to the fall in gold. They kept time remarkably well with the rise, and we see no reason why they should cease to observe the fluctuations in the price of gold now as well as and secured some important heights in

Pic-nic.—The pic-nic to be held at Iron City Park by the St. Vincent de Paul Nociety for the benefit of the poor, and which was announced for last-baturiday, was necessarily postponed on account of the foul weather which pievalled in the forenoon of that day. It will-certainly be held on the first of tectober, when all those who have heretofore so generously promoted the interests of that charitable society are invited to attend. Admission tickets only ten cents.

Myers, Schöyer & Co. No. 39, Fifth street, have secured a it of othese excellent pens, which having been recently purchased, they offer at prices correspondent with the present decime in gold. They have also on hand a line assortment of strettonery, envelopes, &c., &c. Cive them a call. Sharpley's Minstrels.—We have not yet found an opportunity to witness the performances of the above favorite band of minatrels, but from what we understand they are well worth a visit. Masonic Hall was crowded during the last two nights, and the audience was perfectly delighted with the genuine wit of the performorers. Another large audience is expected to night, and all those who wish to attend should come as early as possible.

Special Advantages of this Loan. IT IS A NATIONAL SAVINGS HANK, offering e higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government at arities or in notes or bonds payable in govern ment paper.

Convertible into a Six per cent 5-20 Gold Bond.
In addition to the very liberal faction on the notes for three years, this privilege of conversion is now worth about three percent per annum, for the current rate for 5-20 Bonds is not less than nine per cent, per annum, and before the war the premium on six per cent. U. 3. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not tess than ten per cent. per annum. ITS EXEMPTION FROM STATE OR MUNI-

CIPIAL TAXATION.

But aside from all the advantages we have Survaside from all the advantages we have; ennumerated, a special act of Congress exempts all bonds and Treasury notes from local taus-tion. On the average, this exemption is worth about two per cent. per annum, seconding to the rate of taxation in valious parts of the country.
It is believed that no securities offer so greated inducements to lenders as those thankers induced with government. In all other forms of ladebtadness, the faith or ability of private parties, o stors companies, or seperate companies, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.
