Below will be found a certificate from the one o most respectable citizens of Wilkins township in regard to Dr. Keyser's Lindsay. I had tried a great deal of medicine for them. , I used to buy and take whatever I could hear of or read of in circulars and pamphlets that fell in my way, but I could not get cured, sometimes they would do me some good for a little while, but afterwardthey would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would not do, I could not get well. Over a year agg not an advertisement of your Lindsay's Blood-Searcher, made by yourself-when you sold it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then call ed to see you again, when you said I could n expect much benefit from one bottle. I bought it on, one bottle at a time, until I have hottles. After this quantity had ocen, used, I was entirely well of the Piles, which had tortur d me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and

there is noappearance of a return of the disease; I can do any kind of farming work now without the Piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When I ound out your Blood-Searcher I kept on taking it until I got entirely well. I consider it my duty to make my case known to the country for the benefit of others who may be suffering as I was and do not know the value of your medicine. NOTICE TO ALL CONCEINED.—
Among a certain class of self-important people there is a peculiar feeling of contempt attached to all physicians that advertise and treat the discassenamed in this card, (PRIVATE DISEARSA), why this should be, they nor no one else can tell. Are they not aware that all physicians treat diseases of every denomination, in fact solicit just the very diseases that are so obnoxious to these very refined parties. I suppose they would not let one of their family portos to a party that has devoted years for their benefit, because he advertises the fact, and their family portos that has devoted years for their benefit, because he advertises at last to the physician that advertises—how else at last to the physician that advertises—how else at the proposed of the party of his life. He comes at last to the physician that advertises—how else are they to know? Are they not aware that Sir Astley Cooper, Sir Benjamin Brodie, Sir Charles Ball and M. Paul Ricord devoted years in the treatment of these diseases? These men are held up as shining lights in the medical world; i don't assert that all men are worlty that publish, still treatment of these diseases? These men are held up as shining lights in the medical world; I don't assert that all men are worthy that publish, still there are agreat number of them that are. I have devoted myself to the study and treatment of PRIVATE DISEASES upwards of 40 years, and without egotiam can say I have saved hundreds from years of misery and untimely death. My treatment is confined to the vegetable altogeneral success: but my long residence in this city is sufficient proof without adding more. Spermatorrhea and all diseases arising from it are cured in a much shorter time than heretolore. It behooves every young man and woman to be careful in selecting a physician. Nor shall I complain that the Tories and Rue-Light. Federalists, and their successors in traitorous blood and political heresy, chose for themselves such handsome party appellations as "Federalists," "National...Republicans," "Anti-Masons," "Whigs," "Free-Soilers," "Native Americans," and—Heaven pardon their desecrating impudence—"Union Men!" Let them blaviate, for their little hour, upon their triumph over the "Union Savera," and over the ruined Union itself, now past profoundest sorrow that Abolitionists and without remorse—he has taxed and Disunionists have driven away the every interest and every pursuit, every watchers and strangled the Union on its whether they call us "Union Savers" or "Copperheads," when our elections are controlled by bayonets, when the saored 10. But I shall plead for the "Union Savens," now "Copperheads," that they governed this once happy country, for the greater part of its existence, with wisdom and success.

They did not diminish its territory but they acquired from France, Spain, Mexico and various Indian tribes, by cheap and honest purchase, or by square fighting and honorable treaty, millions upon millions of acres of fertile landsthey peopled those territories with white imagerants, induced to come hither by liberal laws of naturalization, which were passed and sustained against re-peated attacks of Federalists, Plug-

Uglies, Church Burners and Know Knothings,
They fought the war of 1812, and in spite of Blue Light Federalists (the ancestors, personal and political, of the Abolitionists,) they secured for our commerce the "freedom of the seas." They published and declared to the world the "Monroe Doctrine," and they maintained that doctrine as long as they vere able to maintain the Union They vindicated the honor of the country and greatly extended its boundaries and material wealth by the war with Mexico. And this they achieved though the now President of the United States, then a Congressman, refused to vote a dollar to that war, and though

satraps, Butler of Massachusetts, Andy Johnson of Tennessee, and the convicted and pardened Rish, at Baltimore, and like the infamous Cameron and the crew of Contractors. No "Copperhead," has like Palmer, an officer in New York Custom House, supplied the eneint with articles required by them to carry on the war. No "Copperhead," like Howard, the pardoned forger, has been accused of forging any public documents with the name of Mr. Lincoln attached. All these and similar crimes against the State, all these crimes against the Treathe people who now rule over us and revel in our miseries, wished that our soldiers in Mexico would be welcomed "bloody hands and hospitable graves!" They made France (in the days of the Union Saver Copperhead Jackson,) pay-the debt she honestly owed to our despoiled merchants. They quelled rebellious South Caro

lina (by the Union-Saving Jackson) and brought her under the laws of the Union, without shedding one drop of fraternal They were able to protect our frontiers against tens of thousands of hostile Indians, and to chastise them into sub-

They must op-pose Abraham Lincoln and all his works and ways; because, as has been above, he is indeternal even the small. They preserved the commerce and manufactures of the country, advanced MANUFACTURERS OF and handed down to our present incomshown, he is unfit to rule even the smallest fragment of the country, and HE-CAUSE HE CANNOT AND WILL NOT RESTORE AND SAVE THE UNION.
